Caprikorn bucks served 31 outside does in '92 and other people are timing their cycles and counting on bucks being here when they are promised.

The lessee must make a deposit for the cost of the buck. It will be refunded when the buck is returned alive and unharmed.

The lessee is responsible for keeping the BUCK's hoofs properly trimmed. If the lease is for a period lasting longer than 90 days, then the BUCK is to be wormed at 90 days.

The BUCK is to be housed separately from all other bucks at all times.

The cost of the lease is _____, to be paid:

1. \$100 UPON SIGNING THIS LEASE TO RESERVE THE BUCK.
2. The remainder at the time the buck is picked up.

The lessee is responsible for submitting to lessor the Service Memorandums filled out for signature within 30 days of the end of the lease. Lessor will issue individual service memorandums upon receipt of all monies due under this agreement.

The BUCK is not to be collected.

At your discretion, the BUCK may be used for outside breedings. For outside breedings you are to charge _____ per doe (_____ per doe for additional does from the same owner). Check is payable to Caprikorn Farms and Caprikorn Farms will send you a check for half at the same time we deposit the check from the doe's owners and sign the Service Memo which the doe's owner has filled out.
