2017 Does for Sale

December 23, 2021

In WordPerfect under: 2017 Does for Sale

These are does **born in 2017**

2017 was an awesome year! Lots of All Stars!
By contrast, 2015 and 2016 gave us almost nothing.
If you are shopping for older does,

better is "2018 Does for Sale" or "2019 Does for Sale"
a different button on the website, or a different handout in the paper catalogue.
If you want one, send a deposit of 10% (or a \$100 minimum) and a contract2

*Contract2 is behind the button, "Order Forms," on the website.
Or call us (301) 834-8030 and we will fill it out!

THANKS!!

All of these does registered with ADGA.

“Confirmed Pregnant Price” What does that mean?

We send samples to the lab every week or two. If the doe you are buying is pregnant, then you are getting more Saanens than just her. (Unless she aborts.)

“704” - What does that mean? She is wearing a neck tag that says “704”

Also her left ear PERMANENT tattoo will read “4J”

The “J” means born 2017. The “7” means born in 2017.

The “04” in 704 means she was the 4th kid born in 2017.

The “4” in J4 means she was the 4th kid born in 2017.

LA **91** 97th percentile, more milk/fat/protein than 32 out of 33 TESTED Saanen Dairy Goats.

Also scores high with us in winter milk, long teats, ease of kidding.

Also she is very showable.

Confirmed Pregnant Price \$8,950

Hoping she will sell two or three \$1,900 buck kids before she dies.

She got REALLY sick, to the point of almost dying, for a long time.

So the 97th percentile is way too low and she and her children will kick it back up in time.

NOT For Sale baby reserved
last year’s doe kid reserved by pena amn buck kid reserved by Otto.
The USDA computer has lowered JUXTA’s rating from the top spot of 99,
and she’s going to be five years old, so we lowered her price from \$2,495 to \$995.

Confirmed Pregnant Price \$1,9

95

To improve the herd we always wanted to lower JUXTA’s price. Because her sister JUSTA is stronger. But people were buying kids for \$1495. So it made sense for her to stay and keep burping them out.

As of April 25, 2017 we were over 200 babies. The "7" in their number means born in 2017.

The dam had mastitis so the computer knocked her rating WAY down.
