2021 Bucks for Sale

and six guys from 2018 Bucks for Sale
and Three Old Guys in the back

June 17, 2021

In WordPerfect under: 2021 Bucks for Sale

*All of these buck kids have a negative CL test
(meaning they are clean)*

If you want one, send a deposit of 10% (or a \$100 minimum) and a contract2

*Contract2 is behind the button, "Order Forms," on the website.
Or call us (301) 834-8030 and we will fill it out!

THANKS!!

A dairy farmer wrote in with the question:

“Is it really worth paying more for the more expensive buck?”

Scott wrote back, in Spring 2016:

“The answer is I don’t know.

Here is one dollar and cents approach I thought of.

There are 16 **99th** %ile does. The average PTAM of those 16 is 333.

There are 16 **95th** %ile does. The average PTAM of those 16 is 230.

So it looks like for every one percentile drop the milk goes down by 26 pounds. HENOOSKI had a dam with a PTAM of a 93 so that would be 7 percentiles down from HAN SHOT FIRST.

26 pounds times 6 percentiles = 156 lb /year. So that would mean on average his daughters will give you 156 less pounds every year, year after year. And his granddaughters will give you one - half of 156 pounds year after year. So if you are milking 80, then $80 \times 26 \times 7 \times .41/\text{pound} = \$5,970$

80 does x 156 pounds = 12,480 pounds per year.

12,480 pounds per year @ \$40cwt = \$4,992.

5 years of milk from each doe equals \$24,960.

That’s my guess.”

A lot of work needs to be done to make this computation more accurate.

First, what about the granddaughters and great granddaughters?

Nothing was added to the \$24,960 for them.

Second, probably starting by comparing the 99th percentile to the 95th percentile is not right. Because the 99th percentile will have a few that are REALLY crazy for milk.

So, if we found 16 does in 85th percentile and averaged their milk (PTAM). Then subtracted that number from 230, which is the average for the 16 in the 95th percentile. That would give us the drop for 10 percentiles. Dividing that by 10 would probably give us a more accurate figure than 26 pounds per percentile.

TESTIMONIALS

“The Caprikorn does are amazing. They so out class the rest of the herd it’s not funny.”

-Trent Hendricks, MO

“A big congratulations to your TOP TEN DOES last year. I keep reading on and on and kept seeing all your listed. Yea Caprikorn!”

-Tom & Roni, CA

“We have 144 CAPRIKORN HOT SAUCE daughters. The YEARLINGS from him tower over a lot of the older does.”

Keith from New England

“We LOVE our Caprikorn Farm goats – they are not only very productive, they are lovely personalities – smart, but not overly pushy.”

-Bedford Blueberry Goat Farm, MA

“I would say you are probably the top herd in the nation now with those classification scores and that milk production.”

-Janelle Anderson, 30-year Saanen Breeder, NE

“Our KID ROCK daughters are milking 10 pounds at 10 months of age!”

-Emanuel Schneider, PA

“By the way, HOT ROD is doing great. His girls have had their first kids. He definitely improved our genetic pool.”

-Andrea Gauvreau, Quebec

“Scott, bought seven does from OK. Had never seen such milk or quality in a goat herd. When asked about the genetics he said they were Caprikorn.”

“They are doing 18 pounds a day. The yearlings are doing 13 pounds a day.”

-Thomas Childress, Hereford Breeder, TX

“I am overly pleased with EARTHMAN and the improvements that I can already see that he has made to our farm.”

-Wendy, Bootleg Farm, GA

“My name is Shereen and I bought a buck from you a couple years ago. Fantastic buck - I love this buck!”

- Shereen Wilcox, PA

“We have 105 does..Just so you know the Caprikorns are the nicest and largest ones. We can always pick them out just by looking at them.”

-Lori Lyons, WI

“Dear Scott, that is some Sales List! I know your goats are the BEST!”

-Brad Parker, Pipe Dreams Fromage, PA

“Hey Scott, I got to milk some of your best goats when Alice was here; was impressed!”

-Levi Petersheim, IA

“The Caprikorn girls are doing FANTASTIC! They are exceeding our expectations. They are always coming in with full bags and they don’t want to slow down production very quickly when it is time to start drying up.”

-Jared Rebling, Brighton, IA

“AMBER is a milk machine. I appreciate the temperament of all your goats; they are so nice and loving!”

-Scarlett Payne, Utica, OH

“A lot of the ones we have from your bucks freshened at 11 months and they’re just fantastic.”

-Keith Tiffi, VT

“DILL and DYLEX are **amazing**, and as milking yearlings were amazing also...”

-Lila Streff, SD

“I appreciate that you are willing to refund our deposits; we have decided to back out of all 11 dairy goat kids.”

- Trisha Bickel, Hamburg, PA

“I have appraised all the major Saanen herds and you have the best feet and legs.”

-Linear Appraiser, American Dairy Goat Assn., 2013

“I am so very glad to be able to work with you as you are one of the most reliable and honest goat breeders I know. It is such a pleasure to have complete confidence in a purchase to know that it will be totally as represented.”

-Teddy West, OH

The **95th** percentile does average **243** per PTAM.

The **98th** percentile does average **302** per PTAM.

Increase of **59** pounds per year.

There are **3** percentage points between **95 & 98**.

Therefore each percentile translates into **20** pounds of milk per doe per year.

So, for example, if you have a normal non-tested herd, that MIGHT be **40th** percentile.

If you use **90th** percentile bucks, you move up by **1,000** pounds per doe per year.
(**20** pounds times **50** percentiles)

If you are getting **\$53** cwt, your income goes up by **\$39,000** for every **100** does you milk.

TABLE OF CONTENTS

Here is a list of the 2021 bucks, listed in birthday order.

Warning: CAPRIKORN yearling bucks are usually ugly.
Pretty as babies. Handsome as older bucks.

SD: CAPRIKORN YELSON MEADOW ZEPHYR

We thought he was probably our milkiest buck before his son STARBY came along. YELSON has two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. ELSON had 36 registered dau's as of October 2013. The Appraisers waved YELSON off. They have to do ALL the does. But they try to save us the embarrassment of a low score on bucks. So they say "You don't want to do him" when he starts coming out of the pen. But we loved his Rear End Assembly. The Big Arc.

#3 All-time on the USDA Top Buck List DEC 2016 LA-90 #11 on Dec

ZEPPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it. ZEPPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPPO dau's. Also the 2017 305 Milk & Fat Awards, and the 2017 Lifetime Awards.

D: SGCH CAPRIKORN ZEPPPO ALEX 10*M LA-92 TOP TEN 2 times BIS (out of 4)

3-07 305 4274 133 3.1% 125 2.9% **TOP TEN**

5-07 297 4080 144 3.6% 116 2.9% - 144 should make Top Ten again.

Reserve GCH vs. 13 at Leetown May 23, 2015

Grand vs 16 milkers AOP, then **BEST IN SHOW AUGUST 10, 2015!**

Scott & Alice forgot to bag up ALEX for Appraisal (she was milking through)

But they remembered a week later – **BIS** Next year 91 or 92, not 89.

BEST IN SHOW AGAIN SEPTEMBER 19, 2015

DD: SG DAUGHTER'S X ILEX 9*M TOP TEN TWICE - page 8

ALEX WON THE MILK AWARDS AT THE NATIONALS

NEXUS is slightly better looking than his brother.

157 is the best looking of the 3 ALEX sons from this year. He is by no means a drop-dead beautiful Saanen buck.

He is tall so he will be massive when he fills out. However, the rump angle is slightly below average. Of course, bucks have steeper rumps than their daughters and sisters. And more importantly, many bucks rump angles improve radically as they age.

#158 NEXUSS is not as good looking as #157 NEXUS.

DS: CAPRIKORN FLINT HONDURAS *B (HONDO) #609
NSBA TYPE BUCK MILK AND SHOW

We took HONDURAS to a different show on June 5 and he was 4th of 4 in one ring and 2nd of 5
in the other. As of Sept. 2016 we are using HONDURAS on some of our "milk and Show"
NSBA type does. Awesome BC beyond excellent. Right rear heel is shallow. Very friendly,
Excellent escutcheon form YELSON. YG Romp Angle from ROCKET,

D: CAPRIKORN HONDO JWALA #786 #2 yearling (out of 33) on her first test.
02-00 288 3469 121 3.5% 109 3.1%

**JWALA is a 99%ile doe. She missed her 3-year-old lactation
when we aborted her. If she had followed the normal
progression, she would have moved up from the 3469 pounds in
288 days of her 2-year-old lactation and probably made 4,000.
We will bet that she makes 4,000 this year.**

And she finished second on her second test. First went to #787 JUNIPER, dam of KEBAB. As of August,
still in 2nd. That was the Second highest out of 33 yearlings. Not counting the ones we sold. **There
are only 15 99%ile does and JWALA is one of the 2 or 3 best
looking ones.**

JWALA is a kind of cheese. JWALA has the crimped ear gene. It started with CZARGATE, who never
showed it, came through FLORENCE, who might have been our best doe ever, didn't show up in
HONDO, but now has appeared in one of his dau's. And it shows up big time in HONDO's sister HAITI.
HABANERO is so awesome we have to keep JWALA. Dairy Farmers don't care about the ears. Rightly
so. But the ears make Scott crazy.

DD: CAPRIKORN ECLIPSE HABANERO #6141 99TH ile
HABANERO exceeds her dam CUMIN both in looks and Predicted Transmitting Ability Milk

She almost died at the beginning of her 2018 lactation then she gradually came back to have a chance at Top Ten! In her 2017 lactation she was beating the whole herd. Dairy Farmers - as a kid too showy, too expensive. We said, "As a milker not doing well. Are you a gambler?" No one took her when she was cheap and now she is very expensive.

BUYER'S TIP; don't pay too much attention to baby lactations. Look more at the dam and sire.

Scott looked at some of the recently fresh yearlings on March 10 2018 and he put this doe in the top 2. So he took her price up by 3,000 more or less. Her full sister below is an awesome deal because she does not yet have the looks phenotypically but she does have them genetically so her dau's will shine in your herd on the average.

Loses points because did not freshen until March 23, 2019.

But came through on January 19, 2020. March 2020 - JUSTA is "paddle walking" and walking on her knees. Heart breaking. Still milks O.K. but cannot be sold.

ERIDANA got 4,700 in 1 lactation and former 99%ile doe

CAPRIKORN HAWK NORTHN LIGHTS is not expensive because we foundered JUSTA and she never broke 4,000, even though she was a 99%ile

VERY FRIENDLY. Big Strong Doe. "If she were mine, I'd send her down the road." Linear Appraiser. That was before she freshened. In 2013 the Appraiser gave the mammary an E. In 2015 she only got a V. . BAR's profile is very simple. She has a beautiful mammary and body. She has big milk/fat/protein genes ALSO. So WHY IS SHE AND HER KIDS A GREAT DEAL FOR DAIRY FARMERS? Pure and simple - the topline has a dip. We have shown her. Maybe she could have won if she were not up against BOLIVIA from our herd and the C- Creek 3 y.o., one of the best looking 3 y.o.'s in the U.S. Her son EXAM, #461, beat the other two yearling bucks in all four rings, June 13, 2015. And in one ring the judge made him **Reserve Grand Champion** versus eleven Saanen bucks. At 5 her pasterns are starting to weaken. Urrgh, But we have so many 90's that can also do 4,000 that we will sell her sons cheap. We used her son HIGH BAIL until he was bought.

Dairy Farmers - as a kid too showy, too expensive. In 2015 we said "As a milker not doing well. Are you a gambler?" No one took her when she was cheap and now she is very expensive.

BUYER'S TIP; don't pay too much attention to baby lactations. Look more at the dam and sire.

DS: SG CAPRIKORN SNOW ZURICH ++*B **LA-90**

in 2011 he was THE NEW #1 BUCK OF THE SAANEN BREED! AND AGAIN ON THE NOV. 2015 LIST!! NUMBER ONE FOR MILK/FAT/PROTEIN GENES. **Still number one in Jan 2017**

D: SGCH CAPRIKORN ZURICH HALLOUMI 4*M #634 98th%ile and the best looking of all the 100 does born in 2016. **E Mammary.**

Baby lactation only 01-00 287 2046 3.5% Fat 3.1% Protein.

01-11 (2 y.o lactation) headed for 3400! Excellent!

Yearling LA 88 Will go up. 89 is the highest any yearling can get.

You have to wonder how high HALLOUMI'S 98%ILE would be if she had not been dragged out to 6 shows including Nationals for a week during her lactation.

HALLOUMI is the showiest of the yearlings as of June 2017.

And the showiest of all the 2 y o's as of September 2018. 2 legs as only 2 y.o.

DD: SG CAPRIKORN CZARGATE FROMAGE 3*M #537

American Saanen 97%ile as of June 2017, Yearling LA +VVV 85

01-00 305 2476 83 3.4% 77 3.1% awesome baby lactation

Now this is a half sister of CUMIN, who out-milked the entire herd three straight years.

And EXTRACT #490, who was KILLING them as a yearling, and beat 4,000 as a 2 y.o.

FROMAGE was looking good, now chronically lopsided due to severe mastitis Maybe FROMAGE will mother the buck we are looking for.

Scott cut KURD's price in half when HALLOUMI only did 13.6 on her first 2018 test. And down another 1,500 when her second test was 13.8. And again when the next three tests were 13.8, 12.0, and 13.1. On August 4, 2018, even though she was only a 2-year-old, the judge made HALLOUMI Grand over an AOP class of around 17 does.

HALLOUMI gets dragged out to five shows a year by Alice. One per month in the Summer. Each time her DHI projection drops because she is bagged up. Surely she would have a 4,000lb lactation to her name if we had a different show doe in her age class.

CAPRIKORN ZEPP0 KEBAB #848 AS1916808 Born February 01, 2018

CAPRIKORN CZARBUCK KLINGON *B #888 AS1917350 Born February 07, 2018
American Saanen Never Appraised

sum 1368

\$3,495

Awesome Rump Angle- Wild but getting tamer every time we breed him to someone. In August of 2018 Scott thought this was the best looking of the dozen or so baby bucks. On June14, 2020 Judge Jackson put him first over all the two year old bucks.

S: CAPRIKORN ZEPPPO CZARBUCK *B #2103- See KIRK previous page

D: SG CAPRIKORN BE EKORIA 5*M #486 - See KIRK previous page

Why is he twice as expensive as his twin brother on the previous page? Because we have dau's from him. So money has been invested in DHI testing fees and Linear Appraisal fees and Evaluation Sessions to start to prove him either as good, bad, or indifferent. And it will take two or three more years of expenses AT LEAST before the computer tells us what he has buried in his DNA.

You should definitely buy his twin brother instead. Unless you are going on DHI.

June 14, 2020. JUDGE JACKSON puts him FIRST out of nine 2 y o Saanen bucks here.

DAM 2nd highest yearling milker but she has one slightly weird ear dam: Best Udder versus our 33 yearlings by Ben Rupchis.

DAM; Reserve Grand Champion as a YEARLING September 15 versus EXTRACT 91, EZZTAR 90 and 12 other milkers

S: SG ZEPPPO +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90

ZEPPPO has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPPO dau's SMH CODE90 WS

99th percentile PTAFS PLUS 0.6 as of October 2020

4th Place Milking yearling at the National Show! DIED SUDDENLY SEPT 5, 2016.

a very good looking first freshener even better looking than STAR FLEET. FLORENCE was leading all
the

yearlings in milk. The double whammy - FLORENCE was ALSO our yearling milker entry at the
Nationals July 4th,

2016. And she had tight shoulders. V per the appraiser. Viewing the herd as whole on the average our
number one conformational weakness is shoulders.

DDS: SG YELSON +*B p. 15 Recent Bucks. Computes around 90th %ile.

DD: SG CAPRIKORN YELSON CHEYENNE 5*M #2143 AS1614179 97%ile
Young Stock Ec

LA-90 Second place Dam and Dau Nationals July 4, 2016

01-06 305 2716 81 3.0% 77 2.8%

2-06 306 3617 122 3.4% 103 2.9%

We said "Will probably be 1st place Jr. Yearling at 2013 Nationals." Years ago in this
catalogue. WAS ACTUALLY 2ND PLACE ON JULY 9, 2013! And on July 4, 2016 she was
12th place 3 year old. If you saw CHEYENNE you would know right away you want her kids.
Her dam was ranked 99th percentile and her sire was our best milk buck out of those with a
positive PTAFS. It was scary to think how good CHEYENNE could be. As a kid she was shown
only once and was Grand Champion. In milk, before she turned two, she was first in both rings as
a milking yearling. It's too bad U.S. breeders put way too much weight on mammaries and way
too little weight on milk/fat/protein. But that IS the way it IS. Feb. 19, 2014 maybe an E
mammary - maybe not enough fore. Fabulous rear and teats. Shown only once in 2015 and of
course she could not beat CASSIOPEIA. CHEYENNE got coded "A" for acceptable for feet.

Bad. smh codes J

88, Ec WS, 90 KS

DDD: SG CAPRIKORN RENOV'S WINNEMUCCA 4*M

02-09 305 3729 153 4.1% 119 3.2%

LA-90 VEEE

WINNEMUCCA also had a flaw in the conformation of her back feet.

HONDURAS had a full sister: HAITI #610. She was a dud milker but built great with a PTAFS of +0.3.
You almost never find a buck with big milk that also has a dam (4th place Nationals) and sire's dam (also
4th place Nationals).

CAPRIKORN ECLIPSE HERCULES #6130 AS1790215 Born March 10, 2016
American Saanen Never Appraised
sum 1567 **\$39,500**

UPDATE - HERC IS PROVEN!!

On Aug 5, 2020 the USDA computer gave him Plus 356 Predicted Transmitting Ability Milk. This is the third highest number of any Saanen Buck. And he has better fat and protein than the other two.

We need him. And we are hoping to sell 2,000 units of semen at \$20 each.

S: SG ECLIPSE +*B AS1501878 LA-89
#1 on the USDA Top Buck list as of DEC 2018
As of Dec 2015 plus 257 PTAM -0.10 b.f -0.04 protein
He was number one on the Elite Buck list when we bought him in the Fall of 2015.
We knew he might not last long and he died February 20, 2016.
It was worth the 3,500 plus transportation from West Coast to East Coast when his son became #1.
We were sure that some of our bucks would eventually prove higher. But we were desperate for an outcross. We were too inbred. Scott always wanted an ELF descendant, but they kept ending up with only one udder half.
He looked better than an 89 to Scott.

DS: SG CAPRIKORN YELSON MEADOW BOSS *B – very beautiful except narrow rear; one of USDA’s top life-time Saanen Bucks

02-09 306 4713 161 3.4% 131 2.8% in progress - A sure bet for Top Ten LA-91 as a 3 y.o. LA -88 As a yearling
BIG MILK AND BIG SHOW and big fat
12th of 25 2y.o.’s 2014 Nationals
7th as a 5 or 6 y.o
5th as a 7 y.o disappointing– but she had not freshened that year.

HERC is very good looking. ERIDANA biggest doe in the herd.
A little sickle legged. Good rump angle, Powerful. Toes okay but not tight. VG all around. Very friendly.
This is a very well built buck. Scott guesses that he will appraise 92 when he grows up.

CAPRIKORN ECLIPSE MEADOW HAWK *B #6155 AS1778410 Born March 16, 2016
American Saanen Never Appraised
\$12,995

HAWK is the main herd sire at CAPRIKORN in 2020 Breeding Season.

S: SG ECLIPSE +*B AS1501878 LA-89

As of Dec 2015 plus 257 PTAM -0.10 b.f -0.04 protein

He was OLD and number one on the Elite Buck list when we bought him for \$3,500 and paid to have him brought to the East Coast for California.

Died February 20, 2016 after only one breeding season.

When we bought him in Fall 2015 he was NUMBER ONE on the Elite Buck List.

We knew that some of our bucks would eventually prove higher. But we were desperate for an outcross. We were too inbred. Scott always wanted an ELF descendant, but they kept ending up with only one udder half.

He looked better than an 89 to Scott.

DS: YELSON page p..25 Recent Bucks – we thought he was probably our milkiest buck before his son STARBY came along.. YELSON has two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. ELSON had 36 registered dau’s as of October 2013. The Appraisers waved YELSON off. They have to do ALL the does. But they try to save us the embarrassment of a low score on bucks. So they say “You don’t want to do him” when he starts coming out of the pen. But we loved his Rear End Assembly. The Big Arc.

05-01 305 3327 99 3.0% 93 2.8% NSBA SILVER SEAL

Ended with Lifetime 1,396 days 15,575 pounds 2.8 b.f. 2.8 pro

Finished in only 4 shows, a total of 6 rings.

An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had “INVERSION” - more protein than fat. We chose VIOLET’s twin VERN to breed the awesome does STARGATE and VENICE Nine pounds at birth. We had named VIOLET’S dam to honor Tina Gilchrist’s immortal GCH FOOTHILL FARM MEADOW SPRING TOP TEN LA 90. Dam had the big arc 35. And Rear Udder height: 38. Dam

had extra teat. VIOLET started life with the RENOV steep rump. That changed. Her picture is on the website in front of the NYMPHIE (MEADOW) Family.

We don't want to waste time on conformation but one item we do want is "The Big Arc"! We used to have big wide escutcheons. As of November 2012, Violets lifetime was 1,396 days 15,575 milk. She had cream, not white hair and an undesirable Saanen nose. It's so easy to be the top Saanen milk herd. The other breeders select for color and noses. We can just keep selecting for milk/fat/protein, all wrapped into one number called "percentile," or "Rank". VIOLET "HAD IT ALL"

It is very unusual for there to be two straight generations of 92's. There are very few Saanen 92's in any given year. On August 1, 2018 Scott said, "This is a beautiful vigorous buck with a lovely top line and big width up front. His negative is that his rear end assembly is too narrow and he is too hocky. A lot of the look of his close relative MEADOW BOSS is here. But the family keeps coming with 92's so it appears that the rear end narrow doesn't get passed on to female offspring. Will be looking hard at his first few daughters as they freshen to see if this trait is showing up."

On June 14, 2020 a very good ADGA judge placed 18 SENIOR bucks (no kids) at CAPRIKORN and she made HAWK Reserve Grand Champion. So maybe Scott is a little too demanding when it comes to escutcheons in bucks. Or maybe the ADGA scorecard is wrong.
