2025 Bucks for Sale

March 23, 2025

In NEW CF/2025: 2025_Bucks_for_Sale

*We believe all of these buck kids will have a negative CL test as soon as we can draw blood and ship it.
(meaning they are clean)*

If you want one, send a deposit of 10% (or a \$100 minimum) and a contract2

*Contract2 is behind the button, "Order Forms," on the website.

Or call us (301) 834-8030 and we will fill it out!

THANKS!!

CAPRIKORN NUKE TANGO	534	01/23/25	\$1,695
RISOTTO'S SON	538	01/26/25	RESERVED BY RUPCHIS
CAPRIKORN SS TAMARI	546	01/29/25	RESERVED BY BELLO
CAPRIKORN RAISSIN TOFU	555	02/03/25	\$3,395

* PTAM - Predicted Transmitting Ability Milk

“Reserved by _____” means **NOT AVAILABLE.**

Someone else has already put their money down.

If you'd like to be *that someone* next year when someone else looks at these lists, YOU can reserve a baby in advance by going to “Advance Baby Sales.”

Thank you for looking!

We use the term “**Percentile**” or “Rank” or “%ile” frequently -
What does that mean?

All of the does on test in the U.S. are linked by the USDA computers.

If the doe has big numbers but all the other does in her “management group” ALSO have big numbers, the doe is not highly rated by the USDA.

If the doe has weak numbers but every one of her relatives has strong numbers *compared to their management groups*, the doe **IS** highly rated.

PERCENTILE is the only number you can count on for YOUR HERD.

a NUMBER LIKE 4500 POUNDS is about 55% determined by how good the management was when the doe made the record, 25% determined by how good the owner was at cheating on test, and 20% how much milk/fat/protein the doe actually has.

Those first two numbers add up to 80%.

Many many dairy people have said: “Production is 80% management and 20% genetics.”

A dairy farmer wrote in with the question:

“Is it really worth paying more for the more expensive buck?”

Scott wrote back, in Spring 2016:

“The answer is I don’t know.

Here is one dollar and cents approach I thought of.

There are 16 **99th** %ile does. The average PTAM of those 16 is 333.

There are 16 **95th** %ile does. The average PTAM of those 16 is 230.

So it looks like for every one percentile drop the milk goes down by 26 pounds. HENOOSKI had a dam with a PTAM of a 93 so that would be 6 percentiles down from HAN SHOT FIRST.

26 pounds times 6 percentiles = 156 lb /year. So that would mean on average his daughters will give you 156 less pounds every year, year after year. And his granddaughters will give you one - half of 156 pounds year after year. So if you are milking 80, then $80 \times 26 \times 7 \times .41/\text{pound} = \$5,970$

80 does x 156 pounds = 12,480 pounds per year.

12,480 pounds per year @ \$40cwt = \$4,992.

5 years of milk from each doe equals \$24,960.

That’s my guess.”

A lot of work needs to be done to make this computation more accurate.

First, what about the granddaughters and great granddaughters?

Nothing was added to the \$24,960 for them.

Second, probably starting by comparing the 99th percentile to the 95th percentile is not right.

Because the 99th percentile will have a few that are REALLY crazy for milk.

So, if we found 16 does in 85th percentile and averaged their milk (PTAM). Then subtracted that number from 230, which is the average for the 16 in the 95th percentile. That would give us the drop for 10 percentiles. Dividing that by 10 would probably give us a more accurate figure than 26 pounds per percentile.

TESTIMONIALS

“The Caprikorn does are amazing. They so out class the rest of the herd it’s not funny.”

-Trent Hendricks, MO

“A big congratulations to your TOP TEN DOES last year. I keep reading on and on and kept seeing all your listed. Yea Caprikorn!”

-Tom & Roni, CA

“We have 144 CAPRIKORN HOT SAUCE daughters. The YEARLINGS from him tower over a lot of the older does.”

Keith from New England

“We LOVE our Caprikorn Farm goats – they are not only very productive, they are lovely personalities – smart, but not overly pushy.”

-Bedford Blueberry Goat Farm, MA

“I would say you are probably the top herd in the nation now with those classification scores and that milk production.”

-Janelle Anderson, 30-year Saanen Breeder, NE

“Our KID ROCK daughters are milking 10 pounds at 10 months of age!”

-Emanuel Schneider, PA

“By the way, HOT ROD is doing great. His girls have had their first kids. He definitely improved our genetic pool.”

-Andrea Gauvreau, Quebec

“Scott, bought seven does from OK. Had never seen such milk or quality in a goat herd. When asked about the genetics he said they were Caprikorn.”

“They are doing 18 pounds a day. The yearlings are doing 13 pounds a day.”

-Thomas Childress, Hereford Breeder, TX

“I am overly pleased with EARTHMAN and the improvements that I can already see that he has made to our farm.”

-Wendy, Bootleg Farm, GA

“My name is Shereen and I bought a buck from you a couple years ago. Fantastic buck - I love this buck!”

- Shereen Wilcox, PA

“We have 105 does..Just so you know the Caprikorns are the nicest and largest ones. We can always pick them out just by looking at them.”

-Lori Lyons, WI

“Dear Scott, that is some Sales List! I know your goats are the BEST!”

-Brad Parker, Pipe Dreams Fromage, PA

“Hey Scott, I got to milk some of your best goats when Alice was here; was impressed!”

-Levi Petersheim, IA

“The Caprikorn girls are doing FANTASTIC! They are exceeding our expectations. They are always coming in with full bags and they don’t want to slow down production very quickly when it is time to start drying up.”

-Jared Rebling, Brighton, IA

“AMBER is a milk machine. I appreciate the temperament of all your goats; they are so nice and loving!”

-Scarlett Payne, Utica, OH

“A lot of the ones we have from your bucks freshened at 11 months and they’re just fantastic.”

-Keith Tift, VT

“DILL and DYLEX are **amazing**, and as milking yearlings were amazing also...”

-Lila Streff, SD

“I appreciate that you are willing to refund our deposits; we have decided to back out of all 11 dairy goat kids.”

- Trisha Bickel, Hamburg, PA

“I have appraised all the major Saanen herds and you have the best feet and legs.”

-Linear Appraiser, American Dairy Goat Assn., 2013

“I am so very glad to be able to work with you as you are one of the most reliable and honest goat breeders I know. It is such a pleasure to have complete confidence in a purchase to know that it will be totally as represented.”

-Teddy West, OH

The 95th percentile does average **243** per PTAM.

The 98th percentile does average **302** per PTAM.

Increase of 59 pounds per year.

There are 3 percentage points between 95 & 98.

Therefore each percentile translates into **20** pounds of milk per doe per year.

So, for example, if you have a normal non-tested herd, that MIGHT be 40th percentile.

If you use 90th percentile bucks, you move up by 1,000 pounds per doe per year.
(20 pounds times 50 percentiles)

If you are getting \$53 cwt, your income goes up by \$39,000 for every 100 does you milk.

D: SGCH CAPRIKORN ZURICH HALLOUMI 4*M #634 99th percentile LA-90

HALLOUMI was the showiest of the yearlings as of June 2017.
Therefore her kids are overpriced from the perspective of a commercial dairy farmer. On August 4, 2018, even though she was only a 2-year-old, the judge made HALLOUMI Grand over an AOP class of around 17 does. September 15, 2018 - HALLOUMI goes Grand vs. 14 for her second Leg.
Scott said "HALLOUMI gets dragged out to five shows a year by Alice. One per month in the Summer. Each time her DHI projection drops because she is bagged up. Surely she would have a 4,000lb lactation to her name if we had a different show doe in her age class."

Sure enough, the year after HALLOUMI finished she did;
5-00 305 4099 148 3.6% 148 121 3.0%

Scott and Sam love the view from the rear when PARMESANA is standing naturally.
A huge arc with the feet planted far apart framing a high wide rear.

Scott predicts PARMESANA will appraise at least 90 and she could go 92 or 93 if we are assigned an Appraiser that is confident in his/her work.

Aug. 2023: NAUGHTY is #1 in the USA!

On December 17, 2023, Scott said: "Very good looking,"

DAM of KASHTA'S TABASCO: CAPRIKORN HERC KASHTA

DS: CAPRIKORN ECLIPSE HERCULES

Good rump angle, Powerful. VG all around. Very friendly. This is a very well built buck. Scott guessed that he would appraise **92** when he grew up. Then we foundered him.

HERCULES is a proven buck.

When you do the USDA math - as of March 2022

Milk times a factor of .031 plus fat times a factor of .80 plus protein times a factor of 2.0,

He beats BULGING EYE, who is currently rated #1.

D: CAPRIKORN HERC KASHTA 4*M #827

DD: SG CAPRIKORN CZARGATE FROMAGE 3*M #537

American Saanen 97%ile as of June 2017, Yearling LA +VVV 85

01-00 305 2476 83 3.4% 77 3.1% awesome baby lactation

Now this is a half sister of CUMIN, who out-milked the entire herd three straight years.

And EXTRACT #490, who was KILLING them as a yearling, and beat 4,000 as a 2 y.o.

FROMAGE was looking good, now chronically lopsided due to severe mastitis Maybe

FROMAGE will mother the buck we are looking for.

As of March 2022, KASHTA's PTAM is 600 and something.

Show Buck: not enough milk for a big dairy

SS: SG ZEPPPO +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90

ZEPPPO has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPPO dau's

DSD: CAPRIKORN ZECRET CUMIN 305 5142 LA-90

D: SG CAPRIKORN FRA HULA 4*M #654 **TOP TEN 305 5,000**

HULA is 99th percentile doe and we were thrilled when she showed up in the 99th percentile.

Beat the pants off the other 2 y o milkers in her 2018 lactation.

And her Dau KOLO 834 is beating all our does born in 2018, 14 of them as of the April 2020 DHI test.

HULA did not kid in the 2019 milk test season. In 2020 she is beating them all again as of May.

Some National Saanen Breeders Association members will accidentally wander onto this list. Please listen to me: HULA is not cute enough for your herd! Ben Rupchis put her first looks wise over all the two year olds. But that was in very late lactation when her rear was no longer bulging and her teats were not pointing out like they do when she bags.

In addition to Ben's placing, HULA demonstrated her excellent confirmation when her daughter, CAPRIKORN BE JAZZ #AS1842097, placed in Senior Kid Class at the National Show. Also, her daughter, MACARENA, is quite good looking. We haven't taken her out yet as of May 2022, but we certainly could, and Paige Hohlstein reports that her full sister has a high tight sucked up mammary.

DDS: CAPRIKORN ZEPP0 CZARGATE

DD: SG CAPRIKORN CZARGATE FOXTROT 3*M

98thile as of June 2017 Yearling LA +E++ 85

01-00 305 2455 102 4.2% 78 3.2%

Distant line on STARGATE. As a yearling, FOXTROT and her kids are EXCELLENT CHOICES for the Dairy Farmer that wants big production - yes - but is also willing to pay a LITTLE extra to get that E mammary into his herd. She can definitely kid out a herd sire if she is bred to a big milk buck.

The 2024 ADGA Total Performer

DDS: CAPRIKORN ZEPPO CZARGATE: on the Elite Buck List June 2017

DD: CAPRIKORN CZARGATE FROMAGE #537 98th percentile

#1 doe in the 98thile on the USDA-DHIA genetic evaluation as of March 2021.

DDD: SGCH CAPRIKORN WEALTH **XTORT** 2*M #756

03-09 339 **4985** 165 3.3% 134 2.7% She averaged 16.5 lb a day for the 1st 7 months!

Lifetime 2,828 days 32,444 lb, milk 1,069 lb fat, 873 lb protein.

Probably the highest of any living Saanen at the time of her death.

On August 3, 2023 Scott said “the mammary is perfect viewed from the side - 1/3 1/3 1/3. Viewed from the back, the teats are a little too far out for Scott’s vision of what we want to give our *Dairymen*. However, they are not too far out for the average ADGA judge. The top of the rear could be wider. Of course, if you fixed both of those things, you’d have a stone killer show doe and the price would be too high for our dairy farmer customers.”

Fabulous from the side; hips too high due to rear leg pastiness. Steep rump; Need RA.

Update - One ADGA judge praised the teat Placement. And, in one ring of the big MDGA Summer Doe Show a judge (whose doe won the National Championship) made PROVOLONE Best of Breed over two permanent champions from the fabulous McKeever show herd.

PROVOLONE is valuable as a Brood Doe since her mother broke 5,000 lbs in 305 days and possesses the best appraisal score -91- of any of our 5,000 lbs does.

PROVOLONE IS A 98TH %ILE DOE. She would be 99 if the USDA formula had been updated for the rise of protein.

2024 UPDATE: Traded wins with PATCHOULI #274 at MDGA Spring Show and Summer Doe Show. Picked up one Best of Breed at the MDGA Summer Show vs. 14 milkers and two Challengers.

PROVOLONE was 14th place out of 36 Saanen milking 2-year-olds at the 2024 National Show in Louisville. Primarily, she was there to be part of the Dam and Daughter with CAPRIKORN JE FROMAGE **TOP TEN** (#751, a 5,000 lb in 305 day milker) being shown in an aged doe class.

We are not a show herd, but the ADGA scorecard is designed to measure *longevity*.

Buyer’s tip-

It costs money when we use our milk to raise a replacement milker, instead of selling that milk.

Or it costs money when we buy replacer to raise a replacement milker.

Or it costs money if we BUY a new milker.

OR - if we have a great milker, don’t we all want her to live longer (*longevity*) and give us more kids because in turn they will have more milk than the rest of our herd
