A dairy farmer wrote in with the question:

“Is it really worth paying more for the more expensive buck?”

Scott wrote back, in Spring 2016:

“The answer is I don’t know.

Here is one dollar and cents approach I thought of.

There are 16 **99th** %ile does. The average PTAM of those 16 is 333.

There are 16 **95th** %ile does. The average PTAM of those 16 is 230.

So it looks like for every one percentile drop the milk goes down by 26 pounds. HENOOSKI had a dam with a PTAM of a 93 so that would be 6 percentiles down from HAN SHOT FIRST.

26 pounds times 6 percentiles = 156 lb /year. So that would mean on average his daughters will give you 156 less pounds every year, year after year. And his granddaughters will give you one - half of 156 pounds year after year. So if you are milking 80, then $80 \times 26 \times 7 \times .41/\text{pound} = \$5,970$

80 does x 156 pounds = 12,480 pounds per year.

12,480 pounds per year @ \$40cwt = \$4,992.

5 years of milk from each doe equals \$24,960.

That’s my guess.”

A lot of work needs to be done to make this computation more accurate.

First, what about the granddaughters and great granddaughters?

Nothing was added to the \$24,960 for them.

Second, probably starting by comparing the 99th percentile to the 95th percentile is not right. Because the 99th percentile will have a few that are REALLY crazy for milk.

So, if we found 16 does in 85th percentile and averaged their milk (PTAM). Then subtracted that number from 230, which is the average for the 16 in the 95th percentile. That would give us the drop for 10 percentiles. Dividing that by 10 would probably give us a more accurate figure than 26 pounds per percentile.

-Teddy West, OH

The 95th percentile does average **243** per PTAM.

The 98th percentile does average **302** per PTAM.

Increase of 59 pounds per year.

There are 3 percentage points between 95 & 98.

Therefore each percentile translates into **20** pounds of milk per doe per year.

So, for example, if you have a normal non-tested herd, that MIGHT be 40th percentile.

If you use 90th percentile bucks, you move up by 1,000 pounds per doe per year.
(20 pounds times 50 percentiles)

If you are getting \$53 cwt, your income goes up by \$39,000 for every 100 does you milk.

“Reserved by _____” means **NOT**
AVAILABLE.

Someone else has already put their money down.

If you'd like to be that someone next year when someone looks at these lists, **YOU** can reserve a baby in advance by going to “Advance Baby Sales.”

Thank you for looking!

ZEPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's.

Also the 2017 305 Milk & Fat Awards, and the 2017 Lifetime Awards.

DD: CAPRIKORN ZURICH HALLOUMI 4*M #634 99th percentile LA-90

HALLOUMI is the showiest of the yearlings as of June 2017.

Therefore her kids are overpriced from the perspective of a commercial dairy farmer. On August 4, 2018, even though she was only a 2-year-old, the judge made HALLOUMI Grand over an AOP class of around 17 does. September 15, 2018 - HALLOUMI goes Grand vs. 14 for her second Leg.

HALLOUMI gets dragged out to five shows a year by Alice. One per month in the Summer.

Each time her DHI projection drops because she is bagged up. Surely she would have a 4,000lb lactation to her name if we had a different show doe in her age class.

ZEPPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it. ZEPPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPPO dau's.
