But Scott recommends this possible buck kid for
dairy farmers that cannot afford a buck from a proven dam

-Future Kids from the 600's - does born in 2016-

The following dams listed on the left side are first fresheners. For many years it was considered wrong to sell a buck kid from a first freshener. We try to ship at four weeks. We will report to you on the dam's progress 4 weeks into her lactation if we don't feel she is living up to her ancestors. We will try to refund your deposit if we aren't happy with her at that point. (Heads you win, Tails you win) Dam doing great, you get the kid. Dam doing poorly, you get your deposit back.

Scott's best buy for a Dairy Farmer who does not register is #4114 ECLAIR'S future buck kid. She is still bursting with milk in October and the Judge (Biddle) put her 2nd in a class of 12-14. On the minus side, she LA'd 85. She is big and powerful, not cute. On the minus side, her two doe kids by ELYAN were butt ugly, and one had poor milk. On the other hand, that particular Appraiser was a 4-H Judge, not a Dairy Farmer. She will probably go around 88 next time. A power doe headed for 4,000. Good looking enough to be 2nd in a class of 12 does.

Another bargain is EYLEX's (#403)'s buck kid. Because she can do 4,000. It just hasn't happened yet.

Another one Scott sees as a very good deal for a Dairy Farmer is EZZTAR (#480)'s future buck kid. She has the same max rating (99) as her sister but CAPRIKORN will work off the prettier sister (479). But our dairy farmer customers don't care very much about looks.

The buck kids from #421 and #422 have the same value for dairy farmers – monster milk but marked down due to lack of showability. Also #486's future son.
