

# **2017 Bucks for Sale**

July 17, 2017

In WordPerfect under: 2017 Bucks for Sale

If you want one, send a deposit of 10% (or a \$100 minimum) and a contract2

\*Contract2 is behind the button, "Order Forms," on the website.  
Or call us (301) 834-8030 and we will fill it out!

THANKS!!

\*\*\*\*\*

## TESTIMONIALS

“The Caprikorn does are amazing. They so out class the rest of the herd it’s not funny.”

-Trent Hendricks, MO

“A big congratulations to your TOP TEN DOES last year. I keep reading on and on and kept seeing all your listed. Yea Caprikorn!”

-Tom & Roni, CA

“SPARKLE is milking GREAT!!! Thank you for breeding these quality goats.”

-The Jacksons, WV

“We LOVE our Caprikorn Farm goats – they are not only very productive, they are lovely personalities – smart, but not overly pushy.”

-Bedford Blueberry Goat Farm, MA

“I would say you are probably the top herd in the nation now with those classification scores and that milk production.”

-Janelle Anderson, 30-year Saanen Breeder, NE

“Our KID ROCK daughters are milking 10 pounds at 10 months of age!”

-Emanuel Schneider, PA

“By the way, HOT ROD is doing great. His girls have had their first kids. He definitely improved our genetic pool.”

-Andrea Gauvreau, Quebec

“Scott, bought seven does from OK. Had never seen such milk or quality in a goat herd. When asked about the genetics he said they were Caprikorn.”

“They are doing 18 pounds a day. The yearlings are doing 13 pounds a day.”

-Thomas Childress, Hereford Breeder, TX

“I am overly pleased with EARTHMAN and the improvements that I can already see that he has made to our farm.”

-Wendy, Bootleg Farm, GA

“My name is Shereen and I bought a buck from you a couple years ago. Fantastic buck - I love this buck!”

- Shereen Wilcox, PA

“We have 105 does..Just so you know the Caprikorns are the nicest and largest ones. We can always pick them out just by looking at them.”

-Lori Lyons, WI

“Dear Scott, that is some Sales List! I know your goats are the BEST!”

-Brad Parker, Pipe Dreams Fromage, PA

“Hey Scott, I got to milk some of your best goats when Alice was here; was impressed!”

-Levi Petersheim, IA

“The Caprikorn girls are doing FANTASTIC! They are exceeding our expectations. They are always coming in with full bags and they don’t want to slow down production very quickly when it is time to start drying up.”

-Jared Rebling, Brighton, IA

“AMBER is a milk machine. I appreciate the temperament of all your goats; they are so nice and loving!”

-Scarlett Payne, Utica, OH

“A lot of the ones we have from your bucks freshened at 11 months and they’re just fantastic.”

-Keith Tiffit, VT

“DILL and DYLEX are **amazing**, and as milking yearlings were amazing also...”

-Lila Streff, SD

“I appreciate that you are willing to refund our deposits; we have decided to back out of all 11 dairy goat kids.”

- Trisha Bickel, Hamburg, PA

“I have appraised all the major Saanen herds and you have the best feet and legs.”

-Linear Appraiser, American Dairy Goat Assn., 2013

“I am so very glad to be able to work with you as you are one of the most reliable and honest goat breeders I know. It is such a pleasure to have complete confidence in a purchase to know that it will be totally as represented”

-Teddy West, OH

DSD: SG DAUGHTER’S ROSEA 6\*M

D: SG DAUGHTER’S X ILEX 9\*M: The second pillar of the Old Red Line Family  
American Saanen Tall, upstanding **TOP TEN TWICE – LA-89**  
especially for the dairy farmer after PROTEIN.

Not a good value if you get paid a flat rate for milk. (A few dairies still pay without counting B.F and Pro %’s)

S: SG UTAH \*B - a former Elite Buck

D: SG CARRA 8\*M also 99<sup>th</sup> %ile

One of only two does here still alive here that made TOP TEN twice.

1-01 269 1803 65 3.6 64 3.5%

2-01 305 4120 131 3.2% 131 3.2% NSBA GOLD SEAL – TOP TEN

3-11 305 4110 145 ! 3.5% 133 3.2% NSBA GOLD SEAL – TOP TEN

3-11 364 4530 162 148

5-01 238 1889 61 3.2% 57 3.0%

6-02 225 1959 68 3.5% 63 3.2%

6-10 311 2540 82 3.2%

7-10 267 1352 49 3.6% 42 3.1%

Lifetime 2268 days 21,380 milk 724 fat 691 protein

We reserved this doe before she was born. Then, per the contract, we got the pick of three doe kids. ILEX was a 99<sup>th</sup> percentile doe and her dam CARRA was a 99<sup>th</sup> percentile doe. At that time there were only 16 living Saanen 99<sup>th</sup> percentile does. 99 is as high as USDA goes. ILEX beat the whole herd in milk/fat/protein. 3.2% is as high as Saanen’s go in protein. An upstanding doe with no attachments. She is a tribute to Cecile Beauchemin, who had the will power to stay on DHI test for years, and to always breed to Sire Summary/Top buck List/ Elite/ Top 15% bucks. Never bothered to show.

We said: “She is dying as of April 2016.”

After being dry for most of 2016, SHE KIDDED FEBRUARY 2017 AT TEN YEARS OLD!

DDS: SG DAUGHTER’S BEN +\*B

DD: SG DAUGHTER’S CARRA8\*M

DDD: SG DAUGHTER’S WILLOW 7\*M

It is almost certain this will be the last kid from the great ILEX.

DD: SGCH CAPRIKORN RENOV MEADOW VIOLET 10\*M - 95th

Percentile LA-92

01-02 299 3620 91 2.6% NSBA GOLD SEAL - LA-88 VEVV 2yo  
03-01 305 3826 111 2.8% 109 2.9% NSBA GOLD SEAL - LA- 91 VEEE 3yo  
04-02 305 3645 102 2.8% 103 2.8% NSBA GOLD SEAL - LA-92 EEEE 6 y.o.  
05-01 305 3327 99 3.0% 93 2.8% NSBA SILVER SEAL  
Ended with Lifetime 1,396 days 15,575 pounds 2.8 b.f. 2.8 pro  
Finished in only 4 shows, a total of 6 rings.

An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had "INVERSION" - more protein than fat. We chose VIOLET's twin VERN to breed the awesome does STARGATE P.33 and VENICE P.28a. Nine pounds at birth. We named the dam to honor Tina Gilchrist's immortal GCH FOOTHILL FARM MEADOW SPRING TOP TEN LA 90. Dam had the big arc 35. And Rear Udder height: 38. Dam had extra teat. VIOLET started life with the RENOV steep rump. That changed. We don't want to waste time on conformation but one item we do want is "The Big Arc"! We used to have big wide escutcheons. When CRUZERIO did 5100, totally smashing our previous record, everything became lined on her. Then we lost the Big Arc. SPRING's descendants will bring it back. As of November 2012, Violets lifetime was 1,396 days 15,575 milk. She had cream, not white hair and an undesirable Saanen nose. It's so easy to be the top Saanen milk herd. The other breeders select for color and noses. We can just keep selecting for milk/fat/protein, all wrapped into one number called "percentile," or "Rank".  
VIOLET "HAD IT ALL"

It is very unusual for their to be two straight generations of 92's. There are very few Saanen 92's in any given year.

That said the SGCH's and the Top Tens make HAWK a Spotlight Sale buck. But the sale is in Texas, not dairy country, this year. HAWK is longer than the other buck kids like his dam and her brother, MEADOW BOSS, one of our main herd sires.

This one hurt! MEADOW HAWK had a full brother, MEADOW HARK 2. He got what we call "the Bulldog" - front shoulders loose, front legs crooked-bowing out, winging out.SALE BARN.  
A \$5,000 hurt.

HAWK - "One of American Dairy Goat Associations Sire Development Bucks"

YENUSKA out milked the other yearlings and she was the youngest milker!  
“Dear Caprikorn Farms, I wanted to let you know how much I appreciate your bucks. Zecret Keeper’s daughters are so beautiful. I can’t bear to sell them! Thanks for your good work.” -Love Brad

ZECRET KEEPER has 37 registered dau’s as of January 2016.

DSD: CAPRIKORN TZAR'S YENUSKA  
D: SG CAPRIKORN ZECRET BAR EXAM #1147 96%ile  
01-07 328 3147 113 3.6% 91 2.9%  
02-07 305 3540 112 3.2% 101 2.9%  
02-07 358 3945 129 3.2% 116 2.9%  
03-09 305 3925 128 3.3% 102 2.6%

Starting off 4 y o lactation with 18.5 and 19.0 wow; having bang up lactation in 2016 - should end the 305 at around 4,000. WIDEST udder in the herd. VERY IMPORTANT. You can’t make them too low. You can’t make them stick out in the back or they pee on them. Not much milk going forward. So make them wide!

On 6/15/16, Scott said HIGH BAIL looks great but has loose shoulders. On 7/25/16 four Amish Dairymen were here and HIGH BAIL was in consideration. But he was not one of the three they picked. What Scott saw was “A lot of dairy character, very good escutcheon, good-looking, maybe a little top

line weakness if you are looking for it.” There may be other BAR EXAM buck kids some day. But none sired by ECLIPSE, who died.

HIGH COURT is more stylish on the move. It is hard to say how much top line dip he has with all the hair along his top line. But we are milk breeders so we prefer the slight advantage in width both from the back and from the rear that HIGH BAIL is showing us.

We had priced them HIGH BAIL 1,195 and HIGH COURT 995. But on Aug 22 we needed a young guy to go in with the 4 does in the 1-2-3 Pen.

All four of the young guys we want to prove: HERC, MEADOW HAWK, HONDURAS, and HOT ROCKS were too closely related to one or more of those does so we picked HIGH BAIL. Now we will have testing fees and appraisals invested in him so he became more expensive.

HIGH COURT – “One of American Dairy Goat Associations Sire Development Bucks”

HIGH BAIL – “One of American Dairy Goat Associations Sire Development Bucks”

Tad bit narrow from the back. Little topline. Sharp withers, Deep rump, Very good in the front. Almost tight toes. Very good shoulders.

In October Scott saw HIGH COURT and thought he was a little narrow from the front.

DD: CAPRIKORN MEADOW SPRING - named after Tina Gilchrist's doe  
DDD: CAPRIKORN MEADOW NYMPH LA-90 Founder of NYMPHIE FAMILY

MEADOW BOSS has the numbers to be on the Elite Buck List.  
As of March 2017 - Milk Plus 178, Fat plus .06, Protein minus .02  
For example ELKO is Milk Plus 100, Fat plus .07, Protein plus .06  
And ELKO is 89th. So BOSS is around 93.  
But the computer won't list him there until there is a tested dau in a SECOND herd.

We took BOSS to his first show on June 8th of 2014. He was 3rd of 3 in Rings 1 & 2. He was second of three in Rings 3 & 4. In Ring 4, the buck that beat him went on to be the Grand Champion.

He is longer and taller than other Saanen bucks with very sharp withers. He looks awesome from the side and he is too narrow viewed from the rear. In 2012 Ben Rupchis placed him first over the other "B" bucks (BULGING EYE, STARBY, BIZNES) in spite of the narrow rear end. BULGING EYE and BIZNES went on to get 90's. But Scott doesn't think BOSS will get one. His full sister also has a 92 just like his dam. She is also a SGCH, just like his dam. She also has 22,000 pounds lifetime and climbing.

Sire of JOVIAN: HOT ROCKS

CAPRIKORN CZARGATE HOT ROCKS #669 AS1765945 Born February 15 2016  
American Saanen + V Ec V

HOT ROCKS is not the best buck we have a Farmer that never shows.  
Unless you need UDDERS

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd  
at Nationals. 8th.

SUM 777 Overpriced because we have an investment. Daughters that will cost us DHI and LA fees. And  
he needs quite a few tested daughters before he will be proven one way or the other.

Early on we said “HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM  
CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST  
POSSIBLE improvement in the way his udders are built.”

But see the update at the bottom.

WINNER OF LIFETIME MILK AWARD over all Saanens July 2013 & again July '14  
AND 3.5% lifetime fat

3.06 305 3894 131 3.4% 109 2.8%

lifetime 2,072 days 22,781 lb milk 3.4% fat

FLASH was the highest milking yearling on the yearlings first test.

And the highest projection after the second test.

Dam is a show star, but not the very top of our milk. The Sire, however, should kick the milk up through the roof. So HOT ROCKS is worth the investment if you want a lot of help with your udders and feet in ADDITION to big milk checks. But if you only need milk/fat/protein, skip on to a cheaper guy.

We said "FLASH is going in the ring at the Nationals July 4th and if she smokes them, HOT ROCKS price will go up." She didn't kill them but she did really well. So we took the price from \$1,995 to \$2,795.

UPDATE -On August 7th the cdcB ratings came out and FLASH got a 96th %ile and CZARGATE got a rating high enough to make him #1. After mastitis the ctr knocked her down to 89 from 96. Except he only has daughters in one herd. So we took HOT ROCKS from \$2,795 to \$5,995 because he suddenly is the buck of the year and we want to use him in our breeding program.

On September 23, 2016 failed to collect semen while A/I guy was here.

Scott is giving him Ec. The appraiser gave him a +EcV+. Scott says excellent topline, Excellent width front and back. Looks great on the move. Excellent head and rear leg angulation. Not friendly enough. Shoulders are good not great. VG BC. Clean front legs. Back heels are a little shallow.

2-06 306 3617 122 3.4% 103 2.9%

We said "Will probably be 1st place Jr. Yearling at 2013 Nationals." two years ago in this catalogue. WAS ACTUALLY 2ND PLACE ON JULY 9, 2013!

And on July 4, 2016 she was 12th place 3 year old.

If you saw CHEYENNE you would know right away you want her kids. Her dam was ranked 99th percentile and her sire is our best milk buck out of those with a positive PTAFS. It was scary to think how good CHEYENNE could be. As a kid she has been shown only once and was Grand Champion. In milk, before she turned two, she was first in both rings as a milking yearling. Then we stopped showing her. It's too bad U.S. breeders put way too much weight on mammaries and way too little weight on milk/fat/protein. But that IS the way it IS. Feb. 19, 2014 maybe an E mammary – maybe not enough fore. Fabulous rear and teats. Shown only once in 2015 and of course she could not beat CASSIOPEIA. CHEYENNE got coded "A" for acceptable for feet. Bad. smh codes J 88, Ec WS, 90 KS

DDD: SG CAPRIKORN RENOV'S WINNEMUCCA 4\*M

02-09 305 3729 153 4.1% 119 3.2%

LA-90 VEEE

We took FLORENCE to a show the Saturday before Memorial Day 2016 and she beat four of our other yearlings in all three rings.

We took HONDURAS to a different show on June 5 and he was 4th of 4 in one ring and 2nd of 5 in the other. As of Sept. 2016 we are using HONDURAS on some of our "milk and Show" NSBA type does.

Awesome BC beyond excellent. Right rear heel is shallow. Very friendly, Excellent escutcheon. VG rump angle.

Finished in only 4 shows, a total of 6 rings.  
An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had "INVERSION" - more protein than fat. We chose VIOLET's twin VERN to breed the awesome does STARGATE and VENICE. Nine pounds at birth. Dam had the big arc 35. And Rear Udder height: 38. Dam had extra teat. VIOLET started life with the RENOV steep rump. That changed. We don't want to waste time on conformation but one item we do want is "The Big Arc"! We used to have big wide escutcheons. When CRUZERIO did 5100, totally smashing our previous record, everything became lined on her. Then we lost the Big Arc. SPRING's descendants brought it back. As of November 2012, Violets lifetime was 1,396 days 15,575 milk. She had cream, not white hair and an undesirable Saanen nose. It's so easy to be the top Saanen milk herd. The other breeders select for color and noses. We can just keep selecting for milk/fat/protein. She "HAD IT ALL". VIOLET'S dau SGCH MEADOW ZEPHYR also has a 92.

DD: CAPRIKORN MEADOW SPRING - named after Tina Gilchrist's doe  
DDD: CAPRIKORN MEADOW NYMPH LA-90 Founder of NYMPHIE FAMILY

MEADOW BOSS has the numbers to be on the Elite Buck List.  
As of March 2017 - Milk Plus 178, Fat plus .06, Protein minus .02  
For example ELKO is Milk Plus 100, Fat plus .07, Protein plus .06  
And ELKO is 89th. So BOSS is around 93.  
But the computer won't list him there until there is a tested dau in a SECOND herd.

We took BOSS to his first show on June 8th of 2014. He was 3rd of 3 in Rings 1 & 2. He was second of three in Rings 3 & 4. In Ring 4, the buck that beat him went on to be the Grand Champion.

He is longer and taller than other Saanen bucks with very sharp withers. He looks awesome from the side and he is too narrow viewed from the rear. In 2012 Ben Rupchis placed him first over the other "B" bucks (BULGING EYE, STARBY, BIZNES) in spite of the narrow rear end. BULGING EYE and BIZNES went on to get 90's. But Scott doesn't think BOSS will get one. His full sister also has a 92 just like his dam. She is also a SGCH, just like his dam. She also has 22,000 pounds lifetime and climbing.

STARGATE - Laid back, unassuming, matter of fact, and just kept eating.

ONE OF 11 SAANENS ALL TIME WITH OVER 5,000 POUNDS IN 305 DAYS

And a smashing first lactation from a doe that kidded at 1yr 8 months of age! Shown once, 3rd of 5.

Shown 2nd time, RGCH to ROMANCE p.30. Shown 9/17/05, 3rd of 4. 4th time out GCH vs 14 over Diana Patton's entries and also DREAMCATCHER, the 2nd place National Show doe, on 5/27/06. 5th show 3rd of 7 same day. 6th show 2nd over Nelson Broadus. Full sister to ROAD SHOW, p.19, who is also a 90! Can never be a National Champion because shoulders are too loose. We didn't believe the Official Testers 21.0 so we weighed her exactly 6 hours after milking and got 5 lbs 7.5 oz.

STARGATE BEST UDDER at 2006 District III Saanen Specialty over 24 Milking Does!

In 1982 and '83, GCH HARTSELL'S HERD BB'S DOUG FRAN turned in lactations of 5110 and 5930, respectively. No other Saanen dairy goat had two 5,000 lb. 305's in the United States until STARGATE came along.

CAPRIKORN ZEPPPO CZARGATE #2129 At least three of his kids have folded ears. On the plus side his two dau's with ratings are 98 and 92 as of July 2016. On the minus side CZARGATE had two sons from the great SGCH MEADOW ZEPHYR LA-92 Top Ten twice that were overly narrow.

ATLANTIS – was 95%ile rank. Got very sick for a long time. Now 95th percentile again.

ATLANTIS friendly. In milk. Probably a “V” mammary. Definitely not an E in March of 2012. Really big, occasionally winging out, otherwise fabulous. After kidding in 2014 ATLANTIS was close to dying for weeks on end. We milked her lying down for weeks. So naturally the USDA has to give her a lower rating than she deserves. 91st%ile was still better than 9 out of 10 Saanens.

Video ATLANTIS: <http://www.youtube.com/watch?v=70YYn3JbhDc>

March 29, 2015 she's BAAAACK! Atlantis drops 16.0 pounds at 35 days fresh. Aug. 1st 2015 USDA moves her up to 96% ile.

Awesome mammary. Except not the smoothly blended fore show people want. Why do we say “wise shopper?” Because all the normal dairy farmer asks is “How much did the dam milk?”

But the USDA computer program knows WHAT THE GENES ARE. And WHAT THE GENES ARE determines how much help a doe is going to give YOUR milk check in YOUR herd.

“How much did the dam milk?” is 80% Management. But your herd doesn't have someone else's management. What you need is genes.

The USDA computer program knows the genes because it knows what all the ancestors on test milked compared to their herdmates. AND it knows what all the descendents of all the ancestors milked compared to THEIR herdmates. Thousands of official tests compared to the 20 tests that went into a 4,000 lb once in a lifetime record for some other doe. And the GENES are what is going to show up year after year in YOUR herd. And the genes are better than 19 out of 20 Saanens. That IS what 95 percentile

DDD: GCH SINGAPORE LA-90 177 lb of fat in 305.

Alice and Ken voted to take ZURICH off the sales list so we can breed for components. Scott wants the components but would rather have a buck with an even better looking dam. He is small for his age. Maybe too much action? WINNEMUCCA did manage to go Reserve once.

The show people will not use ZURICH with his 84. So we will move even further ahead in milk next generation, BECAUSE THEY CANNOT CATCH UP.

\* Go to adga.org. Click on "Performance Programs." Click on "Elite Buck." 99 is as high as they go. ZURICH has 50 registered dau's as of January 2016.

## Dam of JACK PEPPER: HOT PEPPER

CAPRIKORN BE HOT PEPPER #620 E001762116

SS: SG SHERRY'S TSM HELSA'S YELSON ++\*B  
S: CAPRIKORN YELSON BULGING EYE \*B #154 LA-90  
If you average his sire and dam's percentiles and PTAM's – BULGING EYE is the highest rated buck here. But he is not yet proven on his own dau's.  
SD: SG CAPRIKORN SNOW'S ZANONI 5\*M

DS: COACH FARMS WILLEM'S SNAP 99thPercentile  
D: CAPRIKORN SNAP ECLAIR #4114 99th percentile  
November 2014, ECLAIR and ECLARE are both big for their age.  
March 2015 one of them has teats so small the inflations fall off #4114?  
September 2016 NOT any more!  
CUMIN made the most milk of anyone in our herd in 2014. And she was only two.  
ECLAIR, weird udder. Jeremiah says "teats are fat, angled out and down." Scott likes the udder a lot. So does the judge.  
Width and fat teats.  
ECLAIR is a keeper, thanks to her dam and her own milk records.  
Previously NFS due to grading up process. Ok to sell now that we have 87.5% Saanen babies.  
ECLAIR second of 14 at Frederick September 2016. But a lot of the competition was 4 H'ers.  
DD: CUMIN - Possibly our best milker. Time will tell. Top Ten twice, maybe soon #3.  
99th percentile LA - 90  
305 5142 lb! LA-89. Scott says "LA -89 a little high. Not enough attachment."

We don't really want to keep 3/4 Grades. But HOT PEPPER has the looks on top of the milk.  
So we priced her to stay. Hopefully she will pop an ugly udder and a daughter and we can move her out.  
MILK; It is possible that this is our only doeling where both the dam and sire are 99%ile animals.  
HOT PEPPER has an excellent build. The Appraiser only gave her a "V". But she was our choice of all the kids to take to Nationals. Placed o.k. HIGHBALL and HOLLANDAISE live in Trinidad Tobago now.

Has front feet that turn out badly at the bottom, making his front legs knock Kneed.  
Returning the buyer's deposit June 30, 2017.

YENUSKA out milked the other yearlings and she was the youngest milker!  
“Dear Caprikorn Farms, I wanted to let you know how much I appreciate your bucks. Zecret  
Keeper’s daughters are so beautiful. I can’t bear to sell them! Thanks for your good work.” -Love  
Brad

ZECRET KEEPER has 37 registered dau’s as of January 2016.

DSD: CAPRIKORN TZAR'S YENUSKA  
D: SG CAPRIKORN ZECRET BAR EXAM #1147 96%ile  
01-07 328 3147 113 3.6% 91 2.9%  
02-07 305 3540 112 3.2% 101 2.9%  
02-07 358 3945 129 3.2% 116 2.9%  
03-09 305 3925 128 3.3% 102 2.6%

Starting off 4 y o lactation with 18.5 and 19.0 wow; having bang up lactation in 2016 - should end the  
305 at around 4,000.

WIDEST udder in the herd. VERY IMPORTANT. You can’t make them too low. You can’t make them

stick out in the back or they pee on them. Not much milk going forward. So make them wide!

On 6/15/16, Scott said HIGH BAIL looks great but has loose shoulders. On 7/25/16 four Amish Dairymen were here and HIGH BAIL was in consideration. But he was not one of the three they picked. What Scott saw was “A lot of dairy character, very good escutcheon, goodlooking, maybe a little top line weakness if you are looking for it.” There may be other BAR EXAM buck kids some day. But none sired by ECLIPSE, who died.

HIGH COURT is more stylish on the move. It is hard to say how much top line dip he has with all the hair along his top line. But we are milk breeders so we prefer the slight advantage in width both from the back and from the rear that HIGH BAIL is showing us.

We had priced them HIGH BAIL 1,195 and HIGH COURT 995. But on Aug 22 we needed a young guy to go in with the 4 does in the 1-2-3 Pen.

All four of the young guys we want to prove: HERC, MEADOW HAWK, HONDURAS, and HOT ROCKS were too closely related to one or more of those does so we picked HIGH BAIL. Now we will have testing fees and appraisals invested in him so he became \$1,795.

But basically these two bucks are identical.

HIGH BAIL – “One of American Dairy Goat Associations Sire Development Bucks”

Tad bit narrow from the back. Little topline. Sharp withers, Deep rump, Very good in the front. Almost tight toes. Very good shoulders.

In October Scott saw HIGH COURT and thought he was a little narrow from the front.

DD: SGCH CAPRIKORN WEALTH XTORT 2\*M LA-91 26,000 lb. 2,000 days.  
WINNER - LIFETIME MILK AWARD - 2014 NATIONALS grades  
XTORT'S LIFETIME FAT IS AMAZING, SHE HAS AROUND 900 LB  
The second highest lifetime fat in the herd is only around 600 something.

5145 has a large straight single horn. URRRGH. We were using him here. In her 2 y.o. lactation, CUMIN beat the entire herd, young and old. So far in 2015, as of May 1st, she is headed towards beating them all again. On her April 30th test, she beat the whole herd.

When you see her huge mammary it is obvious what is happening without studying the DHI printouts. The mammary is shaped o.k. It is just set too low for the judges.

# Dam of JUPITER: ERIDANA

SG CAPRIKORN BOSS ERIDANA #404 AS1665652 Born January 14, 2014  
American Saanen LA VEVV 89

02-01 305 4170 146 3.5% 116 2.8%

A 97 %ile rating rating from CBCD as of Apr. 2015 - but the REL is only 39.

That 39 is the way the USDA computer program has of telling us that it doesn't have enough tests to make a judgment.

Dairy Farmers - as a kid too showy, too expensive.

As a milker not doing well. Are you a gambler?

SS: SG YELSON +\*B - probably our milkiest buck before his son STARBY came along.

YELSON's dam -305 4990, previously the highest PTAM of any Saanen

S: SG CAPRIKORN YELSON MEADOW BOSS \*B - very beautiful except narrow rear

SD: SGCH CAPRIKORN RENOV MEADOW VIOLET 10\*M - 93rd %ile LA-92

DS: SG RON-TOM SARAH'S ZEPPO LA-90

Elite Buck List #7 on the latest USDA Top Buck List

D: SGCH CAPRIKORN ZEPPO CASSIOPEIA - showiest milker right now and she is 99%ile! LA - 92

DD: SG CAPRIKORN RENOV'S ZTARTREK - 2\*M 99th %ile

"Really nice topline. Big, growthy kid. Shoulders on the loose side." Judge Wolf.

She put ERIDANA second to #486 on page p. 68a. The Appraiser put ERIDANA second to #443, ELBA, on page 14. We chose ERIDANA to be our entry in the Senior Kid Class at the 2014 Nationals. Her dam, CASSIE WAS OUR ENTRY IN THE MILKING 2 Y. O'S. Just when we thought we had an incredible Milk & Show double threat, the Nat'l show judge put her 18th out of 26. YECCHH! The big knock is loose shoulders.

She was BY FAR the biggest kid in the class.

When we picked her as our kid to represent us at the Nationals. 486 EXTORIA was cuter but half as big. Bad decision. Judge Flickinger didn't care about size and flunked her for loose shoulders.

TIP: There is a reason the milk in stores comes from cows. The expense of Milking Labor is the same for a BIG animal as for a small animal.

Aborted December 2014.

After Nationals, she beat everyone including the Cherry Glen Nat'l Show doe at Frederick in September 2014.

Freshened in very late in 2015, June 28, with radically uneven halves. Alice says that was caused by prefreshening mastitis. As of September 1, they are starting to be much more even., but still unshowable. Just freshened in 2016. Still uneven. This doe is a mystery. Need more tests. April 2016 test right in the middle of the 2 year olds, but bag is not even close to being full.

Friendly.

.She's really big. She's capable of cruising to well over 5,000 in 305 WITHOUT BEING PUSHED.

We'll see. Update - #1 in herd April 2017 and May 2017 tests.

code smh 89 ks

LA-87 ++EE Jermain

LA-90 VEEE Henning

One Time Reserve Grand Champion - probably not a good judgment

To get the biggest milk check, try using a buck whose dam is 99th Rank. But that is half the story, even better is if his sire is also ranked 99. YELSON is not ranked yet, but his dam was 99.

After disbudding, BULGING EYE's right eye was swollen and it protruded. Also he was a little lethargic. Maybe he is blind in that eye. He is very friendly. This is a very handsome buck. We used him on Cleanup on about 15 does we tried to breed in August. It always worried Scott that he is not hyper like his Dad. But the computer has him at plus 302 for milk in March 2017. The highest rating on the Elite Buck List is plus 244.

BULGING EYE may be too dairy. He needs to be hooked up with your normal dairy doe, who is not dairy enough, or even better, a fatso. (His dam was "skin", bones, and mammary.) But its hard to find a "fatso" here.

A lot of the top milk bucks were quite lean, bordering on frail. VOICE OF REASON was a string bean. Strange.

We bred him to 15 in Fall of 2014 and 25 in Fall 2015.

We took BULGING EYE to his first show on Jun 8, 2014. He was first of three in Ring One, Second in Ring 2, First in Ring 3, and Third in Ring 4. In Ring One, he was Grand Champion versus 12.

In the 2016 3 Ring Buck Show he was Reserve to the Grand in all 3 rings.

D: SG CAPRIKORN ZEPPPO CZTAR 3\*M – above LA-90 top ten 99TH PERCENTILE

DD: SG CAPRIKORN RENOV'S ZTARGATE 2\*M top ten – 98% LA - 90

#479- nice topline, lots of dairy character

#480- big escutcheon, big kid especially for age

EZTAR was the Appraiser's #3 doe kid and EZZTAR was his #4. Out of about 60 does..

We said "They are certain to have awesome milk, especially COMPONENTS."

EZTAR has a very nice rump angle which comes from her granddam SGCH CAPRIKORN RAMESES VVS1, LA -91 2x and 6 3,000+ lactations.

EZZTAR is big for her age, November 2014.

On 12/26/14, full udder, teats a little out to side, fore may be okay.

Not a classic Saanen nose, If you care deeply about "true Saanen type, , you are shopping the wrong herd.

#479 TEATS TOO SMALL FOR OUR HAND MILKERS.

#480 is leading all yearlings in fat after two tests.

EZTAR has ridges on rump.

November 2016 - EZTAR is a 99th percentile doe, but so are 16 other Saanens in the U. S. But look at her components! They are positive, whereas most of the 99th percentile does are negative. OUR DAIRY FARMERS GET PAID BY FAT AND PROTEIN. At least, almost all of them.

D: SG CAPRIKORN ZEPPPO CZTAR 3\*M – above LA-90 top ten 99TH PERCENTILE

DD: SG CAPRIKORN RENOV'S ZTARGATE 2\*M top ten – 98% LA- 90

#479- nice topline, lots of dairy character

#480- big escutcheon, big kid especially for age

EZTAR was the Appraiser's #3 doe kid and EZZTAR was his #4. Out of about 60 does..

They are certain to have awesome milk, especially COMPONENTS

EZTAR has a very nice rump angle which comes from her granddam SGCH CAPRIKORN RAMESES VVS1, LA -91 2x and 6 3,000+ lactations.

EZZTAR is big for her age, November 2014.

On 12/26/14, full udder, teats a little out to side, fore may be okay.

Freshened Jan. 8, 2015 1 buck, 1 dam, FARZTAR (next page). Mammary not cute.

Not a classic Saanen nose, If you care deeply about "true Saanen type, , you are shopping the wrong herd.

#479 TEATS TOO SMALL FOR OUR HAND MILKERS.

#480 is leading all yearlings in fat after two tests.

EZTAR has ridges on rump.

November 2016 - EZTAR is a 99th percentile doe, but so are 16 other Saanens in the U. S. But look at hr components! They are positive, whereas most of the 99th percentile does are negative. OUR DAIRY FARMERS GET PAID BY FAT AND PROTEIN. At least, almost all of them.

One Time Reserve Grand Champion

To get the biggest milk check, try using a buck whose dam is 99th Rank. But that is half the story, even better is if his sire is also ranked 99. YELSON is not ranked yet, but his dam was 99.

After disbudding, BULGING EYE's right eye was swollen and it protruded. Also he was a little lethargic. Maybe he is blind in that eye. He is very friendly. This is a very handsome buck. We used him on Cleanup on about 15 does we tried to breed in August. It always worried Scott that he is not hyper like his Dad. But the computer has him at plus 302 for milk in March 2017. The highest Elite Buck is plus 244.

BULGING EYE may be too dairy. He needs to be hooked up with your normal dairy doe, who is not dairy enough, or even better, a fatso. (His dam was "skin", bones, and mammary.) But such a doe is hard to find here.

A lot of the top milk bucks were quite lean, bordering on frail. VOICE OF REASON was a string bean. Strange.

We bred him to 15 in Fall of 2014 and 25 in Fall 2015.

We took BULGING EYE to his first show on Jun 8, 2014. He was first of three in Ring One, Second in Ring 2, First in Ring 3, and Third in Ring 4. In Ring One, he was Grand Champion versus 12.

In the 2017 Buck Show he won the first two rings to finish. (Now permanent SGCH)

In the 2016 3 Ring Buck Show he was Reserve to the Grand in all 3 rings.

Smh-code j- a little low VV+V also code J LA 90 code KS LA-90 #2 code BB

BULGING EYE's dam is 98th %ile as of December 2015. His only 3 rated dau's are 97, 97, and 99. But, only four rated Saanens is not enough data.

Best Udder in Show versus 24 milkers!

Now here is a doe that did 15.0 on February 28, 2015 when she was born in 2006. WIARA’s last buck went to Canada for 1,995.

She now has 27,000 lb. Lifetime

BING’s dam freshened at 8 or 9 months. So did WIARA. That’s why we bred them! Every doe that is not milking is costing you money. Your herd should stop standing around dry and start getting the milk check up. WIARA is the oldest doe in the herd and still bringing home the bacon as of May 2014. 14.5 lb/day!!

WIARA gave us the beautiful, big producing ANDROMEDA who sold for \$2,895. BING is the friendliest, smartest buck but he is a little small for his age so far. Judge Katie Wolf rated these two #4 and #5 in looks out of 37 buck kids in May 2014.

They competed versus 4 other buck kids on June 8 and the consensus of 3 judges is that NEW ERA is the best looking of this year's CAPRIKORN buck kids, and his brother ERA second.

DD: SGCH CAPRIKORN WEALTH XTORT 2\*M - page 16

Over 30,000 lifetime

Style, but loose shoulders, friendly. In April, we said "Very nice looking mammary maybe EX" And in fact the Appraiser did go with "E" in September. Only 6 pounds on her first test as a yearling though. Need more tests. WE WILL TAKE ALL THE DONUT DAUGHTERS WE CAN GET. In September 2016 the beautiful mammary was a perfect size - for a mature doe. What that means is this awesome doe's kids **will be a good deal for dairymen**. Because the mammary will grow too big for the American Show Goat Assn scorecard by the time she is two. So she will never have the really high placing that drives the prices up. She has had a case of mastitis all lactation long that we tried to treat simply by remilking her. But that didn't work so far. HER YEARLING NUMBERS WOULD BE EVEN BIGGER WITHOUT THE MASTITIS.

SGCH CAPRIKORN YELSON BULGING EYE #154 1556751 Born February 26,2011  
American Saanen LA-90 Twice

Coming into the Fall 2016 breeding season, Scott had a lot of bucks to choose from. If you averaged his sire and dam's and two rated dau's percentiles and PTAM's – BULGING EYE was the highest rated buck here. So we went with him. Our judgment was vindicated when the December 2016 ratings came out. He got a plus 302 in milk, higher than any buck on the Elite Buck List. But he does not appear on the list.  
NEED A DAUGHTER IN ANOTHER HERD ON TEST!

One Time Reserve Grand Champion - probably not a good judgment

To get the biggest milk check, try using a buck whose dam is 99th Rank. But that is half the story, even better is if his sire is also ranked 99. YELSON is not ranked yet, but his dam was 99.

After disbudding, BULGING EYE's right eye was swollen and it protruded. Also he was a little lethargic. Maybe he is blind in that eye. He is very friendly. This is a very handsome buck. We used him on Cleanup on about 15 does we tried to breed in August. It always worried Scott that he is not hyper like his Dad. But the computer has him at plus 302 for milk in March 2017. The highest rating on the Elite Buck List is plus 244.

BULGING EYE may be too dairy. He needs to be hooked up with your normal dairy doe, who is not dairy enough, or even better, a fatso. (His dam was “skin”, bones, and mammary.) But its hard to find a “fatso” here.

A lot of the top milk bucks were quite lean, bordering on frail. VOICE OF REASON was a string bean. Strange.

We bred him to 15 in Fall of 2014 and 25 in Fall 2015.

We took BULGING EYE to his first show on Jun 8, 2014. He was first of three in Ring One, Second in Ring 2, First in Ring 3, and Third in Ring 4. In Ring One, he was Grand Champion versus 12.

In the 2016 3 Ring Buck Show he was Reserve to the Grand in all 3 rings.

SD: KENT STATE - Top Ten Protein

D: SG CAPRIKORN KRUG’S **STARGATE** – page 59 – #1 in U.S.A TWO DIFFERENT YEARS! (All Breeds)LA-90 & LA-89 & BUIS vs. 24 milkers.

Not only did WIARA start early, 9 months of age, but very few does can do 2,900 ending at 8 ½ years old.

Her dau ANDROMEDA was 10<sup>th</sup>? yrng milker at National Show

Every day a doe is dry we lose money.

WIARA was 97 Percentile rank. Her doe Yiara owned by Scarlett Payne.

Our other Top Ten that year was WIARA’s niece YIN YANG #821.

WIARA bred herself and kidded at 9 months of age! AND had a 16 lb test! Her dau #6112, was the third doe to kid in 2017, even though she herself was a March baby. WIARA is super friendly. So is her son, #6111.

WIARA had a PTA for stature of plus 9.9, which is bigger than any buck in adgagenetics. At 1 yr & 6 months, bigger than the mature does. (MOOSE was a giant). What if we could develop a strain that always kidded at well under one year and also milked great? So in Fall 2013 we were using BING, because he was born when his dam was 8 ½ months old. But he was bought. The result of that breeding is #4124, NEW ERA. But so far we can’t say that he NEW ERA dau’s are kidding early.

Our oldest doe as of February 2016 and TESTED PREGNANT! We used her son, NEW ERA, #424.

And we used her son #6111. Him very friendly with personality. WIARA big head with a lot of love.

Where she really helps us is with a very wide rump. We want that so we can have giant escutcheons.  
Her Dau HARA is way above the other milking yearlings in May 2017.

#1 in U.S. Saanens for Protein in 305 days 10th Place Milking Yearling @ Nationals

If you saw CHEYENNE you would know right away you want her kids.

We said: "Her dam was ranked 99th percentile and her sire is our best milk buck out of those with a positive PTAFS. It is scary how good CHEYENNE could be. As a kid she has been shown only once and was Grand Champion in milk. Before she turned two she was first in both rings as a milking yearling. Then we stopped showing her. We know the body is there and we know the milk is there and we know the components are there. If she gets the awesome mammary she becomes a \$5,000 doe and her babies sell for 1,500. If not, she is a 1,500 doe and babies sell for 600. It's too bad that U.S. Breeders put way too much weight on mammarys and way too little weight on milk/fat/protein. But that IS the way it IS."

2/19/14 Scott said "an E mammary – maybe not enough fore. Fabulous rear and teats."

Shown only once in 2015 and of course she could not beat CASSIOPEIA. CHEYENNE got coded "A" for acceptable for feet. Rear feet weakness is the very reason the Ryals turned down WINNEMUCCA as a kid. Since we breed for strong rear pasterns, we knocked CHEYENNE'S PRICE DOWN BY 400 AND HER KIDS DOWN BY 300.

Second place at Nat'ls July 4, 2016 with her dau FLORENCE 3 PAGES FORWARD.

August 8, 2016 - BEST IN SHOW versus 54 milkers. (2nd leg) Price went up 1,900.

smh code 90 ks

JACKSON's sire CZARGATE makes weird ears. They are folded. When the kid grows up they unfold and become normal. So maybe JACKSON will do that.

Are you -

A. A dairy Farmer Customer-  
WHO CARES ABOUT EARS

OR

B. A saanen Breeder-  
You should care!

Registration issue??

Of course JACKSON's kids will be only 1/4 CZARCATE so the issue should disappear.
