2018 Bucks for Sale

*and we have put a few of the older
ones in the back*

July 17, 2018

In WordPerfect under: 2018 Bucks for Sale

We have Yearling Bucks!

They are behind the button, or in the doc, called **2017 BUCKS FOR SALE**

If you want one, send a deposit of 10% (or a \$100 minimum) and a contract2

*Contract2 is behind the button, "Order Forms," on the website.
Or call us (301) 834-8030 and we will fill it out!

THANKS!!

A dairy farmer wrote in with the question:

“Is it really worth paying more for the more expensive buck?”

Scott wrote back, in Spring 2016:

“The answer is I don’t know.

Here is one dollar and cents approach I thought of.

There are 16 **99th** %ile does. The average PTAM of those 16 is 333.

There are 16 **95th** %ile does. The average PTAM of those 16 is 230.

So it looks like for every one percentile drop the milk goes down by 26 pounds. HENOOSKI had a dam with a PTAM of a 93 so that would be 7 percentiles down from HAN SHOT FIRST.

26 pounds times 6 percentiles = 156 lb /year. So that would mean on average his daughters will give you 156 less pounds every year, year after year. And his granddaughters will give you one - half of 156 pounds year after year. So if you are milking 80, then $80 \times 26 \times 7 \times .41/\text{pound} = \$5,970$

80 does x 156 pounds = 12,480 pounds per year.

12,480 pounds per year @ \$40cwt = \$4,992.

5 years of milk from each doe equals \$24,960.

That’s my guess.”

A lot of work needs to be done to make this computation more accurate.

First, what about the granddaughters and great granddaughters?

Nothing was added to the \$24,960 for them.

Second, probably starting by comparing the 99th percentile to the 95th percentile is not right. Because the 99th percentile will have a few that are REALLY crazy for milk.

So, if we found 16 does in 85th percentile and averaged their milk (PTAM). Then subtracted that number from 230, which is the average for the 16 in the 95th percentile. That would give us the drop for 10 percentiles. Dividing that by 10 would probably give us a more accurate figure than 26 pounds per percentile.

TESTIMONIALS

“The Caprikorn does are amazing. They so out class the rest of the herd it’s not funny.”

-Trent Hendricks, MO

“A big congratulations to your TOP TEN DOES last year. I keep reading on and on and kept seeing all your listed. Yea Caprikorn!”

-Tom & Roni, CA

“We have 144 CAPRIKORN HOT SAUCE daughters. The yearlings from him tower over a lot of the older does.”

Keith from New England

“We LOVE our Caprikorn Farm goats – they are not only very productive, they are lovely personalities – smart, but not overly pushy.”

-Bedford Blueberry Goat Farm, MA

“I would say you are probably the to

p herd in the nation now with those classification scores and that milk production.”

-Janelle Anderson, 30-year Saanen Breeder, NE

“Our KID ROCK daughters are milking 10 pounds at 10 months of age!”

-Emanuel Schneider, PA

“By the way, HOT ROD is doing great. His girls have had their first kids. He definitely improved our genetic pool.”

-Andrea Gauvreau, Quebec

“Scott, bought seven does from OK. Had never seen such milk or quality in a goat herd. When asked about the genetics he said they were Caprikorn.”

“They are doing 18 pounds a day. The yearlings are doing 13 pounds a day.”

-Thomas Childress, Hereford Breeder, TX

“I am overly pleased with EARTHMAN and the improvements that I can already see that he has made to our farm.”

-Wendy, Bootleg Farm, GA

“My name is Shereen and I bought a buck from you a couple years ago. Fantastic buck - I love this buck!”

- Shereen Wilcox, PA

“We have 105 does..Just so you know the Caprikorns are the nicest and largest ones. We can always pick them out just by looking at them.”

-Lori Lyons, WI

“Dear Scott, that is some Sales List! I know your goats are the BEST!”

-Brad Parker, Pipe Dreams Fromage, PA

“Hey Scott, I got to milk some of your best goats when Alice was here; was impressed!”

-Levi Petersheim, IA

“The Caprikorn girls are doing FANTASTIC! They are exceeding our expectations. They are always coming in with full bags and they don’t want to slow down production very quickly when it is time to start drying up.”

-Jared Rebling, Brighton, IA

“AMBER is a milk machine. I appreciate the temperament of all your goats; they are so nice and loving!”

-Scarlett Payne, Utica, OH

“A lot of the ones we have from your bucks freshened at 11 months and they’re just fantastic.”

-Keith Tiffi, VT

“DILL and DYLEX are **amazing**, and as milking yearlings were amazing also...”

-Lila Streff, SD

“I appreciate that you are willing to refund our deposits; we have decided to back out of all 11 dairy goat kids.”

- Trisha Bickel, Hamburg, PA

“I have appraised all the major Saanen herds and you have the best feet and legs.”

-Linear Appraiser, American Dairy Goat Assn., 2013

“I am so very glad to be able to work with you as you are one of the most reliable and honest goat breeders I know. It is such a pleasure to have complete confidence in a purchase to know that it will be totally as represented.”

-Teddy West, OH

The 95th percentile does average **243** per PTAM.

The 98th percentile does average **302** per PTAM.

Increase of 59 pounds per year.

There are 3 percentage points between 95 & 98.

Therefore each percentile translates into **20** pounds of milk per doe per year.

So, for example, if you have a normal non-tested herd, that MIGHT be 40th percentile.

If you use 90th percentile bucks, you move up by 1,000 pounds per doe per year.
(20 pounds times 50 percentiles)

If you are getting \$539 cwt, your income goes up by \$39,000 for every 100 does you milk.

Here is a list of the 2018 bucks that are still HERE as of May 27, 2018.

There are no page numbers - they are listed in Birthday order

Warning CAPRIKORN yearling bucks are usually ugly. Pretty as babies. Handsome as older bucks,

She is outmilking all 2 y.o.'s in April 2018. So her price goes down and we keep the dau's.

DDS: CAPRIKORN ZEPPPO CZARGATE

On the latest Elite Buck List June 2017

DD: SG CAPRIKORN CZARGATE FOXTROT 3*M

98%ile as of June 2017 Yearling LA +E++ 85

01-00 305 2455 102 4.2% 78 3.2%

Distant line on STARGTATE. As a yearling, she was FOXTROT and her kids are EXCELLENT CHOICES for the Dairy Farmer that wants big production - yes - but is also willing to pay a LITTLE extra to get that E mammary into his herd. She can definitely kid out a herd sire if she is bred to a big milk buck.

Not a looker. Really nothing wrong with her, but not one of the showiest of the milking yearlings April 2016. Came into her own as a 2yo.

DDD: CAPRIKORN BLUE ESTEFAN 2*M #422

02-03 288 3475 116 3.3% 97 2.8% Awesome for a TWO year old! VVEV 88 3yo

EROICA and ESTEFAN are both big for their age, November 2014.

After freshening at two years old, the HULA udder is poor. Jeremiah and Scott wanted to send her to the sale barn., But she was number two in the whole herd (milking 74) on the March 10 DHI test.

So KETJAK is definitely NOT for an NSBA type Saanen breeder in search of the perfect mammary.

GOOD DEAL FOR DAIRY FARMER!

HULA's udder is a mess but her ancestors had nice mammaries and JALEX2 is half of KETJAX's genes. And JALEX2 brings plenty of E mammaries

Dairy Farmers - as a kid too showy, too expensive. In 2015 we said "As a milker not doing well. Are you a gambler?" No one took her when she was cheap and now she is very expensive.

BUYER'S TIP; don't pay too much attention to baby lactations. Look more at the dam and sire.

DS: SG CAPRIKORN SNOW ZURICH ++*B

LA-90

in 2011 he was **THE NEW #1 BUCK OF THE SAANEN BREED! AND AGAIN ON THE NOV. 2015 LIST!! NUMBER ONE FOR MILK/FAT/PROTEIN GENES. Still number one in Jan 2017**

D: SG CAPRIKORN ZURICH HALLOUMI 4*M #634 97thoile and the best looking of all the 100 does born in 2016. **E Mammary.**

Baby lactation only 01-00 287 2046 3.5% Fat 3.1% Protein.

01-11 (2 y.o lactation) headed for 3400! Excellent!

Yearling LA 88 Will go up. 89 is the highest any yearling can get.

You have to wonder how high HALLOUMI'S 97%ILE would be if she had not been dragged out to 6 shows including Nationals for a week during her lactation.

HALLOUMI is the showiest of the yearlings as of June 2017.

DD: SG CAPRIKORN CZARGATE FROMAGE 3*M #537

American Saanen 97%ile as of June 2017, Yearling LA +VVV 85

01-00 305 2476 83 3.4% 77 3.1% awesome baby lactation

Now this is a half sister of CUMIN, who outmilked the entire herd three straight years.

And also EXTRACT #490, who was **KILLING** them as a yearling, and beat 4,000 as a 2 y.o.

FROMAGE was looking good, now chronically lopsided due to severe mastitis Maybe

FROMAGE will mother the buck we are looking for.

Scott cut KURD's price in half when HALLOUMI only did 13.6 on her first 2018 test.

And down another 1,500 when her second test was 13.8. And again when the next three tests were 13.8, 12.0, and 13.1.

: SG ZEPP0 +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90

ZEPP0 has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPP0 is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx.

BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPP0 dau's.

And two of the 2017's and four of the 2018's - 2 Saanens, 2 Grades

DSSD: SGCH CAPRIKORN WEALTH XTORT 2*M LA-91

26,000 lb. 2,000 days.

WINNER - LIFETIME MILK AWARD - 2014 NATIONALS grades

XTORT'S LIFETIME FAT IS AMAZING, SHE HAS AROUND 900 LB

The second highest lifetime fat in the herd is only around 600 something.

XTORT made TOP FIVE over and over. She beat our whole herd in 305 at least twice.

Lined on CRUZEIRO, but only 3/16ths.

We had a disastrous test on Oct. 20, 2009, but XTORT held her milk. Maybe she likes to eat soggy round bales out in the rain. Her sister lives in Canada now.

Perfect buck kid for dairyman that does not register. A long history behind this doe. We got an employment application from a person working in the Likuni Boys School in

Africa. He became our herd manager and later started his own unregistered herd with our stock. When one of his does, PEPPER, went 5,000 on DHI, we got her dau. That was VANILLA, who completely lost one rear foot but kept on trucking with a **wide** mammary..

XTORT is for people who love goats who love people. She was the only kid to break out of the kid prison to follow you around while you do chores.

As of April 2017 she was first in lifetime milk, fat and protein. Her lifetime fat was OVER 1,000 LB.. The closest doe to her only had 700!! Milk **OVER 30,000 lb**. Some cows don't get that far.

XTORT's mammary milks way down. This means she should get an "e" for udder texture. But the Appraiser wouldn't give her one. The Linear Appraisal program is great but it DOES HAVE a box for udder texture and it DOES NOT have a box for TOPLINE or SHARP WITHERS.

XTORT is not a big doe, making her milk records even more remarkable.

XTORT'S DAU CUMIN IS BEATING THE ENTIRE HERD as of August 2014, even though she is only 2 y o. She made Top Ten. And CUMIN again beat the whole herd in 2015. And so far in May of 2016.

PREGNANT - THANK YOU GOD! - FEBRUARY 2016 - NINE YEARS OLD! But aborted.

Not pregnant Dec 2016. She can stay here though.

Yes Pregnant February 2017 10 years Old. Pray she can carry.

Xtort has 7 related dau's.

Ec in front leg, A in rump, all the rest V's.

in 2011 he was THE NEW #1 BUCK OF THE SAANEN BREED! AND AGAIN ON THE NOV. 2015 LIST!! NUMBER ONE FOR MILK/FAT/PROTEIN GENES. **Still number one in Jan 2017**

S: SGCH CAPRIKORN ZURICH COBALT+*B #230

COBALT already has milking dau's at CAPRIKORN. He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to have a ROCKET son for a change. All the others were bought This was an awesome looking baby buck. He has that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. Then he became a yearling. Our yearling bucks are ugly. One place Scott can fault him is the rump could be wider. Secondly, ZURICH has a slight minus for PTAFS.

Cobalt is plus for type.

His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck lists. IT IS RARE FOR A 95th %ILE BUCK TO ALSO BE POSITIVE FOR TYPE.

SD: SGCH CAPRIKORN RAMESES VVS1 "ROCKET" 5*M

YGERNE was cruising at 19 lb per day in May 2011 and going up.

HAD A SHOT AT 5,000 THIS LACTATION!! The trip to Colorado and back slowed her down.

10th Place 4 y.o. at 2012 Nationals !! (out of 19)

Scott lets Alice have her way with ridiculous names like this because he can't afford alimony.

YGERNE's first claim to fame happened on the Jan 10, 2010 official test, when as a yearling she outmilked EVERY doe in the herd, including the older does, placing Number One! WE LIKE BIG WINTER MILK!

YGERNE was bigger as a yearling than most of the mature does. And she grew at the same time she was making lots of milk.

YGERNE' first buck is the herdsire in Southern Wyoming.

YGERNE's second buck was reserved by Ben Rupchis, whose Alpine sold for \$5,000.

YGERNE's specifications LOOK like an NSBA doe - a 92 with big milk. But she is not. The 92 is for big dairyman's does - tremendous BC and DC and MA but NOT CUTE at all. LA equals structure. Show equals beauty.

Here is what the buyer said about his YGERNE buck kid, the full brother of DOBRE.

"He has a lovely temperament, great set to his hind legs, much width between the hocks, and nice feet. All things we were hoping for!"

Ec in front leg, A in rump, all the rest V's.
in 2011 he was THE NEW #1 BUCK OF THE SAANEN BREED! AND AGAIN ON
THE NOV. 2015 LIST!! NUMBER ONE FOR MILK/FAT/PROTEIN GENES. **Still
number one in Jan 2017**

S: SGCH CAPRIKORN ZURICH COBALT+*B LA-91 #480

He is a fundamental part of our breeding program. His sister went for \$2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to have a ROCKET son for a change. All the others were bought This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. Then he became a yearling. Our yearling bucks are ugly. One place Scott can fault him is the rump could be wider. Secondly, ZURICH has a slight minus for PTAFS.

Cobalt is plus for type, just barely

His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck ADGA.org lists. IT IS RARE FOR A 95th %ILE BUCK TO ALSO BE POSITIVE FOR TYPE.

Two things happened to XTERRA who was by far the best looking dry here. One, her mammary popped out. Between Moose and Prince it would be blind luck to get a beautiful mammary. Two, her tremendous body weight contributed to her developing rear pastern weakness. XTERRA DNA Registered VGL ID: ADG 20073208

DDS: MOOSE (CAPRIKORN RENOV VANDERBILT) p. 20 Elite Buck List
DD: WIARA (previous page) **TOP TEN** LA-90 27,000 lb lifetime as of Sept. 2017!
DDD: **STARGATE** #1 in US. TWO DIFFERENT YEARS!
Beetle is elegant. She was a perky happy kid. Her dam won a big class in Frederick when she was a dry in 2007. On September 17, 2011, BETELGEUSE WENT GRAND at the same show and now has a dry leg.! OOPS! No tattoo by Alice.
BETEL has a nice mammary and a nice body. She can show. On May 25, 2013 she defeated BAHKTI, our second showiest two year old milker, going 3rd of 4 behind BLANCA and AIRACOBRA. Some pastern weakness is what keeps her from being a grand.. Her 2014 kids are beautiful. Her 2014 buck kid, beautiful, leased by Kahsay. Her 2015 kid, FORTHER went Grand at Leetown. In the fall of 2016 "Betel" defeated both AMAZING and AIRACOBRA. In a subsequent show, AIRACOBRA defeated both EXTRA ALOHA and CHEYENNE. Codebb90

BETEL would have won the Saanen Lifetime Milk Award at the Nationals but she got sick and could not go.

HALI, pronounced HEY-lee, is having a KILLER lactation. Four and a half months in she is dripping at 13 hours! The mammary is BIG, but built well enough so that HALI went Reserve Grand Champion over eight CAPRIKORN show does at Leetown on May 26, 2018.

We brought both TIBERIUS and RUMI from the West Coast.

CAPRIKORN HOT KRUMPE *B
American Saanen

#8131 AS1918493

Born February 20, 2018
Never Appraised

\$995

Reserved by Pena

A great value for the frugal dairy farmer. The dairy farmer who feels he cannot afford the very maximum in milk genes but wants a lot of milk increase and udders that will last a lifetime.

WHY A GREAT VALUE? Because Sam the lazy milker ruined the dam's udder so she can never have a 4,000 lactation. But when you look at what she was doing before that happened, what her dam did, what her dau's are doing, you know she has the genes.

SSS: SG ZEPPPO +*B LA-90

Young Stock Final Score "V"(Just missed Ec) **#3 All-time on the USDA Top Buck List DEC 2016.** We have about 115 buck kids every year and when we picked up ZEPPPO at the airport after flying him from California he was bigger than any of our own kids. And he is still the biggest today, March 2018.

Best Udder in Show versus 24 Milkers!!

S: CAPRIKORN CZARGATE HOT ROCKS #669

HOT ROCKS himself is overpriced for a dairy farmer that never shows. Unless you need **UDDERS**

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. **8th.**

SUM 777 Overpriced because we have an investment. Daughters that will cost us DHI and LA fees.

And he needs quite a few tested daughters before he will be proven one way or the other.

Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built."

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings

In Scott's opinion. #3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having a very good baby lactation.

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components
03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that could happen with linebreeding, and we believed her out cross offspring would be super. Mainly expecting the flat rump angle. ROCKET'S FINAL STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott. Only "Good Plus" per Eric. As of March 2016 we had seen two dau's and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

DS: SG CAPRIKORN YELSON STARBY +*B
son of STARGATE, our best doe ever

The new USDA ratings came out August 2014 and STARBY was #5 All Time Saanen Buck!

D: SG CAPRIKORN STARBY DONUT 3*M #343 ONLY HAS ONE HALF OF UDDER

2 y o LA 87 VVEV Way too low.

One of the 4 showiest yearlings that trade places. First in both rings in her first show. Later defeated. BUT ALSO ONE OF THE TWO **MILKIEST** YEARLINGS!

0-11 315 3065 112 3.7% 91 2.9% Fabulous

then lost ½ of her udder and

01-11 315 3046 115 3.8% 93 3.0%

03-00 305 2580 98 3.8% 80 3.1%

Lifetime Fat % 3.7

As a yearling DONUT got first in both rings at Leetown on Memorial Day weekend. Then Sam, a high school kid milker with a very poor work ethic, gave her mastitis and she lost one half. TIP TO DAIRY FARMERS: goat people are cheap. Sometimes penny wise and pound foolish. Better to pay a little more for a much better milker. Also, you cannot train them and forget about it. YOU HAVE TO RECHECK after a few months.

Milk - yes yes yes

Fat - yes yes yes

Looks - yes yes yes

Is there anything else she could do?

Yes! 3.2 protein instead of 3.0. And not have an ugly full sister. -

DONUT WAS VERY EXPENSIVE. NOW NOT FOR SALE DUE TO LOSING ONE HALF.

Her kids are Scott's pick for the frugal dairy farmer. Her kids will always be a bargain because she can never make 4,000 with only one udder half. On the other hand, because we know how good she is and how good her dau's are, maybe the prices will be too high for dairy farmers, who mostly only look at 305's.

DD: SGCH CAPRIKORN WEALTH XTORT 2*M LA-91

26,000 lb. 2,000 days.

WINNER - LIFETIME MILK AWARD - 2014 NATIONALS grades

XTORT'S LIFETIME FAT IS AMAZING, SHE HAS AROUND 900 LB

The second highest lifetime fat in the herd is only around 600 something.

XTORT made TOP FIVE over and over. She beat our whole herd in 305 at least twice.

Lined on CRUZEIRO, but only 3/16ths.

We had a disastrous test on Oct. 20, 2009, but XTORT held her milk. Maybe she likes to eat soggy round bales out in the rain. Her sister lives in Canada now.

Perfect buck kid for dairyman that does not register. A long history behind this doe. We got an employment application from a person working in the Likuni Boys School in Africa. He became our herd manager and later started his own unregistered herd with our stock. When one of his does, PEPPER, went 5,000 on DHI, we got her dau. That was VANILLA, who completely lost one rear foot but kept on trucking with a **wide** mammary..

XTORT is for people who love goats who love people. She was the only kid to break out of the kid prison to

follow you around while you do chores.

As of April 2017 she was first in lifetime milk, fat and protein. Her lifetime fat was OVER 1,000 LB.. The closest doe to her only had 700.!! Milk **OVER 30,000 lb.** Some cows don't get that far.

XTORT's mammary milks way down. This means she should get an "e" for udder texture. But the Appraiser wouldn't give her one. The Linear Appraisal program is great but it DOES HAVE a box for udder texture and it DOES NOT have a box for TOPLINE or SHARP WITHERS.

XTORT is not a big doe, making her milk records even more remarkable.

XTORT'S DAU CUMIN IS BEATING THE ENTIRE HERD as of August 2014, even though she is only 2 y o. She made Top Ten. And CUMIN again beat the whole herd in 2015. And so far in May of 2016.

PREGNANT - THANK YOU GOD! - FEBRUARY 2016 - NINE YEARS OLD! But aborted.

Not pregnant Dec 2016. She can stay here though.

Yes Pregnant February 2017 10 years Old. Pray she can carry.

Xtort has 7 related dau's.

Their ratings, which are right there on adgagenetics are:

89, 99, 84, 92, 94, 98, 97

KRUMPE is the name of a local donut family which is famous for miles around Hagerstown, Maryland.

Scott says "On the average KRUMPE's daughters will have fabulous udders, **especially for our hand milking customers that need long teats.** His dam has the very top milk genes in our herd and his sire has VERY good milk genes but not the ultimate Caprikorn genes.

S: SG ZEPPO +*B

Young Stock Final Score "V"(Just missed Ec) **#3 All-time on the USDA Top Buck List** DEC 2016 LA-90 Whiteside ZEPPO has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it. ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's.

DSS: YELSON

YELSON had two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. YELSON has 36 registered dau's as of October 2013. June 2018 rates around 90th %ile.

DS: SGCH CAPRIKORN YELSON BULGING EYE +*B

PLUS 306 PTAM November 2017 LA-90

Coming into the Fall 2016 breeding season, Scott had a lot of bucks to choose from. If you averaged his sire and dam's and two rated dau's percentiles and PTAM's – BULGING EYE was the highest rated buck here. So we went with him. Our judgment was vindicated when the December 2016 ratings came out. He got a plus 302 in milk, higher than any buck on the Elite Buck List. But he does not appear on the list

D: SG CAPRIKORN BE FUSILLI 4*M #526 dob Jan. 23, 2015

Yearling LA ++VE 85 Hell-o! That's a E Mammary!

FUSILLI beat all of the other 3-year-olds on our March 11, 2018 test at only 8 days fresh

And again on April 15 And again on May 13 and June 17.

01-01 305 2356 93 3.9% 77 3.3% (mastitis)

2 YO VEEE 90

02-01 305 3283 135 **4.1%** 102 3.1% Excellent for a 2yo

Friendly. In April 2017, we said "Very nice looking mammary maybe EX" And in fact the Appraiser did go with "E" in September. Only 6 pounds on her first test as a yearling though. WE WILL TAKE ALL THE DONUT DAUGHTERS WE CAN GET. In September 2016 the beautiful mammary was a perfect size - for a mature doe. We said, "What that means is this awesome doe's kids will be a good deal for dairymen. Because the mammary will grow too big for the American Show Goat Assn scorecard by the time she is two." So she will never have the really high placing that drives the prices up. She had a case of mastitis her entire yearling lactation that we tried to treat simply by remilking her. But that didn't work. HER NUMBERS WOULD BE EVEN BIGGER WITHOUT THE MASTITIS. The first three tests of her two year old lactation have beautiful SCC counts. So, the dry treatment worked! RESERVE BEST

UDDER Aug. 4, 2017 as a 2 y o. versus 14.

DDS: SG CAPRIKORN YELSON STARBY +*B

son of STARGATE, our best doe ever

The new USDA ratings came out August 2014 and STARBY was #5 All Time Saanen Buck!

DD: SG CAPRIKORN STARBY DONUT 3*M

2 y o LA 87 VVEV Way too low.

One of the 4 showiest yearlings that traded places. First in both rings in her first show. Later defeated.

BUT ALSO ONE OF THE TWO MILKIEST YEARLINGS!

0-11 315 3065 112 3.7% 91 2.9% Fabulous!!

then lost 1/2 of her udder and

01-11 315 3046 115 3.8% 93 3.0%

03-00 305 2580 98 3.8% 80 3.1%

Lifetime Fat % 3.7

As a yearling DONUT got first in both rings at Leetown on Memorial Day weekend. Then Sam, a high school kid milker with a very poor work ethic, gave her mastitis and she lost one half. TIP TO DAIRY FARMERS: goat people are cheap. Sometimes penny wise and pound foolish. Better to pay a little more for a much better milker. Also, you cannot train them and forget about it. YOU HAVE TO RECHECK after a few months.

Milk - yes yes yes

Fat - yes yes yes

Looks - yes yes yes

Is there anything else she could do?

Yes! 3.2 protein instead of 3.0. And not have an ugly full sister. -

01-08 305 3220 87 2.7 NSBA SILVER SEAL

One of only two Saanens in the history of the U. S. that had two lactations of over 5,000 pounds in 305 days or less. Every 10 or 15 years nature sends us a genetic freak.

DS: SGCH CAPRIKORN ZURICH COBALT+*B LA-91

He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to have a ROCKET son for a change. All the others were bought. This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers.

Cobalt is plus for type.

His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN.

So he does not print on the Top Buck (cdcd.us) or Elite Buck lists. IT IS RARE FOR A 95th %ILE BUCK TO ALSO BE POSITIVE FOR TYPE.

D: SG CAPRIKORN COBALT FELIXA #549 11*M 91th %ile
American Saanen 94%ile as of June 2017; 2 YO V+++ 84
00-11 305 2368 88 3.7% 73 3.1% Very good yearling lactation
02-01 305 3025 116 3.8% 96 3.2% Very good 2 yo lactation considering the 3.8% & 3.2%
3.2% is as high as Saanens go for protein.

DD: SG CAPRIKORN YELSON DILEX 10*M

She was our junior yearling entry at 2014 Nationals in early July 2014. When ALICE got to Louisville she bought some awesome alfalfa at the National show for our does and DILEX promptly foundered. In spite of that she was **3rd place** out of 9 at Nationals July 16, 2014! As of December 26th 2014, she was no longer “paddle-walking” so it was going to be “All about that udder”. It came out really awesome, but Alice’s cheap milkers almost ruined it. Their idea of milking is bring the doe, in, teat dip, put the inflations on, push the doe out. The fact that no milk came out of the udder didn’t bother them. Count on Alice to hire three cheap incompetent people instead of one expensive competent herdsman every time. So DILEX did not have a good second lactation. But she showed O.K. in spite of the udder damage - one of the best 4 yearlings, if you level her out. She kidded in March 2016 and the mammary was uneven again. URRGHHH! Same for 2017 when she came with three dead kids. She is a big power doe, and a lover, but too sensitive. Needed to be stretchier.

KELLIX is priced that low because of his ears. And because FELIXA, in spite of her very good lactations so far, is only rated at 91st % ile by the USDA computer program. 91st means she is better genetically than 10 out of 11 **TESTED Saanen does**. On the average KEELIX’s sire, CZARBUCK will kick that number up. He equals with his full brother to around 98%

On April 14 2018 Scott said “THIS GUY LOOKS GREAT. BUT HE HAS TO GO TO A DAIRY FARMER BECAUSE OF THE EARS.”

But of all the 3 y.o.’s FELIXA is running second to FUSILLI so far in their 2018 lactations.

The 172 butterfat is our second highest 305 for b.f. all time. We've been in ADGA for 40 years.

Lifetime as of May 2018 1947 days 22,856 pounds

July 16th 2014 - 4th place 3 y.o. AND HIGH INDIVIDUAL PRODUCTION AWARD AT NATIONALS!

This time Scott convinced Alice to let her kid in March - how she got 4th.

BEST IN SHOW VERSUS 62 MILKERS JUNE 30, 2013

7th of 14 2 y o's at Nationals July 8, 2013 Nice showing when you consider she freshened on Jan.15th.

July 5th, 2016 - back again at the Nationals after skipping the 2015 in Oregon. 5TH place in the 5 & 6 y. o.

July 2017 6th place in the 5 and 6 Y.O. milkers @ Nationals

Class AND **ALL FOUR MILK AWARDS** versus all the Grade Milkers entered.

TOTAL PERFORMER of 2016 Nationals!!

TOTAL PERFORMER again at 2017 Nationals And winner of all four Milk Awards.

Tip to Goat Buyers – look at how the fat % jerks around. Considering there is 10 laboratory tests in every lactation, that shouldn't happen. So, in buying, rely MORE on the MILK NUMBER than the bf #.

Good grief -172 lb of fat in 305!

BILEX was only shown 7 times to get her 3 legs. Her b.f. would make TOP TEN easily. She has a nice mammary PHENOTYPICALLY but not GENETICALLY. Meaning - it looks GOOD but her family as a whole has average udders. Scott hand milked this doe and he really likes her buck kids for a dairyman that does not register. The udder milks down to almost nothing, she is strong, she is friendly and willing.,

She has two very showy daughters: GCH DILEXINA and a second powerhouse; EXOTIC who beat about 20 milkers to get GCH WHILE SHE WAS A YEARLING MILKER Tragedy struck when a buyer chose EXOTIC for \$1,795. Heavy price to pay for a grade. We thought she was safe here. BILEX is so big you have to guess she is a ZEPPO daughter.

One of only two Saanens in the history of the U.S. that had two lactations over 5,000 pounds in 305 days or less. Every 10 or 15 years nature sends us a genetic freak. Best Udder versus 24 milkers at District 3 Saanen Specialty.

D: CAPRIKORN CZARGATE FLORENCE #577 99th percentile 4th PL Milking yearling at the National Show.

DIED SUDDENLY SEPT 5, 2016.

a very good looking first freshener even better looking than STAR FLEET. FLORENCE was leading all the yearlings in milk. The double whammy - FLORENCE was ALSO our yearling milker entry at the Nationals July 4th, 2016. And she had tight shoulders. **V per the appraiser.** Viewing the herd as whole on the average our number one conformational weakness is shoulders.

DDS: SG YELSON +*B p. 15 Recent Bucks. Cmputes around 90th %ile.

DD: SG CAPRIKORN YELSON CHEYENNE 5*M #2143 AS1614179 97%ile
Young Stock Ec

LA-90 Second place Dam and Dau Nationals July 4, 2016

01-06 305 2716 81 3.0% 77 2.8%

2-06 306 3617 122 3.4% 103 2.9%

We said “Will probably be 1st place Jr. Yearling at 2013 Nationals.” two years ago in this catalogue. WAS ACTUALLY 2ND PLACE ON JULY 9, 2013!

And on July 4, 2016 she was 12th place 3 year old.

If you saw CHEYENNE you would know right away you want her kids. Her dam was ranked 99th percentile and her sire is our best milk buck out of those with a positive PTAFS. It was scary to think how good CHEYENNE could be. As a kid she has been shown only once and was Grand Champion. In milk, before she turned two, she was first in both rings as a milking yearling. Then we stopped showing her. It’s too bad U.S. breeders put way too much weight on mammaries and way too little weight on milk/fat/protein. But that IS the way it IS. Feb. 19, 2014 maybe an E mammary – maybe not enough fore. Fabulous rear and teats. Shown only once in 2015 and of course she could not beat CASSIOPEIA. CHEYENNE got coded “A” for acceptable for feet. Bad. smh codes J 88, Ec WS, 90 KS

As of Dec 2015 plus 257 PTAM -0.10 b.f -0.04 protein

He was number one on the Elite Buck list when we bought him

Died February 20, 2016

When we bought him for \$3,500 plus transportation from California. In Fall 2015 he was
NUMBER ONE on the Elite Buck List.

We knew that some of our bucks would eventually prove higher. But we were desperate for an
outcross. We were too inbred. Scott always wanted an ELF descendant, but they kept ending up
with only one udder half.

He looks better than an 89 to Scott.

09-09 220 1950 53 2.7% 54 2.8% IN PROGRESS

Still milking at 10 years old SEPTEMBER 2016!!

Lifetime 2,497 days 27,299 lb and climbing. WOW!

Not only did she start early, 9 months of age, but very few does can do 2,900 ending at 8 ½ years old.

Her dau ANDROMEDA was 10th? yearling milker at National Show

What if we could develop a strain that always kidded at under one year?

WIARA, FORMERLY 97 Percentile rank, has fallen to 90th.

The USDA computer needs to learn how to give older does a break. Her doe YIARA owned by Scarlett Payne.

Our other Top Ten that year was WIARA's niece YIN YANG #821.

WIARA bred herself and kidded at 9 months of age! AND had a 16 lb test! WIARA is super friendly. WIARA had a PTA for stature of plus 9.9, which was bigger than any buck in adgagenetics. At 1 yr & 6 months, bigger than the mature does. (MOOSE was a giant). So in Fall 2013 we were using BING, because he was born when his dam was 8 ½ months old. BING was bought, but he begat NEW ERA #424, before he left. So now we have the start of a new breed of Saanens that kid at a younger age so the dairy farmer doesn't keep losing money on them while they are dry.

Our oldest doe as of February 2016 and TESTED PREGNANT! We use her son, NEW ERA, #424. And HERACLES will probably be our clean up buck this winter.

DD: SG CAPRIKORN KRUG'S **STARGATE** - page 59 - #1 in U.S.A TWO
DIFFERENT YEARS! (All breeds)

LA-90 & LA-89 & BIS vs. 24 milkers.

Now the question is - Since we use a WIARA son here, why hasn't anyone bought HERACLES? Because they think they know better than the heaviest milking herd in the U.S.? Or because they don't realize that if their herd was averaging 11.7 like WIARA's, their milk checks would go up by \$51,030 per year.

11.7 pounds here minus 9 pounds there equals 2.7 lb per day times 150 does times 300 days times \$42/ hundredweight equals \$51,030 more per year.

HERACLES does have a weakness - his dam's b.f.%. ECLIPSE should bring that up, but not enough for it to be positive.

HERACLES has one rear foot that Scott calls a "rocker foot."

HERACLES – "One of American Dairy Goat Associations Sire Development Bucks"

#424 - WIARA's babies are friendly, have personality, and come up to you when you go into their pen.

HERACLES Big and Rangy, Excellent length. Shallow heels, good rear leg angulation. Clean front legs. Good to very good escutcheon.

Good shoulders, Excellent DC.

Extraordinarily friendly, inquisitive, and human like. We used him as the clean up buck on the main milking herd.

This is an awesome choice for a herd that is commercial and has some mixture of Alpines and Saanens because Scott used this buck heavily as the clean-up buck at Caprikorn Farms. So you know that he's got the milk. Starting in 2017 we became dismayed with the back pasterns. Other herds will take a beautiful udder and a poor set of back pasterns. At Caprikorn we would rather have strong back pasterns and a not so pretty udder. If you have a mixed herd, then you probably have good back pasterns. We are Saanen breeders and we have always bred for strong back pasterns because all 120 Saanens that were brought into the U.S. had poor back pasterns.

05-01 305 3327 99 3.0% 93 2.8% NSBA SILVER SEAL

Ended with Lifetime 1,396 days 15,575 pounds 2.8 b.f. 2.8 pro

Finished in only 4 shows, a total of 6 rings.

An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had "INVERSION" - more protein than fat. We chose VIOLET's twin VERN to breed the awesome does STARGATE and VENICE Nine pounds at birth. We had named VIOLET'S dam to honor Tina Gilchrist's immortal GCH FOOTHILL FARM MEADOW SPRING TOP TEN LA 90. Dam had the big arc 35. And Rear Udder height: 38. Dam had extra teat. VIOLET started life with the RENOV steep rump. That changed. We don't want to waste time on conformation but one item we do want is "The Big Arc"! We used to have big wide escutcheons. As of November 2012, Violets lifetime was 1,396 days 15,575 milk. She had cream, not white hair and an undesirable Saanen nose. It's so easy to be the top Saanen **milk** herd. The other breeders select for color and noses. We can

just keep selecting for milk/fat/protein, all wrapped into one number called “percentile,” or “Rank”. VIOLET “HAD IT ALL”

It is very unusual for there to be two straight generations of 92's. There are very few Saanen 92's in any given year.

He has 7 registered kids at CAPRIKORN but they are to young to prove anything.
