SEMEN SALES RECENT BUCKS

ALL OUR BUCKS TEST CAE NEGATIVE

The Percentiles (also called Rank) is a very complex USDA computer program that gives every animal a "percentile." Also called "Rank," "Percentiles" take into account fat and protein, as well as milk. And, even more exciting, the lactations of every relative. All the Saanens in the country that have EVER been on test are hooked up by the USDA computer. Every relative—no matter how distant! WOW!

They are right there on adgagenetics for everyone to see.

"NO RETURN" policy on semen sales.

(How can we assure the next buyer that you kept it frozen?)

PRICES

All the semen attached is \$20 per straw, except:

WIN	\$55 (highest percentile [milk/fat/protein] in USA as of September 2024)
BULGING EYE	Sold Out.
SNOW	\$15 (We have a LOT)
ZEPP0	\$50 (running out)

Where we have 10 or less, it is NOT FOR SALE.

We sell in units of 10 straws.

Shipper rental and pull charge is \$49.

For domestic shipments, we charge you \$39 each way, no matter what UPS charges us. That way you know what you are paying. You don't pay UPS. You pay CAPRIKORN FARMS \$127, plus the semen and we pay for the shipper and the pull charge and UPS.

California is extra because North American Breeders makes us use 3-day UPS instead of "Ground."

Of course you can pick up from Berryville, VA, North American Breeders and just pay the pull charge. Dial (540) 955-3647. Ask for Patty.

\$49+\$39 (ship out) +\$39 (ship back)=\$127

you don't, then definitely JARLSBURG.**

**Who does Scott recommend for show folks? NO ONE-WE ARE NOT A SHOW HERD.
However, TIBERIUS's dam was National Champion.**

**The AI guy was here on October 26 and we now have semen for sale from: th
RAISSIN #310 - his dam NAUGHTY #1127 probably the heaviest milking Saanen that
ever
lived.**

**AND she has an LA-90. NAUGHTY far exceeds any other Saanen on the
adgagenetics lists
Her PTAM is plus 600.

TOFU - #555 his dam PROVOLONE #2119 for the people who "breed for milk AND show"

She is a perm who also is in the 97th Percentile -

that means more milk/fat/protein than 32 out of 33 TESTED Saanens.

She used to be 99th. (The highest.)

Maybe she will be 99 again now that she doesn't have to be bagged up for show.
