All of these doe kids HAVE been registered with ADGA.

We don't do the listing until the papers come from ADGA.

(We can't get the paper from ADGA until we come up with a name that contains "M" and has something to do with her family.)

"Conformed Pregnant Price" What does that mean?

We send samples to the lab every week or two. If the do you are buying is pregnant, then your are getting more Saanens than just her,(Unless she aborts.)

"131" – What does that mean? She is wearing a neck tag that says "131".

Also her left ear PERMANENT tattoo will read "131M".

The "M" means born 2020.

The "131" means she was the 131st kid born in 2020.

The 131 in 131M means she was the 131st kid born in 2020

All of these doe kids HAVE been registered with ADGA.

(We don't get the paper from ADGA until we come up with a name that contains "M" and has something to do with her family.)

The Page Number is where you find her in "Our Doe Families"

DOB: 01/18/2020	XXXX/XXXX	SGCH ALEX x HIGHLEXA # 6177	

She has a Nubian nose!
Dam long teats.
She has waddles that grow from behind her ears!
Underpriced because she has a pronounced convex nose.
The Saanen Breed Standard is exactly this:
“”..”Disqualifications - Breed Specific: -erect ears-no other color but white or cream”
So we are not allowed to register her as an “Experimental”
However Saanen Breeders greatly prefer dishd or straight noses.

And overpriced because she is a linebred outcross. A very active doe which portends BIG milk.

On August 31, 2020, Scott said: "This is a really big doeling, the biggest of this years crop. But her rear pasterns are a little weak. Her offspring need to go into a mixed herd. In a mixed herd there will be Alpine and maybe some Nubian blood and the rear pasterns will be just fine. Also all of our bucks and all of their ancestors have strong pasterns so her offspring should be a good deal. Find the offspring on advanced baby sales."
