2025 Does for Sale

March 23, 2025

In NEW CF/2025: 2025_Does_for_Sale

These are Doelings born in 2025.

If you are shopping for older does, please open

**“2021 DOES FOR SALE” OR much BETTER,
“2022 DOES FOR SALE,” “2023 DOES FOR SALE,” and “2024 DOES FOR SALE”**

If you want one, send a deposit of 10% (or a \$100 minimum) and a contract2

*Contract2 is behind the button, “Order Forms,” on the website.

Or call us (301) 834-8030 and we will fill it out!

ATTENTION PLEASE!

We are going to change these prices soon!

*These prices change all the time. **Once you make your deposit, your price never changes.** Until you make your deposit, you have no deal.*

THANKS!!

“Reserved by _____” means **NOT AVAILABLE.**

Someone else has already put their money down.

If you'd like to be that someone next year when someone looks at these lists, **YOU** can reserve a baby in advance by going to “Advance Baby Sales.”

Thank you for looking!

What will they think of next?

20 years ago, I was at a show in Ohio and a man came up and introduced himself to me. He said: “Thanks for sending me your sales list. I have to do chores and milking before I go to work in the morning. I couldn't buy any of your goats because they give so much milk that I would be late for work.”

We can't get the paper from ADGA until we come up with a name that contains "T" and has something to do with her family.

"Confirmed Pregnant Price" What does that mean?

We send samples to the lab every week or two. If the doe you are buying is pregnant, then you are getting more Saanens than just her (unless she aborts.)

"531" – What does that mean? She is wearing a neck tag that says "531."

Also her left ear PERMANENT tattoo will read "31T."

The "T" means born 2025.

The "531" means she was the 31st kid born in 2025.

The first digit in her tag -5- just means she was born in 2 0 2 5

WHY ARE PERCENTILES MORE IMPORTANT THAN TOP TEN?

We have a whole long article that explains that. Call if you want one. But here's something we can say in two sentences:

"LOOK AT THE ASTERISKS! (On the Top Ten List) The computer is telling you that it sees a weird 'deviation.'"

**EVERY SAANEN ON THE TOP TEN LIST HAS AN
ASTERISK - EXCEPT THE CAPRIKORNS**

Here's something else we can say in two sentences:

*"Top Ten measures Management.
Rank, or percentiles, measures GENETICS."*

*You can't buy management but you **CAN** buy genes.*

All of these doelings HAVE been registered with ADGA.

DD: SG CAPRIKORN ZEPPO CZTAR 3*M - LA-90 top ten 99TH PERCENTILE as of Dec 2021

PTAFS +0.6

EZTAR 4*M TOP TEN was the Appraiser's #3 doe kid and her full sister EZZTAR was his #4. Out of about 60 does. Years ago we said: "They are certain to have awesome milk, especially COMPONENTS." EZTAR has a very nice rump angle which comes from her granddam SGCH CAPRIKORN RAMESES VVS1, LA -91 2x and 6 3,000+ lactations.

We actually showed EZTAR as a 3 y o in three rings and she was last in two of them but the competition was two great show herds- Scotty Broaddus (araby) and Janice Kessler - C CREEK SAANENS.

Summer of 2019-As a five year old we dragged her out again and she won her very small class every time on August 3. The judge in the last show was a dairy farmer and made her RESERVE GRAND CHAMPION over JWALA!

RAZTAR is Scott's choice for a serious Saanen breeder that would also like to ship milk profitably.

Not ugly; not a show doe...YET! Rump angle will flatten with age. Shallow heels.

On December 1, 2023 Scott said " Has some style, also shoulder motion, & the big arc.

Ben Rupchis said " LEEANN could have won the 2-year old class at the Nationals."

DS: CAPRIKORN ECLIPSE HERCULES
Good rump angle, Powerful. VG all around. Very friendly. This is a very well built buck. Scott guessed that he would appraise **92** when he grew up. Then we foundered him.
HERCULES is a proven buck.
When you do the USDA math - as of March 2022
Milk times a factor of .031 plus fat times a factor of .80 plus protein times a factor of 2.0,
He beats BULGING EYE, who is currently rated #1.

D: CAPRIKORN HERC KASHTA 4*M #827
DD: SG CAPRIKORN CZARGATE FROMAGE 3*M #537
American Saanen 97%ile as of June 2017, Yearling LA +VVV 85
01-00 305 2476 83 3.4% 77 3.1% awesome baby lactation
Now this is a half sister of CUMIN, who out-milked the entire herd three straight years.
And EXTRACT #490, who was KILLING them as a yearling, and beat 4,000 as a 2 y.o.
FROMAGE was looking good, now chronically lopsided due to severe mastitis Maybe
FROMAGE will mother the buck we are looking for.

As of March 2022, KASHTA's PTAM is 600 and something.
The milkiest active buck in USDA's computer bank is 300 and something. Only a couple of those. If a dairy getting \$50 per hundredweight could increase their production by 300 pounds per doe that equals \$150 dollars per doe each and every year.
So milking 100 you pick up \$15,000 a year. Milking 1,000: \$150, 000.
We will breed him to a lot of does and he will radically raise our milk production.
Also his sons should sell for more than our usual buck kids. Also we'll hope for maybe 400 straws of semen selling at 30 per straw.
What we need is an export semen deal with a large commercial dairy.

DAM of CAPRIKORN LEGALLY BLONDE: SG CAPRIKORN ECLIPSE HONEST JURY

CAPRIKORN ECLIPSE HONEST JURY #6152 AS1778409 Born March 14, 2016

American Saanen

99th Rank (percentile) as of August 2017! Fell to 98 Dec 2017

We said, "Probably go back up based on her 2019 lactation." She did.

01-10 305 3545 107 3.0% 96 2.7%

01-10 397 4115 129 116

03-00 305 3894 127 3.3% 109 2.8%

03-00 315 3966 130 112

Starting her 4yo lactation with a first test of 18.0 April 29, 2020.

S: SG ECLIPSE +*B AS1501878 LA-89 Died February 20, 2016

When we bought him in Fall 2015 he was NUMBER ONE on the Elite Buck List.

As of Feb 2019 he s back in the Number One spot

DS: CAPRIKORN ZECRET KEEPER p. 33 RECENT BUCKS 94 %ile + 0.2 PTAFS

"Dear Caprikorn Farms, I wanted to let you know how much I appreciate your bucks. ZECRET KEEPER'S are so beautiful. I can't bear to sell them! Thanks for your good work." -Love Brad ZECRET'S PTI was plus 149. Compare that to any of your bucks.

Scott looked at a pen with 5 ZECRET kids and his conclusion was: "Good looking, escutcheons only average, a little higher in the hips than in the withers, rump width only a little better than average, otherwise excellent." ZECRET KEEPER had 37 registered dau's as of January 2016.

D: SG CAPRIKORN ZECRET BAR EXAM *M **95%ile** formerly 97%

DDD: SGCH CAPRIKORN WEALTH XTORT LA-91

Lifetime 32,000 tops of all U.S. Saanens

NAUGHTY is actually better than her USDA rating. She wears 1127. STARY wears 1123.
NAUGHTY was cruising at 16, 17, 18, 19. STARY was doing 12. The tester got them switched.

NAUGHTY's first 3 tests in 2024 were 22.0, 26.1, 28.8, 25.5, 26.1, and 21.9 when she was bought. She is running way ahead of her 1yr and 0 month lactation, which was last year.

28.8 is the most milk anyone has ever made at CAPRIKORN in 40-some years of continuous DHI.

When her buyer moved her out of the Caprikorn Farms trailer and into their trailer, Scott and Danny, the buyer's assistant, watched as she drank 3 ½ gallons of water in her new trailer. Scott said he has never seen anything like that. 3 ½ gallons of water weighs 28 pounds; that seems completely impossible, but you can ask Danny!

Her August 2024 PTAM was 769, way higher than any Saanen ever.

On her last DHI sheet before she was bought the DHI computer thought she would end at 6680 pounds of milk and 276 pounds of fat at the 305day mark. Both of these would exceed the All Time Saanen Records!

DAM of CAPRIKORN KASHTA'S TAHINI: CAPRIKORN HERC KASHTA

DS: CAPRIKORN ECLIPSE HERCULES

Good rump angle, Powerful. VG all around. Very friendly. This is a very well built buck. Scott guessed that he would appraise 92 when he grew up. Then we foundered him.

HERCULES is a proven buck.

When you do the USDA math - as of March 2022

Milk times a factor of .031 plus fat times a factor of .80 plus protein times a factor of 2.0,

He beats BULGING EYE, who is currently rated #1.

D: CAPRIKORN HERC KASHTA 4*M #827

DD: SG CAPRIKORN CZARGATE FROMAGE 3*M #537

American Saanen 97%ile as of June 2017, Yearling LA +VVV 85

01-00 305 2476 83 3.4% 77 3.1% awesome baby lactation

305 5068 176 3.5% 148 2.9%

DDD : CAPRIKORN CZARGATE FROMAGE

THE USDA DHIA COMPUTER PROGRAM MAKES FROMAGE 99TH %ile!!

Because she has great lactations? NO! Because the computer knows the lactations of all her relatives and they are beating their herdmates. FROMAGE 99TH percentile GENETICALLY!

01-00 305 2476 83 3.4% 77 3.1%

02-00 286 2314 89 3.8% 76 3.3%

03-00 305 3227 117 3.6% 102 3.2%

No use looking at her lactations, one side of mammary ruined. Computer knows her relatives. So computer knows her percentile is 98!! Better genes than 49 of 50 Saanens. Most dairy farmers don't understand "GENES." So they don't buy her kids. So we have a lot of kids left here and they are doing great for us.

A 5,000 lb dam and a 5,000 lb granddam

4-00 first two tests 17.5 and 22.0
CUMIN was #1 on the Elite Doe list for several years.

MARJORAM was our Yearling Milker Entry at the 2021 National Show July 22nd.

Over-priced because we only have one other KZTARR son, and KZTARR was the bomb.
Full sister, KZTARA, is a 99th %ile doe with extraordinary components. BIG fat percentage of .39? And more importantly, protein of +.05. KZTARR himself was Jim Conlan & Ben Rupchis's FIRST PLACE buck out of the yearlings. Unlike other breeders, *we tell you all of the bad things*, and Scott thinks he is a little narrow and Scott has never liked the Rear End Assembly. But what he loves is the fact that NET SPICE's dam, MARJORAM, and her full sister, NAUGHTY, are tied with the highest score for Fore Udder on our 2023 Linear Appraisal sheets.

BUYER'S TIP: Scott looks at a Saanen from the back FIRST.
Scott points out that NET SPICE is one of the very few high PTAM bucks that does not absolutely destroy protein. As of the December 2023 Genetic Evaluations, which were the latest as of July 2024, the Elite Buck List only had 3 bucks that were positive for protein. NET SPICE is negative but only slightly, as follows. His dam is -0.03. His sire is as yet unknown. However, his sire's sire, BULGING EYE, is -0.01 and his sire's dam, CZTAR, is +0.01. So the weighted average is only -0.015. Or basically neutral for protein.

CUMIN was #1 on the Elite Doe list for several years.

MARJORAM was our Yearling Milker Entry at the 2021 National Show July 22nd.

Over-priced because we only have one other KZTARR son, and KZTARR was the bomb.

Full sister, KZTARA, is a 99th %ile doe with extraordinary components. BIG fat percentage of .39? And more importantly, protein of +.05. KZTARR himself was Jim Conlan & Ben Rupchis's FIRST PLACE buck out of the yearlings. Unlike other breeders, *we tell you all of the bad things*, and Scott thinks he is a little narrow and Scott has never liked the Rear End Assembly. But what he loves is the fact that NET SPICE's dam, MARJORAM, and her full sister, NAUGHTY, are tied with the highest score for Fore Udder on our 2023 Linear Appraisal sheets.

BUYER'S TIP: Scott looks at a Saanen from the back FIRST.

Scott points out that NET SPICE is one of the very few high PTAM bucks that does not absolutely destroy protein. As of the December 2023 Genetic Evaluations, which were the latest as of July 2024, the Elite Buck List only had 3 bucks that were positive for protein. NET SPICE is negative but only slightly, as follows. His dam is -0.03. His sire is as yet unknown. However, his sire's sire, BULGING EYE, is -0.01 and his sire's dam, CZTAR, is +0.01. So the weighted average is only -0.015. Or basically neutral for protein.

*This was Scott's pick for best looking buck out of his pen of 15 bucks on May 17, 2018.
But in August Scott thought that KLINGON, #888 was better looking.
1368*

NOW \$8,495

**We'll never get another one because ZEPP0 is 9 years old.
Wonderful Rump angle & barrel, Excellent Escutcheon, Loose Shoulders,**

S: SG ZEPP0 +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90 #11 on Dec

ZEPP0's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPP0 is Mr. Protein. He has the second highest protein % of any of our bucks, ever. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPP0 dau's.

Also the 2017 305 Milk & Fat Awards, and the 2017 Lifetime Awards.

DSS: SG ECLIPSE ++*B

AS1501878 LA-89; Died Feb. 2016

He was number one on the Elite Buck list when we bought him for \$3,500. He was old. As of October 2017 he is in the #3 spot.

DS: CAPRIKORN ECLIPSE HIGH BAIL *B

One of American Dairy Goat Associations Sire Development Bucks

Tad bit narrow from the back, little topline, dip, sharp withers, deep rump, very good in the front. Almost tight toes. Very good shoulders.

DSD: SG CAPRIKORN ZECRET BAR EXAM 1*M

97%ile

3rd at Nationals

"Scott said Will Go Up"

04-08 305 **4221** 128 3.0% 108 2.6%

Now he says again, "will go up"

04-08 324 4336 133 3.0% 112 2.6%

WIDEST udder in the herd. VERY IMPORTANT. You can't make them too low. You can't make them stick out in the back or they pee on them. So make them wide! "

D: CAPRIKORN BAIL JUNIPER #787 **out milking all 35 yearlings 2018.** Also best looking.

KEBAB was priced over\$5,000. On June 17 Scott went out and two does beat JUNIPER.

1st of four untrimmed in her first and only show as of May 26 2018 in both rings.

She got mastitis and was uneven and lost at the Nationals in June.

But in August 2018, she is back on top.

DD: SGCH CAPRIKORN WEALTH XTORT 2*— See KRAZ- previous buck

32,444 lb lifetime. Tops in U.S.

Scott loves KEBAB'S escutcheon and his rump angle. But most of all his terrific barrel, which is the element of conformation that the ADGA judges fail to appreciate enough. Looks great as a yearling. Usually CAPRIKORN bucks don't.

DAM of CAPRIKORN KEBAB TENANCY: CAPRIKORN HOT KUSTODY

Ben Rupchis said " LEEANN could have won the 2-year old class at the Nationals."

DS: CAPRIKORN ECLIPSE HERCULES
Good rump angle, Powerful. VG all around. Very friendly. This is a very well built buck. Scott guessed that he would appraise **92** when he grew up. Then we foundered him.
HERCULES is a proven buck.
When you do the USDA math - as of March 2022
Milk times a factor of .031 plus fat times a factor of .80 plus protein times a factor of 2.0,
He beats BULGING EYE, who is currently rated #1.

D: CAPRIKORN HERC KASHTA 4*M #827
DD: SG CAPRIKORN CZARGATE FROMAGE 3*M #537
American Saanen 97%ile as of June 2017, Yearling LA +VVV 85
01-00 305 2476 83 3.4% 77 3.1% awesome baby lactation
Now this is a half sister of CUMIN, who out-milked the entire herd three straight years.
And EXTRACT #490, who was KILLING them as a yearling, and beat 4,000 as a 2 y.o.
FROMAGE was looking good, now chronically lopsided due to severe mastitis Maybe
FROMAGE will mother the buck we are looking for.

As of March 2022, KASHTA's PTAM is 600 and something.

The milkiest active buck in USDA's computer bank is 300 and something. Only a couple of those. If a dairy getting \$50 per hundredweight could increase their production by 300 pounds per doe that equals \$150 dollars per doe each and every year.

So milking 100 you pick up \$15,000 a year. Milking 1,000: \$150, 000.

We will breed him to a lot of does and he will radically raise our milk production.
Also his sons should sell for more than our usual buck kids. Also we'll hope for maybe 400 straws of semen selling at 30 per straw.

What we need is an export semen deal with a large commercial dairy.

SG CAPRIKORN ZEPPO CZTAR 3*M – above LA-90 top ten 99TH PERCENTILE

DDD: SG CAPRIKORN RENOV’S ZTARGATE 2*M top ten – 98%

EZTAR 4*M TOP TEN was the Appraiser’s #3 doe kid and EZZTAR was his #4. Out of about 60 does. Years ago we said: “They are certain to have awesome milk, especially COMPONENTS.” EZTAR has a very nice rump angle which comes from her granddam SGCH CAPRIKORN RAMESES VVS1, LA -91 2x and six 3,000+ lactations.

EZTAR #2 on latest Elite Doe List - milk/fat/protein only

We actually showed her as a 3 yo in three rings and she was last in two of them but the competition was two great show herds- Scotty Broaddus and Janice Kessler - C CREEK SAANENS.

Summer of 2019-As a five year old we dragged her out again and she won her very small class every time as of August 3. The judge in the last show was a dairy farmer and made her RESERVE GRAND CHAMPION over JWALA!

DS: CAPRIKORN ECLIPSE HERCULES
Good rump angle, Powerful. VG all around. Very friendly. This is a very well built buck. Scott guessed that he would appraise **92** when he grew up. Then we foundered him.
HERCULES is a proven buck.
When you do the USDA math - as of March 2022
Milk times a factor of .031 plus fat times a factor of .80 plus protein times a factor of 2.0,
He beats BULGING EYE, who is currently rated #1.

D: CAPRIKORN HERC KASHTA 4*M #827
DD: SG CAPRIKORN CZARGATE FROMAGE 3*M #537
American Saanen 97%ile as of June 2017, Yearling LA +VVV 85
01-00 305 2476 83 3.4% 77 3.1% awesome baby lactation
Now this is a half sister of CUMIN, who out-milked the entire herd three straight years.
And EXTRACT #490, who was KILLING them as a yearling, and beat 4,000 as a 2 y.o.
FROMAGE was looking good, now chronically lopsided due to severe mastitis Maybe FROMAGE will mother the buck we are looking for.

As of March 2022, KASHTA's PTAM is 600 and something.

The milkiest active buck in USDA's computer bank is 300 and something. Only a couple of those. If a dairy getting \$50 per hundredweight could increase their production by 300 pounds per doe that equals \$150 dollars per doe each and every year.

So milking 100 you pick up \$15,000 a year. Milking 1,000: \$150, 000.

We will breed him to a lot of does and he will radically raise our milk production.
Also his sons should sell for more than our usual buck kids. Also we'll hope for maybe 400 straws of semen selling at 30 per straw.

What we need is an export semen deal with a large commercial dairy.

THIS IS A GOOD LOOKING 99th %ile DOE!

She was a late kid. Quite unusual for a doe who kids in April to make over 5,000 lb. But that is exactly what her dam, MARJORAM did, in only 278 days. Even though she is younger than the other two year olds, she exceeds them in BODY, the number one predictor of MILK PRODUCTION.

The rump is fairly wide and flat. The udder is fairly high and wide.

PARSLEY got a very bad break on her DHI tests, and, therefore, PTAM and Percentile rating. Scott noticed her lactation was tailing off badly. He figured it was because of her last show- improper milking procedures lead to mastitis. On December 24, Alice was moving goats around and discovered that 8116, a show doe, had been wearing PARSLEY's tag 2157. It's clear as day on the DHI sheets that that happened before the October 10 test. Her previous, September, test was 14.7. And on the October 10 test, she dropped 7.9. And then a 9.3 and then a 7.0 in December. In time, as the records from her daughters come in, and the computer already knows the fabulous milk records of her dam, she may regain her 99th %ile status.

The 2024 ADGA Total Performer

DDS: CAPRIKORN ZEPPO CZARGATE: on the Elite Buck List June 2017

DD: CAPRIKORN CZARGATE FROMAGE #537 98th percentile

#1 doe in the 98thile on the USDA-DHIA genetic evaluation as of March 2021.

DDD: SGCH CAPRIKORN WEALTH **XTORT** 2*M #756

03-09 339 **4985** 165 3.3% 134 2.7% She averaged 16.5 lb a day for the 1st 7 months!

Lifetime 2,828 days 32,444 lb, milk 1,069 lb fat, 873 lb protein.

Probably the highest of any living Saanen at the time of her death.

On August 3, 2023 Scott said "the mammary is perfect viewed from the side - 1/3 1/3 1/3. Viewed from the back, the teats are a little too far out for Scott's vision of what we want to give our *Dairymen*. However, they are not too far out for the average ADGA judge. The top of the rear could be wider. Of course, if you fixed both of those things, you'd have a stone killer show doe and the price would be too high for our dairy farmer customers."

Fabulous from the side; hips too high due to rear leg pastiness. Steep rump; Need RA.

Update - One ADGA judge praised the teat Placement. And, in one ring of the big MDGA Summer Doe Show a judge (whose doe won the National Championship) made PROVOLONE Best of Breed over two permanent champions from the fabulous McKeever show herd.

PROVOLONE is valuable as a Brood Doe since her mother broke 5,000 lbs in 305 days and possesses the best appraisal score -91- of any of our 5,000 lbs does.

PROVOLONE IS A 98TH %ILE DOE. She would be 99 if the USDA formula had been updated for the rise of protein.

2024 UPDATE: Traded wins with PATCHOULI #274 at MDGA Spring Show and Summer Doe Show. Picked up one Best of Breed at the MDGA Summer Show vs. 14 milkers and two Challengers.

PROVOLONE was 14th place out of 36 Saanen milking 2-year-olds at the 2024 National Show in Louisville. Primarily, she was there to be part of the Dam and Daughter with CAPRIKORN JE FROMAGE **TOP TEN** (#751, a 5,000 lb in 305 day milker) being shown in an aged doe class.

We are not a show herd, but the ADGA scorecard is designed to measure *longevity*.

Buyer's tip-

It costs money when we use our milk to raise a replacement milker, instead of selling that milk.

Or it costs money when we buy replacer to raise a replacement milker.

Or it costs money if we BUY a new milker.

OR - if we have a great milker, don't we all want her to live longer (*longevity*) and give us more kids because in turn they will have more milk than the rest of our herd

NAUGHTY is actually better than her USDA rating. She wears 1127. STARY wears 1123.

NAUGHTY was cruising at 16, 17, 18, 19. STARY was doing 12. The tester got them switched.

NAUGHTY's first 3 tests in 2024 were 22.0, 26.1, 28.8, 25.5, 26.1, and 21.9 when she was bought. She is running way ahead of her 1yr and 0 month lactation, which was last year.

28.8 is the most milk anyone has ever made at CAPRIKORN in 40-some years of continuous DHI.

When her buyer moved her out of the Caprikorn Farms trailer and into their trailer, Scott and Danny, the buyer's assistant, watched as she drank 3 ½ gallons of water in her new trailer. Scott said he has never seen anything like that. 3 ½ gallons of water weighs 28 pounds; that seems completely impossible, but you can ask Danny!

Her August 2024 PTAM was 769, way higher than any Saanen ever.

On her last DHI sheet before she was bought the DHI computer thought she would end at 6680 pounds of milk and 276 pounds of fat at the 305day mark. Both of these would exceed the All Time Saanen Records!

Is there a milkier pedigree of any doeling in the United States?

On May 21, 2024, Scott said, "Only weighs 49 pounds. So how can she show us a big lactation?"

366 only weighs about 62 lbs in September of 2024. So it is hard to see how she could have a lactation big enough for the USDA formula to rank her as one of the 99thile does but it did.

Does this mean that she will turn in a huge lactation when she finally grows up?

We will price her babies really high.

They will stay here because 9 out of 10 dairy farmers don't understand percentiles. 9 out of 10 dairy farmers are looking for a 4,000, 4,500, or 5,000 lb lactation which is completely impossible when you weigh only 65 lbs. In using this method our production will increase one generation at a time because the dairy farmers that do not choose to educate themselves about PTAM's and percentiles will buy the wrong Saanens from us.

Is there a milkier pedigree of any doeling in the United States?

On May 21, 2024, Scott said, "Only weighs 49 pounds. So how can she show us a big lactation?"

366 only weighs about 62 lbs in September of 2024. So it is hard to see how she could have a lactation big enough for the USDA formula to rank her as one of the 99thile does but it did.

Does this mean that she will turn in a huge lactation when she finally grows up?

We will price her babies really high.

They will stay here because 9 out of 10 dairy farmers don't understand percentiles. 9 out of 10 dairy farmers are looking for a 4,000, 4,500, or 5,000 lb lactation which is completely impossible when you weigh only 65 lbs. In using this method our production will increase one generation at a time because the dairy farmers that do not choose to educate themselves about PTAM's and percentiles will buy the wrong Saanens from us.
