0-11	305	1810	55	54					

STARGATE had a PTAM of 386. At that time the highest Elite Buck was 385.

MANDELLA purchased by CAPRIKORN at the '99 Spotlight Sale for \$1,300.

CONSTANTINE, like you, has two grandmothers. One was the Reserve National Champion and the other was THE National Champion. We are lucky he has a positive PTAM. Most show goats DON'T!

The 92 is tied for the highest Saanen buck score ever.

MANDELLA freshened with an udder hard as a bowling ball. Even the teats were like stone. Scott would have given her a "93" no problem. Alice says "No."

Laid back, unassuming, matter of fact, and just kept eating. Eating at 2 a.m. when the others were lying around.

ONE OF 13 SAANENS ALL TIME WITH OVER 5,000 POUNDS IN 305 DAYS

And a smashing first lactation from a doe that kidded at 1yr 8 months of age! Shown once, 3rd of 5. Shown 2nd time, RGCH to ROMANCE p.30. Shown 9/17/05, 3rd of 4. 4th time out GCH vs 14 over Diana Patton's entries and also DREAMCATCHER, the 2nd place National Show doe, on 5/27/06. 5th show 3rd of 7 same day. 6th show 2nd over Nelson Broadus. Full sister to ROAD SHOW, p.19, who is also a 90!

We didn't believe the Official Testers 21.0 so we weighed her exactly 6 hours after milking and got 5 lbs 7.5 oz.

STARGATE BEST UDDER at 2006 District III Saanen Specialty over 24 Milking Does!

In 1982 and '83, GCH HARTSELL'S HERD BB'S DOUG FRAN turned in lactations of 5110 and 5930,

respectively. No other Saanen dairy goat had two 5,000 lb. 305's in the United States until STARGATE came along.

 S: SGCH RENOVATOR AI ++*B **LA-92** formerly #1 on Sire Summary! Now "inactive".

D: SG STARGATE 1*M! – previous page - our best doe ever. The pride of the herd.

ZTARGATE, 97%ile, HAS THE LONGER TEATS FOR OUR HANDMILKING HERDS. And is more powerful, smarter, and extremely friendly. But ZTARTREK excels her in style and sharpness and vigor. ZTARTREK'S mammary is close to perfect with the exception that the teats point a little forward. Also as she ages it is getting uneven.

A fair question, if you are a potential buyer is: "When I see the difference between these sisters lactations, how can ZTARGATE be a 97? ZTARTREK is far above her and is only two points higher." The answer is that the computer is using ALL of the lactations of ALL the relatives. So the computer is saying it is possible that next lactation ZTARGATE may outmilk ZTARTREK. And that many times a ZTARGATE descendant will outmilk a ZTARTREK descendant. ZTARGATE's dau CZARGATE is milking awesome - 99th percentile.

BUYERS TIP: Next time you have your pick between litter sisters- if you are breeding for milk- take the one that runs around the most.

ZTARGATE failed to kid in 2011. Bad. Her mammary - not pretty. Teats pointing forward. BUT LA **E**. ZTARGATE – aborted for the fall of 2012. Got very sick in summer of 2015 but came back into milk. ZTARTREK – you have to wonder what ZTARTREK would REALLY have milked if we hadn't hauled her out to Colorado and back for the National Show. Also, a better dry period. Also hauled her to Minnesota and back for another Nat'ls. Her last?

You can also see ZTARTREKS's huge area of attachment on her video: **Video:**

www.caprikornfarms.com/ztartrek.shtml

"ZTARTREK has perhaps the most impressive rear udder arch I have seen on any doe, in any breed. And tight toes."-Ben Rupchis. "And you can quote me." ZTARTREK's 2013 Buck was bought for \$3,400. ZTARTREK'S 2015 buck kid was bought for \$6,995. She didn't kid in 2016. Still not pregnant Feb. 2017. June 14, 2014 - ZTARTREK RES GCH versus 18 Milkers. **Tested pregnant by HERCULES November 2017!** code smh 89 ks - ZTARGATE

D: **SGCH** CAPRIKORN YELSON BARBARELLA 3*M #150 AS 1565004 Born February 25,2011

For top of the line Saanen Breeders. 4 yo VVEE 90 had not kidded when LA happened in 2013. We got shut out by ADGA in 2014. Then got a low appraiser in 2015. Her time for a 91 or 92 will come.

00-11 302 3156 100 3.2% 90 2.9% A FABULOUS BABY LACTATION

03-10 305 4203 121 2.8% 123 2.9% hoping for **Top Ten**.

05-00 482 4910 149 2.9% 133 2.8% **in progress, going to be more**

Her full sister ZILDA **both** outmilked all the other yearlings and outshowered them! Full brother ZILDUN is featured in the Biogenics A/I catalogue, and sitting at number 2 on the Sire Summary as of Feb 2016.

All his records were made in other herds.

An NSBA'ers Dream Doe – Milk & Show

BARBARELLA 10th place kid at 2011 Nationals. Shown 8 rings as a milker.

5/23/15 versus 12 - **RGCH** in Ring One and 2nd of 2 Ring 2.

6/13/15 Versus 10 - **GCH and BDIS** Ring 1, **GCH** Ring 2, 3rd of 3 Ring 3.

6/27/15 -versus 16 Ring One **RGCH**. Ring Two - 2 of 2. Ring 3 **GCH, third leg.**

Her 2013 buck was reserved for \$1,900 in advance. When it turned out he would be a late kid, **we** suggested that we refund the deposit, and the buyer accepted.

BARBARELLA kidded July 1, 2013 - too late for appraisal and too late for the National Show. She is Scott's favorite doe, will call out to him when he comes home. She thinks Scott is her kid because he hand milked her a lot..

Code J - a little low

BARBARELLA kidded with 3 of the 4 kids dead on March 7, 2016. She herself was deathly ill.

Never kidded again..

July 1, 2014 SPACE DOLL only weighed 60 pounds as of this date so how could she show you a great baby lactation?

We said “ Reserving next year’s doe kid should be a bargain” Extraordinarily friendly.

Alice said “SPACE DOLL’s udder is ugly”. Scott said “mammary is beautiful but too big for her body.”

Body was too small for her age. Now BIG.

This is our favorite linebreeding pattern, but sometimes what you get is not good.

Her outcross kids should be great!

Scott said: “Not good looking at all.”

Ben put her 2nd place of 19 2 y.o.’s. This years Appraiser: 86 with a V Mammary.

What is going on? Usually the assessments of Alice Ben Scott and the Appraiser are somewhat similar.

Wildly diferent for this doe.

Code SMH 86 ks

CAPRIKORN HOT STAR KID #8198 AS1961348 Born April 1, 2018
CAPRIKORN HOT STAR KIDD #8199 AS1961349 Never Appraised
American Saanen

SSS: SG ZEPPPO +*B LA-90

#3 All-time on the USDA Top Buck List DEC 2016. We have about 115 buck kids every year and when we picked up ZEPPPO at the airport after flying him from California he was bigger than any of our own kids.

And he is still the biggest today, March 2018.

SS: CAPRIKORN ZEPPPO CZARGATE

Best Udder in Show versus 24 Milkers!!

S: CAPRIKORN CZARGATE HOT ROCKS #669

HOT ROCKS is if you need **UDDERS**.

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. **8th**.

He needs quite a few tested daughters before he will be proven one way or the other.

Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built."

But when FLASH's baby DHI test came we decided he did have big milk.

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings In Scott's opinion.

#3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having a **very** good baby lactation!

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis !

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that could happen with linebreeding, and we believed her out cross offspring would be super.

Mainly expecting the flat rump angle. ROCKET'S FINAL STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott. Only "Good Plus shoulders" per LA person. As of March 2016 we had seen two dau's and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

Best Udder in Show vs 24 milkers!

D: SG CAPRIKORN STARBY SPACE DOLL 4*M
July 1, 2014 only weighed 60 pounds as of this date so how could she show you a great baby lactation?
We said "Reserving next year's doe kid should be a bargain" Extraordinarily friendly.
Alice said "SPACE DOLL's udder is ugly". Scott said "mammary is beautiful but too big for her body."
Body was too small for her age. When she left she was **BIG**. More info farther down.

DD SGCH BARBARELLA 3*M Best In Show - back two pages

They are small because they were not born until April 23. But they won't be small when they become Two Year Olds.

JISA has caught Scott's eye with her build. 2nd best looking yearling milker. And none of these three babies are milking decent numbers. That can happen when you freshen at 10 months old and you are therefore small. AND THEIR DAM ALSO STARTED OUT SMALL..

As of April 9 2018 JIRA the third sister walks very stiffly. We sent her to the Sale Barn.

CAPRIKORN BE SPACE KID #891 AS1917351 Born February 08, 2018
American Saanen Never Appraised

But no big milk numbers yet because this line stays small as yearlings - BIG later.

CAPRIKORN BE SPACE KIDDO #8100 AS1917510 Born February 09, 2018
American Saanen Never Appraised

SS: SG YELSON ++8B
YELSON has two full brothers who have been rated. One had 397 and the other plus 457 PTAM.
457 is better than any buck on the Elite buck list. YELSON has 36 registered dau's as of October
2013. The Appraisers waved YELSON off. They have to do ALL the does but they try to save us
the embarrassment of a low score on bucks. So they say "You don't want to do him" when he
starts coming out of the pen.

But we love his Rear End Assembly. The Big Arc.

S: SGCH CAPRIKORN YELSON BULGING EYE +*B
PLUS 306 PTAM November 2017 LA-90

Coming into the Fall 2016 breeding season, Scott had a lot of bucks to choose from. If you averaged his
sire and dam's and two rated dau's percentiles and PTAM's - BULGING EYE was the highest rated buck
here. So we went with him. Our judgment was vindicated when the December 2016 ratings came out. He
got a plus 302 in milk, higher than any buck on the Elite Buck List. But he does not appear on the list.

ATLANTIS – was 95%ile rank. Got very sick for a long time. Rating dropped. Now **95th percentile again.**

ATLANTIS friendly. In milk. Probably a “V” mammary. Definitely not an E in March of 2012. Really big, occasionally winging out, otherwise fabulous. After kidding in 2014 ATLANTIS was close to dying for weeks on end. We milked her lying down for weeks.

Video ATLANTIS: <http://www.youtube.com/watch?v=70YYn3JbhDc>

March 29, 2015 she’s BAAAACK! Atlantis drops 16.0 pounds at 35 days fresh. Aug. 1st 2015 USDA moves her up to **96%** ile.

Awesome mammary. Except not the smoothly blended fore show people want. Why do we say “wise shopper?” Because all the normal dairy farmer asks is “How much did the dam milk?”

“How much did the dam milk?” is **80% Management.** But your herd doesn’t have *someone else’s management.* What you need is **genes.**

The USDA computer program knows the genes because it knows what all the ancestors on test milked **compared to their herdmates.** AND it knows what all the descendents of all the ancestors milked compared to THEIR herdmates. Thousands of official tests compared to the 20 tests that went into a 4,000 lb once in a lifetime record for some other doe. And ATLANTIS’S genes are better than 19 out of 20 Saanens. That IS what 95 percentile means.

97%ile! Bought by someone, unfortunately.

This does is a wonderful value for a dairy. The two items that make her price lower are: 1: her nose is not a Saanen nose. 2: her rear udder does not go high enough into her vulva.

But these are things that have nothing to do with your milk check.

Her good qualities are: she is a good-hearted doe. She has plenty of fore udder. She has great feet and legs. Her teats are long for hand-milkers. The rump is steep, but that will improve with age. Her teats are pointing forward and out, but only a little.

FLYER’S October 2017 PTAM Plus 368!!

FLYER Previously Not for Sale - Grading Up. But now we have American (that is 7/8) does so we don’t need her anymore. Winging out. A very handsome doe from a dairy farmer’s perspective.. Tall and elegant, with a big well attached mammary and strong back pasterns. The udder is connected up there in a wide escutcheon she gets from her sire. Look at the picture of ZTARTREK on the website. From a show person’s point of view, here are the negatives. First, she is something called a Registered Experimental. She is slightly taller in the hips than at the withers, and this is caused in part by the rear legs being too posty. There is a little winging out, and the rump angle is not ideal. The fore has some extension, but the mammary still measures farther from top to bottom than it does from front to back (This is true of every 5,000 lb milker). However on her behalf, we have to say that as a doe ages the winging out AND rump angle both radically improve.

FLYER is a 98TH PERCENTILE DOE SO THIS SEEMS LIKE A FABULOUS CHOICE FOR A DAIRY FARMER. Bred to the right buck she could give us a buck kid that WOULD be a herdsire at CAPRIKORN, but **CANNOT BE** because FLYER is not an “American Saanen.”

UPDATE - NOT PREG-O AS OF Dec 2016. Scott was voting for sale barn.

UPDATE#2 FLYER has a wide rump with a wide rear udder arch. The 86 for a yearling means she is good looking. Her dau, HARRIET QUINBY #689, will likely be the dam of our next herd sire. Update #3 - Finally in milk starting June 2017. Forget the sale barn.

October 2017 - FLYER IS BIG (like her sire) FOR A TWO YEAR OLD. Friendly.

**#1 ON TOP TEN TWO DIFFERENT YEARS and tops over ALL BREEDS
TWO 5,000 LB LACTATIONS!**

Look at the butterfat Change! What's up with the lab? 10 tests every lactation. It can't be luck.
Radically out milked the other yearlings. Also the third showiest.
When you see her mammary from the rear, it really grabs you if you are a Dairy Farmer. An awesome baby lactation. Where is the 4.0 fat coming from?? TIP–In buying stock, you can depend on MILK breeding truer than FAT. But %iles (RANK) trumps everything.
For a dairy farmer that gets paid by components, and cares a little about build, but not too much,,
CZTAR IS ABOUT AS GOOD AS IT GETS. THE SAME IS TRUE OF HER DAU EZTAR BELOW.
All does have flaws. For starters, none of them appraise at 100. Not even 96, 97, 98, or 99.
We shipped a son of a doe from the West Coast just because she had 144 in fat.. Now here we have a home brew with 157. And **171**
Regrettably she aborted in January 2017. So that is a \$4,000 monthly feed bill that we will have to pay ourselves without being able to sell her buck kid for it. She is hungry all the time.
Th computer knows that her two dau's - EZTAR AND EZZTAR are milking awesome. Both also 99th%ile. Scott wants to use EZZTAR'S son JezzStar #8103 as soon as he has an opening.
Both of CZTAR's 2018 buck kids started to wing out so we sent them to the sale barn for a loss of \$7,595.

DD: SG CAPRIKORN RENOV'S ZTARGATE 2*M top ten – 98%

Years ago we said

#479- nice topline, lots of dairy character

#480- big escutcheon, big kid especially for age

EZTAR was the Appraiser's #3 doe kid and EZZTAR was his #4. Out of about 60 does..

Years ago we said: "They are certain to have awesome milk, especially COMPONENTS."

EZTAR has a very nice rump **angle** which comes from her granddam SGCH CAPRIKORN RAMESES VVS1, LA -91 2x and 6 3,000+ lactations.

We actually showed her in three rings and she was last in two of them but the competition was two great show herds- Scotty Broaddus and Janice Kessler - C CREEK SAANENS.

EZZTAR - On 12/26/14, full udder, teats a little out to side, fore may be okay.

Freshened Jan. 8, 2015 1 buck, 1 doe, FARSTAR #5117 (next page). Mammary not cute.

Not a classic Saanen nose, If you care deeply about "true Saanen type", you are shopping the wrong herd.

#479 TEATS TOO SMALL FOR OUR HAND MILKERS.

#480 beat all the two year olds for that lactation.

EZTAR has ridges on rump.

November 2016 - EZTAR is a 99th percentile doe, but so are 16 other Saanens in the U. S. But look at her components! They are positive, whereas most of the 99th percentile does are negative. OUR DAIRY FARMERS GET PAID BY FAT AND PROTEIN. At least, almost all of them.

On adgagenetics the computer prints A 2:1 RATIO. EZTAR #479 has the highest one in the country as of January 2 2018 at 243. She and her doe kids will always stay at CAPRIKORN unless someone pays a huge price.

Why does Scott recommend the kids of EZZTAR #480? First because she actually slightly outmilks her sister, even though the computer puts them equal at 99. Second, because the sister gets the highest 2:1 due to her showy rump angle. But rump angles have nothing to do with your milk check! Third, because Scott really wants to use her son himself in the CAPRIKORN herd. Ben Rupchis, perhaps the most astute Saanen breeder, reserved EZZTAR's son in Fall of 2017.

Code smh 89 & 84 ks higher #'s BB

Part of a grading up program. U.S. Saanens are too inbred, as only about 122 were brought into our fabulous country.

Previously not for sale due to grading up. Now, we have American (7/8) does so she can leave.

As a first freshening yearling, FARSTAR is NOT good looking. But milk and components. Only Scott thinks her kids are not as milky. FARSTAR is a great milker, she has had two dau’s that are AMERICAN Saanens so she can be sold for a goodly price. Because we are SAANEN breeders and SHE is a GRADE. FARSTAR beating almost all the yearlings on test as of June 2017.

She is also really good looking when she is bagged up. The one flaw is the teats pointing out somewhat, but some of the judges don’t seem to care.

Both of her two dau’s aborted and didn’t milk well and were sent to the sale barn.

This was Mr Conlan’s 2nd place 3 y o when he judged the herd in June of 2018, beating FLAIR, 5122, a killer show doe.

CAPRIKORN BOSS KIND STAR
American Saanen

#875 AS1915618

Born February 06, 2018
Never Appraised

SS: SG YELSON ++*B

YELSON had two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. YELSON has 36 registered dau's as of October 2013.

probably our milkiest buck before his son STARBY came along.

S: SG CAPRIKORN YELSON MEADOW BOSS +*B

is number 7 on the Elite Buck List as of February 2018. That one statement takes in all the thousands of official tests of all his ancestors, all his desendants, all his ancestors' desendents, and all his offspring's offspring. He is longer and taller than other Saanen bucks with very sharp withers. He looks awesome from the side and he is too narrow viewed from the rear. In 2012 Ben Rupchis placed him first over the other "B" bucks -

BULGING EYE, BIZNES, STARBY, BLUE STAR in spite of the narrow rear end.

He is neutral for type as of February 2018 with a PTAFS of 0.0.

SD: SGCH CAPRIKORN RENOV MEADOW VIOLET 10 *M

PTAFS + 0.3 REL55

MEADOW VIOLET has a slightly roman nose and also hair which is not pure bright white, so she flunks the Saanen Breed character test. She can outmilk almost every Saanen show goat though.

SD: SG SILLY SARAH 5*M 99Rank, LA-91

DS: SGCH RENOVATOR ++*B Elite Buck

D: SG ZTARTREK 2*M 99%ile – p.60

DD: SG STARGATE 1*M - our best doe ever

She is one of our friendliest goats. She is a giant. CASSIOPEIA #292 was our showiest yearling milker. If five judges placed the herd in May 2016, at least 4 would agree that CASSIE IS OUR SHOWIEST doe. One buyer signed up to pay \$8,495 for her. But her kid was reserved to a different buyer.

TIP:

***Basic Bob says “OK, your catalogue keeps saying “percentile.” Just what does 96 percentile mean?” It means that if every Saanen on DHI test equaled 100 does milking, the 96thile doe has the GENES to bring in a bigger milk check than 96 of them. The remaining three of them bring in a bigger milk check than the 96th doe brings.

Lindsay Gay offered to buy CASSIE for \$13,000. But two other people had reserved her next doe and buck, so we couldn't sell. In 2016 there were 1600 Saanens that have ratings from official test, If a doe is 90%ile, she beats 90 out of 100, or 1440 out of the 1600, GENETICALLY.

“Why not just use 305's?” Because COMPARING her 305 ME's to her herdmates is way more important. Because 305 2600 in Mississippi is WAY better than 305 3000 in Minnesota, for one thing. Because the 's 305 does not have all her ancestors' and descendants' and ancestors' descendants' lactations built in.**** Main cut is rear leg angulation. Main asset is rump angle.

Video: www.caprikornfarms.com/cassiopeia.shtml

After almost 40 years of breeding, her dam is probably our best doe. So, when ZTARTREK dies, CASSIE will probably inherit that spot. Back feet were red and irritated. She stared 2016 by having a huge dead kid pulled out of her. And as of April it looks like that trauma has ruined her lactation.

Went into heat again February 13, 2017.

STILL NOT PREGNANT AS OF January 1 2018.

PREGNANT October 2018

SD: SGCH CAPRIKORN RENOV MEADOW VIOLET 10*M – 93rd %ile **LA-92**

D: SGCH CAPRIKORN ZEPPA CASSIOPEIA #292 – previous page Top Ten

"ERIDANA really nice topline. Big, growthy kid. Shoulders on the loose side." Judge Wolf.

She put ERIDANA second to #486 on page p. 68a. The Appraiser put ERIDANA second to #443, ELBA, on page 14. We chose ERIDANA to be our entry in the Senior Kid Class at the 2014 Nationals. Her dam, CASSIE WAS OUR ENTRY IN THE MILKING 2 Y. O'S. Just when we thought we had an incredible Milk & Show double threat, the Nat'l show judge put her 18th out of 26. YECCHH! The big knock is loose shoulders.

She was BY FAR the biggest kid in the class.

When we picked her as our kid to represent us at the Nationals. 486 EXTORIA was cuter but half as big. Bad decision. Judge Flickinger didn't care about size and flunked her for loose shoulders.

TIP: There is a reason the milk in stores comes from cows. The expense of Milking Labor is the same for a BIG animal as for a small animal.

Aborted December 2014.

After Nationals, she beat everyone including the Cherry Glen Nat'l Show doe at Frederick in September 2014. Wayne Cullen said the word: "Rump."

Freshened in very late in 2015, June 28, with radically uneven halves. Alice says that was caused by pre-freshening mastitis. As of September 1, they are starting to be much more even., but still unshowable. Freshened in 2016. Still uneven. This doe was a mystery. Needed more tests. April 2016 test right in the middle of the 2 year olds, but bag is not even close to being full.

Friendly.

.She's really big. She's capable of cruising to well over 5,000 in 305 WITHOUT BAGGING.

We'll see. We are using her son, HERCULES.

95th % ile. A completely different measurement. Way more important than her LA-90.

Get her 2017 Buck kid instead of her. She could do 4,000.

And we will always breed her to a megamilk guy.

A 90th percentile doe that does not yet have a big lactation is always a bargain because the average goat dairy farmer just can't grasp the percentiles.

01-00 298 2874 89 3.1% 80 2.8% awesome!

03-00 305 3074 101 3.3% 83 2.7% NOT awesome

04-00 235 3415 108 3.1 89 26 in progress - awesome again

SS+*B - computes around 89th%ile.

DS: CAPRIKORN SNAP E.T.

Was reserved by Bradley of Wisconsin for \$3,400. Changed their mind when Alice: 1. Said she bred ZTARTREK to an Alpine. 2. Later said she bred ZTARTREK to a Saanen. 3. When E.T. was born, said that was from SNAP breeding. Way too confusing. We will DNA. The Extra Terrestrial.

E.T.'s brother, ETERNAL FLAME was bought for \$6,995. However FLAME was an "American Saanen" and E.T. is a "Registered Experimental"

Scott says E.T. has the worst combination of short steep rump he has ever seen. However he has about 6-8 dau's here and none of them have it. And he is a giant.

But that is why we knocked his price down from 5,995 to 2,995.

Also he was part of our grading up process. And now that we have American Saanen does "in the oven" descending from SNAP, we don't need him for anything.

Three of his dau's are on top of the Elite Doe list for Experimentals. You can find this list by going to cdcb.us, clicking on "Genetic Evaluations" and scrolling all the way down to "Top Doe"

D: CAPRIKORN E.T. FAROUT

"A long time ago, in a galaxy far far away...." "E.T. PHONE HOME"

FARFARAWAY was a beautiful doe, but unfortunately someone bought her in milk 2/26/16. The only places Scott could cut her were:

1. A little dip in he top line.

2. A little rump steepness, but in a yearling you assume that gets better

He felt she would go 90 or 91 when she grew up.

DD: CAPRIKORN CZAGATE ELDA

02-02 289 3078 115 3.7% 79 2.6%

Pretty kid, Probably one the top four best looking kids, before she freshened.

As a kid, this was the appraiser's choice for us to take to the Nationals, except that she didn't lead well. As a milker, possibly our worst looking doe.

HYBRID is a first gen American Saanen eligible to be the dam of our 1st Gen AM Saanen buck.

SS: SG ECLIPSE ++*B

AS1501878 LA-89; Died Feb. 2016

He was number one on the Elite Buck list when we bought him for \$3,500. He was old. As of October 2017 he is in the #3 spot.

S: CAPRIKORN ECLIPSE HERCULES *B

Good rump angle, Powerful. VG all around. Very friendly. This is a very well built buck. Scott guesses that he will appraise **92** when he grows up.

SDS: CAPRIKORN MEADOW BOSS

MEADOW BOSS has the numbers to be on the Elite Buck List.

As of March 2017 - Milk Plus 178, Fat plus .06, Protein minus .02

For example ELKO is Milk Plus 100, Fat plus .07, Protein plus .06

And ELKO is 89th. So BOSS is around 93.

But the computer won't list him there until there is a tested dau in a SECOND herd.

We took BOSS to his first show on June 8th of 2014. He was 3rd of 3 in Rings 1 & 2. He was second of three in Rings 3 & 4. In Ring 4, the buck that beat him went on to be the Grand Champion.

He is longer and taller than other Saanen bucks with very sharp withers. He looks awesome from the side and he is too narrow viewed from the rear. In 2012 Ben Rupchis placed him first over the other "B" bucks (BULGING EYE, STARBY, BIZNES) in spite of the narrow rear end.

D: SG CAPRIKORN KRUG'S **STARGATE** - page 59 - #1 in U.S.A TWO DIFFERENT YEARS! (All Breeds)LA-90 & LA-89 & BUIS vs. 24 milkers.

Not only did WIARA start early, 9 months of age, but very few does can do 2,900 ending at 8 1/2 years. .

Her dau ANDROMEDA was 10th? yrlnng milker at National Show

WIARA was 97 Percentile rank. Her doe Ylara owned by Scarlett Payne.

Our other Top Ten that year was WIARA's niece YIN YANG #821.

WIARA bred herself and kidded herself at 9 months of age! AND had a 16 lb test! Her dau #6112, was the third doe to kid in 2017, even though she herself was a March baby. WIARA is super friendly. So is her son, HERACLES #6111. WIARA had a PTA for stature of plus 9.9, which was bigger than any buck in adgagenetics. At 1 yr & 6 months, bigger than the mature does. (MOOSE was a giant). What if we could develop a strain that always kidded at well under one year and also milked great? So in Fall 2013 we were using BING, because **he** was born when his dam was 8 1/2 months old. But he was bought. The result of that breeding is #4124, NEW ERA. He was bought NEW ERA dau's were kidding early. **WE CAN SAY THAT THE WIARA DAU'S GROW FAST AND MILK BIG AT A YOUNG AGE.**

Our oldest doe as of February 2016 and TESTED PREGNANT! We used her son, NEW ERA, #424.

And we used her son HERACLES #6111.. Him very friendly with personality. WIARA big head with a lot of love.

Where she really helps us is with a very wide rump. We want that so we can have giant escutcheons.

Best Udder in Show versus 24 Milkers!!

S: CAPRIKORN CZARGATE HOT ROCKS #669

HOT ROCKS is if you need **UDDERS**.

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. **8th**.

He needs quite a few tested daughters before he will be proven one way or the other.

Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built."

But when FLASH's baby DHI test came we decided he did have big milk.

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings In Scott's opinion.

#3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having a **very** good baby lactation!

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis !

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that could happen with linebreeding, and we believed her out cross offspring would be super. Mainly expecting the flat rump angle. ROCKET'S FINAL STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott. Only "Good Plus shoulders" per LA person. As of March 2016 we had seen two dau's and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

Best Udder in Show versus 24 Milkers!!

S: CAPRIKORN CZARGATE HOT ROCKS #669

HOT ROCKS is if you need **UDDERS**.

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. **8th**.

He needs quite a few tested daughters before he will be proven one way or the other.

Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built."

But when FLASH's baby DHI test came we decided he did have big milk.

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings In Scott's opinion.

#3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having a **very** good baby lactation!

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis !

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that could happen with linebreeding, and we believed her out cross offspring would be super.

Mainly expecting the flat rump angle. ROCKET'S FINAL STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott. Only "Good Plus shoulders" per LA person. As of March 2016 we had seen two dau's and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

DDD:**STARGATE!**

Placed first of the 2014 doe kids May 12. Very correct kid with lots of size for her age. Big escutcheon.
To be bred to E.T. Fall 2014.
Judge Kate Wolf put this kid up as our showiest doe kid out of around 70. And the judges at the Memorial
Day show in Leetown agreed with her. She was a little small for her age though.
She lead all yearlings in milk and protein after first five tests.
The mammary is not pretty so this is **a great chance for a dairy farmer to get a son of hers at a very
reasonable price.** She has the body. Her close relatives have nice udders.

The last DHI test of the year for us in 2016 was October 15. EKORIA was number ONE in the entire herd.
The first DHI test for us in 2017 was March 9, and **again** EKORIA was number ONE out of all of the
milkers!

Her son was consigned to the WAUKON sale in January of 2018 and auctioned for only \$1,100. A steal.

S: SG ZEPPO +*B

Young Stock Final Score "V"(Just missed Ec) #3 All-time on the USDA Top Buck List DEC 2016 LA-90 Whiteside ZEPPO has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it. ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's.*M

DD: SG CAPRIKORN BE CHA CHA 1*M - 96th %ile - lives in SD now.

DDDS: ZEPPO #3 All Time as of June 2017

DDD: CAPRIKORN ZEPPO BOO TANG #164 AS1625427

Maybe our best escutcheon ever. Bred at CAPRIKORN, born at the house of the buyer of WU TANG. She had horns. That's what happens when you sell a bred doe with a kid back. She was milking strong when she was bought.

DDDD: CAPRIKORN RV WU TANG NOT a looker

DDDDD: STARGATE!

The Arc is disappointing. Distant line on STARGATE. As a yearling, she was FOXTROT and her kids were EXCELLENT CHOICES for the Dairy Farmer that wants big production - yes - but is also willing to pay a LITTLE extra to get that E mammary into his herd. She can definitely kid out a herd sire if she is bred to a big milk buck.

Not a looker. Really nothing wrong with her, but not one of the showiest of the milking yearlings April 2016. Came into her own as a 2yo. COMPONENTS!

code smh 85 ks 88bb

CAPRIKORN BE KANCAN
American Saanen

#8113 AS1917509

Born February 12, 2018
Never Appraised

SS: SG YELSON ++8B

YELSON has two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. YELSON has 36 registered dau's as of October 2013. The Appraisers waved YELSON off. They have to do ALL the does but they try to save us the embarrassment of a low score on bucks. So they say "You don't want to do him" when he starts coming out of the pen.

But we love his Rear End Assembly. The Big Arc.

S: SGCH CAPRIKORN YELSON BULGING EYE +*B
PLUS 306 PTAM Novmeber 2017 LA-90

Coming into the Fall 2016 breeding season, Scott had a lot of bucks to choose from. If you averaged his sire and dam's and two rated dau's percentiles and PTAM's – BULGING EYE was the highest rated buck here. So we went with him. Our judgment was vindicated when the December 2016 ratings came out. He got a plus 302 in milk, higher than any buck on the Elite Buck List. But he does not appear on the list.

SD: SG CAPRIKORN SNOW'S ZANONI 5*M

Having a Bang Up baby lactation with 1-00 128 1087 37 3.4% 31 2.9% in Progress so far.

HULA is a 98th percentile doe and we were thrilled when she showed up in the 98th percentile. That means she's having a great yearling lactation. So we thought surely her daughter by BULGING EYE, who has

the highest PTAM of any Saanen buck, would have a shot at the 99th percentile. So we jacked the price up high enough that we hope she will be able to stay here.

American Saanen Never Appraised

SS: SG CAPRIKORN SNOW'S ZURICH +*B

Ec in front leg, A in rump, all the rest V's.

in 2011 he was THE NEW #1 BUCK OF THE SAANEN BREED! AND AGAIN ON THE NOV. 2015 LIST!! NUMBER ONE FOR MILK/FAT/PROTEIN GENES. **Still number one in Jan 2017**

S: SGCH CAPRIKORN ZURICH COBALT+*B LA-91

COBALT already has milking dau's at CAPRIKORN. He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to have a ROCKET son for a change. All the others were bought This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. Then he became a yearling. Our yearling bucks are ugly. One place Scott can fault him is the rump could be wider. Secondly, ZURICH has a slight minus for PTAFS.

Cobalt is plus for type.

His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck lists. IT IS RARE FOR A 95th %ILE BUCK TO ALSO BE POSITIVE FOR TYPE.

LA-92! EEEE 4yo White

03-11 269 4427 129 2.9% 120 2.7% should be Top Ten

She was the largest doe out of the 2,000 does at the nationals in Colorado

YGERNE was cruising at 19 lb per day in May 2011 and going up.

HAD A SHOT AT 5,000 THIS LACTATION!! The trip to Colorado and back slowed her down.

10th Place 4 y.o. at 2012 Nationals !! (out of 19)

Scott lets Alice have her way with ridiculous names like this because he can't afford alimony.

MOOSE as a yearling was bigger than all the mature bucks.

YGERNE's first claim to fame happened on the Jan 10, 2010 official test, when as a yearling she outmilked EVERY doe in the herd, including the older does, placing Number One! WE LIKE BIG WINTER MILK!

YGERNE was bigger as a yearling than most of the mature does. And she grew at the same time she was making lots of milk.

As a kid, YGERNE was very open and rangy and strong and active. Her ears were too long for traditional Saanen type. Tall, long legs, talks too much. YGERNE milked strong in winter, tops of 15 yearlings on December test.

This doe was markedly longer than the rest of the early kid crop #801-#818. Hurray for MOOSE who keeps us from having to carry the spring kids over the next winter dry!

Previous Doe kid reserved by Francisco Orellana of Guatemala.

YGERNE' first buck is the herdsire in Southern Wyoming.

YGERNE's second buck was reserved in advance by Ben Rupchis, whose Alpine sold for \$5,000.

Update- his name is DEBLIN and he is now Mar 2018 in the top 5 of the Elite Buck List.

YGERNE's specifications LOOK like an NSBA doe - a 92 with big milk. But she is not.

The 92 is for big dairyman's does - tremendous BC and DC and MA but NOT CUTE at all. LA should more equal structure. Show equals beauty.

Here is what the buyer said about his YGERNE buck kid.

"He has a lovely temperament, great set to his hind legs, mucho width between the hocks, and nice feet. All things we were hoping for!"

CAPRIKORN KOLO
American Saanen

#808

AS1977668

Born January 28, 2018
Never Appraised

SS: SG YELSON ++*B

YELSON had two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. YELSON has 36 registered dau's as of October 2013. probably our milkiest buck before his son STARBY came along.

S: SG CAPRIKORN YELSON MEADOW BOSS +*B

is number 7 on the Elite Buck List as of February 2018. That one statement takes in all the thousands of official tests of all his ancestors, all his desendants, all his ancestors' desendents, and all his offspring's offspring. He is longer and taller than other Saanen bucks with very sharp withers. He looks awesome from the side and he is too narrow viewed from the rear. In 2012 Ben Rupchis placed him first over the other "B" bucks - BULGING EYE, BIZNES, STARBY, BLUE STAR in spite of the narrow rear end. He is neutral for type as of February 2018 with a PTAFS of 0.0.

SD: SGCH CAPRIKORN RENOV MEADOW VIOLET 10 *M

PTAFS + 0.3 REL55

MEADOW VIOLET has a slightly roman nose and also hair which is not pure bright white, so she flunks the Saanen Breed character test. She can outmilk almost every Saanen show goat though.

DSS: SG YELSON ++8B

YELSON has two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. YELSON has 36 registered dau's as of October 2013. The Appraisers waved YELSON off. They have to do ALL the does but they try to save us the embarrassment of a low score on bucks. So they say "You don't want to do him" when he starts coming out of the pen.

But we love his Rear End Assembly. The Big Arc.

DS: SGCH CAPRIKORN YELSON BULGING EYE +*B

PLUS 306 PTAM November 2017 LA-90

Coming into the Fall 2016 breeding season, Scott had a lot of bucks to choose from. If you averaged his sire and dam's and two rated dau's percentiles and PTAM's - BULGING EYE was the highest rated buck here. So we went with him. Our judgment was vindicated when the December 2016 ratings came out. He got a plus 302 in milk, higher than any buck on the Elite Buck List. But he does not appear on the list.

DSD: SG CAPRIKORN SNOW'S ZANONI 5*M

99th PERCENTILE- as high as they go.

TOP TEN AS 2y.o.!

AND AGAIN AS A 3 Y.O! LA VEEE 90 4yo

AND PROBABLY AGAIN as a 4 y o.

0-11 319 2663 89 3.4% 77 3.0%

2-00 305 4354 124 2.8% 125 2.9% **TOP TEN**

Top 305 Lactation at Caprikorn Farms in 2014

2-00 321 4527 130 2.8% 130 2.8%

3-00 305 4861 141 2.9% 138 2.8% **top ten again**

4-00 305 **5142** 142 2.8% 141 2.2% Top ten Third Time

DD: SG CAPRIKORN FAR HULA 4*M #654

Having a Bang Up baby lactation with 1-00 128 1087 37 3.4% 31 2.9% in Progress so far.

HULA is a 98th percentile doe and we were thrilled when she showed up in the 98th percentile. That means she's having a great yearling lactation. So we thought surely her daughter by BULGING EYE, who has the highest PTAM of any Saanen buck, would have a shot at the 99th percentile. So we jacked the price up high enough that we hope she will be able to stay here.

DDDS: CAPRIKORN ZEPPO CZARGATE

On the latest Elite Buck List June 2017

DDD: SG CAPRIKORN CZARGATE FOXTROT 3*M

98thile as of June 2017 Yearling LA +E++ 85

01-00 305 2455 102 4.2% 78 3.2%

Distant line on STARGTATE. As a yearling, she was FOXTROT and her kids are EXCELLENT CHOICES for the Dairy Farmer that wants big production - yes - but is also willing to pay a

LITTLE extra to get that E mammary into his herd. She can definitely kid out a herd sire if she is bred to a big milk buck.

Not a looker. Really nothing wrong with her, but not one of the showiest of the milking yearlings April 2016. Came into her own as a 2yo.

DDDD: CAPRIKORN BLUE ESTEFAN

02-03 288 3475 116 3.3% 97 2.8% Awesome for a TWO year old! VVEV 88 3yo

EROICA and ESTEFAN are both big for their age, November 2014.

***END OF THE STARGATE FAMILY** - hopefully almost the whole herd will be STARGATE descendants in a few years mainly through YILDUN, her first son, STARBY, her 2011 son, and CZARGATE and CZARBUCK, her 2012 sons. But also her five daughters – WIARA, WUTANG, YILDA, ZTARTREK and ZTARGATE.

Ben Rupchis points out that 4 of these 5 dau's have lactations over 3800.

None of them have approached her 5300 lb in 305, but her granddaughter CASSIOPEIA might do it.

Has a 4700 with far better fat than grandma.
