REVISED MARCH 15, 2023

*What's available right now?
(That's under \$1,000)*

We have does and bucks who are way too good for the Sale Barn, but they are not good enough to stay in the All Star Caprikorn Saanen Herd at a time where we have lost our biggest cheese customer and have too much milk. That's what this list is all about!

They are all priced somewhere between Sale Barn and \$1,000 depending on their production ability.

*Love,
Scott, Alice & Sarge*

*If you are not limited to \$1,000,
we have a catalogue with the
REALLY good ones!*

Beautiful udder. Loose shoulders and they stick up. Mammary looks great, she should do 12-13 lbs a day for you.			
We decided to get rid of the older show does. By “show does” we mean (in this instance) does who are not great milkers and were kept strictly to win shows. LOCKHEED is one of those. She has a BEAUTIFUL udder, but her back has a weird hump at the withers that keeps her from being a repeat grand champion-type winner.			
If she were a stone-cold winning show doe, she would be priced close to \$5,000, but she’s not.

ROCKET family fished out.			
Friendly. Last of the Rocket Family			
And FIRE QUEEN was the bomb - 4 th at Nationals			
We were holding her because she was the last of the great ROCKET family, but now she has given us 2 does.			
KARAT is the last doe left from the GREAT ROCKET FAMILY.			
We found a buck who is a distant ROCKET descendant for her. ROCKET’s dau SGCH XING had a son named FLINT. FLINT’s son HONDURAS #609 is still here. We used him on KARAT.			
She just gave us two does to carry on the ROCKET family so now KARAT can leave.			
We tell you the bad stuff -			
Scott doesn’t like the teats pointing out when she is bagged.			
But for our hand-milking customers there is plenty of teats to hang onto.			
Loves little kids!

Coming into the Fall 2016 breeding season, Scott had a lot of bucks to choose from. If you averaged his sire and dam's and two rated dau's percentiles and PTAM's – BULGING EYE was the highest rated buck here. So we went with him. Our judgment was vindicated when the December 2016 ratings came out. He got a plus 302 in milk, higher than any buck on the Elite Buck List.

D: SG CAPRIKORN HONDO JWALA LA-91

99th %ile and formerly very good looking. Lopsided last lactation.

NWALA's dam, JWALA is extraordinary, but NWALA didn't live up to her mother. JWALA was the highest appraised doe the last time an appraiser came. She won more shows than any of our other does. We only went to 4 shows last year and she won 2. She was previously a 99th %ile doe but we gave her mastitis, so her rating dropped. But the genes are still there, and none other than Ben Rupchis once reserved her next buck kid.

Now, NWALA's rating of 88th %ile is better than 7 out of 8 Saanen dairy goats. The rating has a very low reliability because all she has is a yearling lactation. Since your herd isn't a tested herd, her 88th %ile rating would be better than 15 out of 16 of your does, genetically speaking. She just freshened at 2 years old so you will get many years of faithful service. If her first 2-yo tests are outstanding, we will jack her price up. If you sign a contract now and make a deposit, you get the price above!

DD: CAPRIKORN DANCER'S IMAGE

EXTRA ALOHA is preponent for show. Our only 3-year-old entry at the 2021 National Show was her daughter. And our best Yearling Milker entry was also her daughter.

We got into the habit of going to shows 40 years ago and we keep doing it.

ZEPPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker
that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that
is BIG can handle it. ZEPPPO is Mr. Protein. He has the second highest protein % of any of
our bucks, ever. The winners of the Four Milk and Fat Awards at the 2016 Nationals were
both ZEPPPO dau's. Also the 2017 305 Milk & Fat Awards, and the 2017 Lifetime Awards.

6/14/22 - ? A little weakness in right rear pastern
Now NEZTAR will probably be 99th %ile; so P ALEX will most likely be the average, 92.5. 92.5 is better
than 13 out of 14 TESTED Saanens.

NEZTAR had two full brothers. One went to a big repeat dairy customer in Utah, the other was selected by
a top West Coast breeder and flown to California.
P ALEX will be bought right away because he is the cheaper Yearling Buck, and new dairy farmers often
buy that.

KOCONUT is showiest of the does born in 2018 but that is only because both KARISMA #882 and KZTARR #898 died..

Bagged up for show KOCONUT looks like a Monster milker, but the computer knows everything and 95%ile means “better than 19 of 20 **tested** Saanens.”

The one 2-year-old Scott chose to take to the Delaware show in Spring 2020. She was second in a class of about 6. Over-bagged though we milked her out at 9:30 PM.

STARBY& BIZNES did not throw lookers ON THE AVERAGE so this is not a prospect for a show breeder.

Showiest of the 2 year olds according to Judge Jackson, June 14, 2020.

On February 17, 2023, Scott said: “326 has a classic Saanen nose; a very intelligent look, but the left ear is crimped; very friendly.”
