S: SG TERRA RUBRA C DECLARTION AS0782086

SD: KID CITY XUBERANCE

SDD: COMPANEROS GLACIER WHIMSEY

DS: COMPANEROS JESTER CHALLENGER AS0717983

D: GCH T/C FARMS NELLIE GE0255100 305 3450

NELLIE was our favorite when we spotted her from out of the blue at the MDGA Doe Show around 1991. Then the next year we watched her two dau's INDY and JUSTICE switch places at the top of their classes.

JUSTICE'S full-sister-same-get INDEPENDENCE appraised 92 and milked 02-00 300 3650 102 2.8 101 2.8, and finished FIRST AT THE '97 NATIONALS. NELLIE was Maryland's dominant show doe.

Thanks again to Susie Knapp (and Ma Brown and Kathy Iager and Brad & Terri Wigle)we are able to continue our program of linebreeding on NELLIE with the addition of JUSTICE. CHALLENGER was a Sire Summary buck.

JUSTICE was never shown as a milker because she only had 1/2 of an udder. JUSTICE had markings similar to a HOLSTEIN. She had a fabulous looking mammary, at least the remaining half, and an excellent rear end assembly, big arc and short thick straight rear pasterns. Usually those strong bones mean less milk but not this time.

JUSTICE'S dau FREEDOM was #1 on 2003 Top Five for Alpine Grades, with 305 4440.

EVERY Justice dau turned out good!

SUSIE LET Scott hold "INDY" briefly in the ring at Nationals and he will tell you she was WAY BETTER BUILT than anything in that class.

Due to an udder injury, JUSTICE herself was hardly ever milked.

BUYERS TIP: Early January babies have an advantage over the other kids. And they **still** have an advantage when they are yearlings and even two YEAR OLDS!

You can take advantage of this fact when shopping for Saanens. The normal goatkeeper compares all their "milking yearlings" regardless of birth date. Their late birthed ones will be under appreciated and underpriced.

Buyer's tip: same as to the buyer's tip on the preceding page that you can get a good deal on late kids. The Appraisers and Judges are just thinking "Milking Yearling." They don't move the late kids up. In fact, a January baby being shown the following May should be *a full one-third bigger* than a May baby.

May baby being shown as a yearling the following May is 12 months old.

January baby being shown as a yearling the following May is 16 months old.

Four months older divided by 12 months (the age of the May baby) equals 1.3333.. **These are often the yearlings that the owner has ranked low on his or her "Keeper List."** Meaning the seller is more willing to let them go. Wants to keep the better looking and bigger ones, not realizing that the bigger ones are only bigger because they were born much earlier.

Judge placing yearlings will usually do with the older kid.

BAR EXAM VERY FRIENDLY. Big Strong Doe. "If she were mine, I'd send her down the road."
Linear Appraiser. That was before she freshened.
In 2013 the Appraiser gave the mammary an E. In 2015 she only got a V. . BAR's profile is very simple. She has a beautiful mammary and body. She has big milk/fat/protein genes ALSO. So WHY IS SHE AND HER KIDS A GREAT DEAL FOR DAIRY FARMERS? Pure and simple - the topline has a dip. We have shown her. Maybe she could have one if she were not up against BOLIVIA from our herd and the C- Creek 3 y.o., one of the best looking 3 y.o.'s in the U.S. Her son EXAM, #461, beat the other two yearling bucks in all four rings, June 13, 2015. And in one ring the judge made him **Reserve Grand Champion** versus eleven Saanen bucks. At 5 her pasterns are starting to weaken. Urrgh, But we have so many 90's that can also do 4,000 that we will sell her sons cheap.

We used her son HIGH BAIL until he was bought.
Video: <https://www.youtube.com/watch?v=6dGV2eNt-xw>
Video: http://youtube/sLrqgWRhi_M
Started her 4 y o lactation with 18.5 lb.
Smh code 88 WS & later KS, Smh WRESTI 90 code EH

DDDD: JUSTICE!

ZUNI BEAT EVERY DOE IN BOTH HERDS ON THE MARCH AND APRIL 2014 TESTS

A friendly, matter of fact doe. (Named ZUNI because she comes from KAMIKAZE and PILOT and Alice's dad worked on developing the ZUNI rocket for the U.S. Navy). Ugly so far. ZUNI's son gets leased by more dairy farmers than any other. Proving Dairy Farmers don't care about the ADGA show system. Also, if the ADGA emphasis on perfect udders is correct, how come ZUNI's lactations keep getting bigger with age?

Smhcodes: + V SMH CODES; 84JW 77SW 81unk

Two ways to buy-

Most people like to SEE what they are buying. Very important when the seller does not accurately describe the goat for sale. So these folks buy Saanens that are "Existing Stock".

Other people, who want to have a chance of getting a really beautiful kid, are happier shopping the Future Kids price list. They may hit it really big.

At CAPRIKORN, we usually buy by pre-ordering unborn kids. Gives us a "live lottery ticket."

ONCE YOU SEND IN YOUR UNBORN KID ORDER FORM, YOUR PRICE DOESN'T CHANGE. AND YOU CAN CHANGE YOUR MIND ANYTIME.

Our DHI number is 51-17-5343, you can go to cdcb.us or adgagenetics.org and get the up to date real DHI records anytime,

Our cow testers name is Terry Martin and his number is (717)-725-2500. You can call him and verify that our records are real. We have always been on Standard officials Test, not any of the flaky cheap plans where you can record your own number. Owner Sampler- what a joke!

*It is weird enough to be a **goat** Dairy Farmer. To then go and allow a weird testing plan.....*

That is one of the worst decisions the leaders of the American Dairy Goat Assn ever made.

One of the functions of a registry association is to VOUCH for data.

ADGA VOUCHES that the kid is who his papers say he is. As a buyer you need to know you are actually getting what you are paying for.

We, ADGA, will and have KICKED OUT people who cheat on test. Barred for life.

2-02 266 3030 89 2.9% NSBA SILVER SEAL LA-90 VEEV

1-01 245 1760 46 2.6%

RESTITUTION's 1st Show, 4th of approx 15 Milking Yrlgs at '03 Nationals!!

RESTI's 3rd show, 9th of 19 at '04 Nationals.

Her sister REVOLUTION:

REVOLUTION's 1st show, 2nd of 8 to her sister.

REVO's 4th show, 10th of 19 at '04 Nationals.

RESTI ended her lactation with two straight 12.0 lb. tests!

12 pounds x 300 days equals 3600. So, if we had dealt with her milk fever in the beginning of her lactation, when the production is way higher than the 12 pounds, what a monster lactation she would have turned in. She got milk fever, and it killed her. Alice was in the hospital having an operation of her own and we failed to treat RESTITUTION properly. It also killed her two year old lactation.

DD: JUSTICE!

Dairymen bought her buck kids even though they were unregistered.

SINCERITY was a doe you could depend on to deliver excellent milk and babies.

Her first doe lives in Missouri and her second doe lives in Texas. One buck is a herd sire in NC (dairy). Began 3 y.o. lactation with a 22 pound test! Last time, she peaked at 18.0 lbs. Her dam had level lactations,

But SINCERITY couldn't milk through the winter. Her first doe kid "WILLING" was 15th place Milking Yrlg At Nationals for someone else. SINCERITY was defeated four times by SINGAPORE, page 28.

Personality: unflappable. This is THE doe for topline freaks! Showing rear pastern weakness as a four year old. Mammary sagging & uneven at 8 yrs. old. She loved to eat and used to carry a little body fat even while milking BIG! The vet said she had cancer. Ended with 20,810 lb lifetime, according to USDA website. Best in the herd back then.

Smh codes: LA-87 EH LA-90 JW

CAPRIKORN COBALT LACOBRA #9103 AS2002717 Born February 27, 2019
American Saanen Never Appraised

77%ile. More milk fat protein first than 3 out of 4 Saanens.
Hoping for a show doe. DAIRY FARMER AVOID. Her first test was 2nd highest of the yearlings.

S: SGCH CAPRIKORN ZURICH COBALT+*B LA-91

COBALT has had many milking dau's at CAPRIKORN. He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to keep a ROCKET son for a change. The other three were bought. This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck lists.

SD: ROCKET! Foundation doe of the ROCKET family

DS: SG SARTYR ECLIPSE TIBERIUS *B bought as a show buck - only 75th%ile.

DSD: TIBERIUS's dam was National Champion.

D: CAPRIKORN TIBERIUS JAIRACOBRA

JAIRACOBRA was very showy, defeating all our yearlings in one ring. We had too many showy 2yo.'s JWALA, JUNIPER, JILL PEPPER all had big milk unlike JAIRACOBRA.

DDS: SG ZEPPPO +*B

#3 All-time on the USDA Top Buck List LA-90 #11 on Dec 2018 ELITE BUCK LIST
ZEPPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.ZEPPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPPO dau's. Also the 2017 305 Milk & Fat Awards, and the 2017 Lifetime Awards.-90

DD: SG CAPRIKORN ZEPPPO AIRACOBRA 1*M – Show List LA-92 – 9th 3 y.o. at Nationals
Died 2018 6TH 7 y o at 2017 Nat'ls

Defeated CHEYENNE, Katmandu Family, and EXTRA ALOHA, each of which had two legs, at Frederick September 2016 under Judge Biddle. Video of this placing is on the website.

Defeated AMAZING, LA-90, and ALEX, LA-92 at Nat'ls.

Lifetime 1710 days 13521 Pounds, 427 fat (3.1%) 395 Protein (2.9%)

Not our idea of a great milker - kept for the Show String

Three of her daus appraised 90 - GCH DESNA, FIREBOLT, and FIREBEE.

DESNA's 3 y o was 305 3394 130 3.8% 105 3.1%

Of these three the best looking was FIREBOLT.

But we kept the heaviest milker - FIREBEE

DDD: SG CAPRIKORN SNOW'S YAMASAKI

LACOBRA finished 4th out of the 10 remaining does born in 2019 that were in milk on Feb 27, 2021.

SDSS: SG ECLIPSE ++*B AS1501878 LA-89; Died Feb. 2016

He was number one on the Elite Buck list when we bought him for \$3,500.

SDS: CAPRIKORN ECLIPSE HIGH BAIL *B

#2 ALLTIME ELITE BUCK AS OF FEB 2019

Tad bit narrow from the back, little topline, dip, sharp withers, deep rump, very good in the front. Almost tight toes. Very good shoulders.

SDSD: SG CAPRIKORN ZECRET BAR EXAM 1*M 97%ile

3rd at Nationals

04-08 305 4221 128 3.0% 108 2.6%

04-08 324 4336 133 3.0% 112 2.6%

WIDEST udder in the herd. VERY IMPORTANT. You can't make them too low. You can't make them stick out in the back. So make them wide!

SD: CAPRIKORN BAIL JUNIPER 3*M #787 out milked all 35 yearlings 2018. Also best looking. She got mastitis and was uneven and lost at the Nationals in June. But in August 2018, she was back on top. ONE OF THE TEN HIGHEST RATED DOES IN THE US FOR PTI 2:1.

SDD: SGCH CAPRIKORN WEALTH XTORT 2*—LA-90

32,444 lb lifetime. Tops in U.S. for Saanens at the time of her death.

DS: SGCH CAPRIKORN ZURICH COBALT+*B LA-91

COBALT has had many milking dau's at CAPRIKORN. He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to keep a ROCKET son. The other three were bought. This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck lists.

D: CAPRIKORN COBALT LACOBRA

DDS: SG SARTYR ECLIPSE TIBERIUS *B bought as show buck; 75th%ile.

DD: CAPRIKORN TIBERIUS JAIRACOBRA

JAIRACOBRA was very showy, defeating all our yearlings in one ring. We had too many showy 2yo.'s JWALA, JUNIPER, JILL PEPPER all had big milk unlike JAIRACOBRA.

DDDS: SG ZEPP0 +*B

SSS: ECLIPSE: #3 on August 2020 Elite Buck List

SS: SG CAPRIKORN ECLIPSE HERACLES

SSD: WIARA

WIARA accomplished two AMAZING feats. First, she started a lactation by kidding at only 8 or 9 months of age and exceeded 3,000 pounds!! Second, she was still milking when Scott put her down at the age of 12. (Although, Alice took her out of the milking strings because towards the end, she was not producing as much as the younger does and we didn't need the milk.)
