We don't do the listing until the papers come from ADGA.

(We can't get the paper from ADGA until we come up with a name that contains "N" and has something to do with her family.)

"Conformed Pregnant Price" What does that mean?

We send samples to the lab every week or two. If the do you are buying is pregnant, then your are getting more Saanens than just her,(Unless she aborts.)

"131" – What does that mean? She is wearing a neck tag that says "131".

The "N" means born 2021.

The "131" means she was the 131<sup>st</sup> kid born in 2021.

DDS: SGCH CAPRIKORN ZURICH COBALT+\*B LA-91; COBALT has had many milking dau's at CAPRIKORN. He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to keep a ROCKET son for a change. This awesome looking baby buck had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck lists.

DD: CAPRIKORN COBALT LACOBRA

DDD: CAPRIKORN TIBERIUS JAIRACOBRA

JAIRACOBRA was very showy, defeating all our yearlings in one ring. We had too many showy 2yo.'s JWALA, JUNIPER, JILL PEPPER all had big milk unlike JAIRACOBRA.

DDDDD: SG ZEPPO +\*B; #3 All-time on the USDA Top Buck List LA-90 #11 on Dec 2018 ELITE BUCK LIST; ZEPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's. Also the 2017 305 Milk & Fat Awards, and the 2017 Lifetime Awards.-90

EZTAR 4\*M TOP TEN was the Appraiser’s #3 doe kid and EZZTAR was his #4. Out of about 60 does. Years ago we said: “They are certain to have awesome milk, especially COMPONENTS.” EZTAR has a very nice rump angle which comes from her granddam SGCH CAPRIKORN RAMESES VVS1, LA -91 2x and six 3,000+ lactations.

We actually showed her as a 3 y o in three rings and she was last in two of them but the competition was two great show herds- Scotty Broaddus and Janice Kessler - C CREEK SAANENS.

Summer of 2019-As a five year old we dragged her out again and she won her very small class every time as of August 3. The judge in the last show was a dairy farmer and made her RESERVE GRAND CHAMPION over JWALA!

We said "Will probably be 1st place Jr. Yearling at 2013 Nationals," years ago in this catalogue. WAS ACTUALLY 2ND PLACE ON JULY 9, 2013! And on July 4, 2016 she was 12th place 3 year old. If you saw CHEYENNE you would know right away you want her kids. Her dam was ranked 99th percentile and her sire was our best milk buck out of those with a positive PTAFS. It was scary to think how good CHEYENNE could be. As a kid she was shown only once and was Grand Champion. In milk, before she turned two, she was first in both rings as a milking yearling. It's too bad U.S. breeders put way too much weight on mammaries and way too little weight on milk/fat/protein. But that IS the way it IS. Feb. 19, 2014 maybe an E mammary – maybe not enough fore. Fabulous rear and teats. Shown only once in 2015 and of course she could not beat CASSIOPEIA. CHEYENNE got coded "A" for acceptable for feet. Bad.

smh codes J

Two different opinions:

Scott: "Spectacular Escutcheon. Double her price."

Judge Katie Jackson: "Back pasterns weak. Steep rump. 5<sup>th</sup> in a class of 8."

DS: SG CAPRIKORN SNOW'S ZURICH \*B #916 LA-90  
in 2011 he was THE NEW #1 BUCK OF THE SAANEN BREED! AND AGAIN ON THE  
NOV. 2015 LIST!! NUMBER ONE FOR MILK/FAT/PROTEIN GENES.

DD: CAPRIKORN BE HOT PEPPER 4\*M #620      **A 99<sup>th</sup> %ILE DOE**      25% Alpine  
We don't really want to keep 3/4 Grades. But HOT PEPPER had looks on top of the milk. It is possible that this was our only doeling where both the dam and sire are 99%ile animals. HOT PEPPER had an excellent build. The Appraiser only gave her a "V". But she was our choice of all the kids to take to Nationals. She was one-third of our "Best 3" at 2016 Nationals. But she was NOT a drop dead killer show goat.

DDD: CAPRIKORN SNAP ECLARE 3\*M      **99<sup>th</sup> percentile**      Big for her age.  
Her full sister ECLAIR had width and fat teats.  
ECLAIR second of 14 at Frederick September 2016. But a lot of the competition was 4 H'ers.

DDDD: CUMIN - Possibly our best milker. Time will tell.

Top Ten THREE TIMES - #1 on Elite Doe List as of April 2021

305 **5142** lb! LA-89. Scott said: "LA -89 a little high. Not enough attachment."  
Next Appraiser said: "LA-90."

#3 All-time on the USDA Top Buck List LA-90 #11 on Dec 2018 ELITE BUCK LIST  
ZEPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US.

Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's. Also the 2017 305 Milk & Fat Awards, and the 2017 Lifetime Awards.

DS:CAPRIKORN ZEPPO KEBAB #848 AS1916808

DSD: CAPRIKORN BAIL JUNIPER 3\*M #787 out milked all 35 yearlings 2018. Also best looking. She got mastitis and was uneven and lost at the Nationals in June. But in August 2018, she was back on top. ONE OF THE TEN HIGHEST RATED DOES IN THE US FOR PTI 2:1.

D: CAPRIKORN KEBEB LEXA "LEXI"

DDS: SG ECLIPSE +\*B AS1501878 LA-89

As of Dec 2015 plus 257 PTAM -0.10 b.f -0.04 protein. He was number one on the Elite Buck list when we bought him. Died February 20, 2016. When we bought him in Fall 2015 he was NUMBER ONE on the Elite Buck List. We knew that some of our bucks would eventually prove higher. But we were desperate for an outcross. We were too inbred. Scott always wanted an ELF descendant, but they kept ending up with only one udder half. He looked better than an 89 to Scott.

DD: CAPRIKORN ECLIPSE HIGHLEXA 12\*M #6177 97<sup>th</sup>%ile

HIGHLEXA has long teats. She can stay even though she is only 97<sup>th</sup>%ile and LA-84.

Elite Doe 99th percentile- as high as they go! AND SHE IS BETTER GENETICALLY than her usda/cdcb/adga rating because of the limping. For the dairy farmer that wants more milk and protein %
