# 2021 FALL BREEDINGS

rev'd 10/30/2021

*We are starting with a copy of 2020 Fall Breedings.*

*What we are doing is:*

*A: leaving the 2019 red entries in RED. If we examine the breeding, AND we still think it's the best move for 2021 we change it to GREEN.*

*B: Leaving the 2020 BLACK entries in BLACK ink. If we have changed one to GREEN, it means we have checked it out based on all the new data that has come out since last year, and we still think it is the best way to go.*

*C: Anything in GREEN is the latest.*

**GREEN ENTRIES ARE NEW OR WE LOOKED AT A BLACK OR RED AND turned it to GREEN, because IT SHOULD BE THE SAME FOR 2021.**

**Black entries are LEFT OVER FROM LAST YEAR.**

**Red entries are left over from THE YEAR BEFORE.**

## **NEW IN 2021**

The emphasis will be on KASHTA'S baby buck NUCLEUS because so far KASHTA and J2 KOLO are a cut above the other does in the 99<sup>th</sup> %ile and we do not have a J2 KOLO son

KOLO buck.

Otherwise need more KLINGON and HAWK.

We have a 99%ile J2KOLO daughter - LINEDANCER.

## **NEW IDEA - SHOW BUCK**

**Katie placed 129 first out of a lot of buck kids. She also placed the dam #9208 third out of the yearlings (check this!)**

**That argues for the possibility that he should be a show buck. Up til now, at least for junior yearlings, Scott strongly votes for CHEYENNE'S buck kid. CHEYENNE was a second place junior yearling and the kid is really level with a huge escutcheon.**

**GOAL:**

**One great WINKEEPER son.**

**Who is it? CUMIN'S dau's**

**No habla CZTAR's went to KEITH**

**One great LEEANN'S son Son**

**Didn't work in 2019**

**The fundamental question is**

**“Use our proven guys (A)**

**OR**

**(B) prove new guys”**

**Advantage of (A): milk will go up faster, at least short term**

**Advantage of (B): may uncover a super winner who:**

**(1): will lead Elite Buck List (advertising)**

**(2): will make milk go up faster, long-term**

## **PROVEN:**

JARLS 7221

HERC 6130

HONDO 609

KEBAB 848

Do you go with their high numbers?

Or try to prove youngsters?

Answer: See who is the highest, use him extensively,  
Otherwise try to prove youngsters

## Partially PROVEN

2. KLINGON 888
3. LEGACY - 943

4. LOBOT - 930
5. HABANERO'S SON MULATO #BLUE 141
6. 7299 LEEANN'S SON

Red = old news probably WRONG.

Black = correct for 2020 Fall Breedings

Green = new in 2021

PRINCIPLES – PAGE ONE

List of breedings start on page TWELVE

The few show breedings we will use MICHAEL KORS, KARISMA'S son by KENYA. Back Up KENYA.

For dau's of MICHAEL KORS we will use MOUNT SHASTA - (KEBAB x CHEYENNE)

Three does need medial help: 654 834 8113.

We want 480's April baby to do it. Update- WINKEEPER!

But 654 and 834 will skip this Fall and milk through.

UPDATE: 480 only had does

CUMIN'S SON #2 = SPICE KING=8208 to all that JARLS bred last year unless related. UPDATE - not enough JARLS dau's. Go with 7221 instead. He's big. Update- sire of SK dud for milk. Go with LEGACY 943

Update: JoAnn has SPICE KING dau's. So we must make AND KEEP some to get him on the Elite Buck List.

BELIEVE spice KING 8208 is a HOT ROCKS SON - DoN'T LIKE IT 75%ILE.

Now 60%?? Abandon SK - HE WILL SELL.

UPDATE: we put 10101 AKA BLUE 101 on test  
SPICE KING can go.

JALEX2 #796

UPDATE - axed him when  
CALEX2's

update - how about  
update to update - JWALA's son  
Update #3 like CYLEX. Who else has tight  
shoulders? HE IS THE LAST LIVING  
SON OF HIGH BAIL

CYLEX

JARLSBERG #7221

Any unrelated XTORT Fams  
That's going to almost be just  
9XXX's  
And all the 9xxx'S SUCK.

NEW IDEA - A SON OF HIGH BAIL who is far and away #1 on Elite List  
#737?? IS GOOD LOOKING - update died.

## principles - page two

MEADOW HAWK #6155

Needs lots of action but doe must have  
width in chest. NYMPHIE/MEADOW  
UPDATE - chest acceptable.

WINKEEPER #8999

Just need **ONE** great son. Far cross to

ROCKET Fam. As of March 2020  
registrations per adgagenetics, WE DON'T  
HAVE ONE

*LEEANN's SON* #9299

Just need **ONE** great son. UPDATE\_ this  
guy looks great . Like to use him a lot.

KEBAB #848

Dam may be our best doe ever

# TOO MANY BUCKS! WHO CAN WE NOT USE?

We sent *HOT ROCKS*.

We do not need to use 8208 because we have marked the dau's not for sale so he will be proved August 2021. Projected at 90<sup>th</sup> %ile based on DEC 2019 ratings of HOT ROCKS and CUMIN.

Maybe 888 has to go. No, EKORIA is beating them all again. Update - he was katie's FIRST PLACE. UPDATE: He was Jim's next-to-last

JALEX2 796- DAM LOOSE SHOULDERS TOO MANY BULLDOGS. too bad, last High Bail son. CYLEX is the only doe we have identified for him.

sideline HONDURAS 609 for now - except for 8146 , the LAST? ROCKET Fam doe. UPDATE- Honduras is a ROCKET GRANDSON. He is the ONLY buck for her FAMILY

SIDELINE 6130 HERC - he's proven

Sideline 7221 JARLS - he's proven: use LEGACY, also CUMIIN son

Old Notes -

KATMANDU FAM - WIN

JUSTICE FAM - WIN

**General principles continued** - Weak Medial People - how about the son of 490 EXTRACT

another alternative for the weak medial people  
(- HULA, her daughter J2 KOLO, 8113, and any other weak medials that come along)  
is Ben's buck WINKEEPER. This is true because WINKEEPER's dam has a PTA of +3.1 for medials and the sire HOPS also descends from people with strong medials

that leaves -

SPLIT THE 99<sup>TH</sup>%ILES BETWEEN

win

and LEEANN'S SON

Mostly LEEANN'S SON

UPDATE: we STILL have no WIN son from a 99%ile. All to him?

Do we have a LS son from a 99? YES-  
NEZTAR 134 (34N)
