SS: YARROW HILL DRAMBUIE

S: SG LEGEND WEST ATLAS

SD: Three Times #1 doe MARIWILLO PRIDE'S SHARMIN

DS: ROCKY RUN ET SUCCESS STORY

D: GCH YEN (please see p.21 of "Recent Bucks") 305 4050

DD: ROCKY RUN NICKLE #11 in U.S.

Almost all CAPRIKORN Saanens descend from her son GCH++*B CAPRIKORN JUDGE'S KRUGERRAND LA-91 formerly a Sire Summary buck.

CRUZEIRO WAS OUR BIG BREAKTHROUGH!

For our first eighteen years no one ever went over 4100 in 305 here and then CRUZER did 5110!!! She had a burp-tear in the stomach wall. Also, for two years, she walked on three legs. We thought she would die giving birth. Her December '92 baby went to the TRAILS' END herd. She radically broke all our records. But the udder by four years old was not showy enough for a show herd. That **IS** a "V" from the ADGA Appraiser and her dam **is** a GCH. She blew away the herd mainly because she was strong in the last four months. CAE positive and skinny for her last two years.

'95 1st BUCK \$525 by CHAINS p.22

PURCHASED by ANDREAS GARZA

'97 2ND BUCK \$1395

PURCHASED by CHERYL BEICHYL/PHIL KNIPPLE

They were happy with their KRONOR babies.

'97 1st BUCK GCH++*B CAPRIKORN JUDGE'S KRUGERRAND LA-91 is 2005 SAANEN TOTAL BUCK, and All-Time SAANEN TOTAL BUCK.

ATLAS was a giant who could be ridden into the ring. Frances Szasz, a brave little Quaker lady, rented a van and drove from New York to Missouri by herself to get DRAMBUIE.

BREEDERS TIP: If you have a doe born with a hernia you could believe you should cull her so she doesn't pass it on. DON'T! Cruzer has over 1,000 descendants and none of them inherited it.

Smh code sheila 85 & the V, W 80

07-10 313 3176 115 3.6% 86 2.7%
Lifetime 2,828 days 32,444 lb milk, 1069 lb fat, 873 lb protein.
Probably the highest of any living Saanen at the time of her death.
XTORT was the NATIONAL SAANEN BREEDERS ASSN GRADE TOTAL DOE
XTORT made TOP FIVE over and over. She beat our whole herd in 305 at least twice.
Lined on CRUZEIRO, but only 3/16ths.
We had a disastrous test on Oct. 20, 2009, but XTORT held her milk. Maybe she likes to eat soggy round bales out in the rain. Her sister lives in Canada now.
Sold all her buck kids to dairies that do not register. A long history behind this doe. We got an employment application from a person working in the Likuni Boys School in Africa. He became our herd manager and later started his own unregistered herd with our stock. When one of his does, PEPPER, went 5,000 on DHI, we got her dau. That was VANILLA, who completely lost one rear foot but kept on trucking with a **wide** mammary..

XTORT was for people who love goats who love people. She was the only kid to break out of the kid prison to follow you around while you do chores.

As of her death she was first in in our herd in lifetime milk, fat and protein. And we have been on DHI for forty years. Butterfat of 1069. Second place doe only 697!!
XTORT's mammary milked way down. This means she should get an "e" for udder texture.
XTORT was not a big doe, making her milk records even more remarkable.
XTORT'S DAU CUMIN IS OUR BEST MILKER..
PREGNANT - THANK YOU GOD! - FEBRUARY 2016 - NINE YEARS OLD! But aborted.
Not pregnant Dec 2016. But we decided she could stay here though.
Yes Pregnant February 2017 10 years Old. Pray she can carry. Did and her dau is our best milking yrlg.
Xtort has 7 related dau's. Their ratings, which were right there on adgagenetics as of DEC 2017 are:
89, 99, 84, 92, 94, 98, 97

All of them would be higher except that the computer does not know that DONUT only has one half left.

S: SG ZEPP0 +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90 Whiteside

ZEPP0 has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPP0 is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPP0 dau's.

Before they freshened we said: “The pedigree is so deep these two HAVE TO MILK GREAT. If you feel
that is a brash statement, put your money down in a wager and we will give you great odds.”

SG HICKORY gets an edge because she kidded earlier than HAZELNUT. As of November 2017 their
projections, fat, and protein were even. Milk GREAT, fat ok, protein weak.

HAZELNUT has the highest PTAM of any doe listed on the USDA-DHIA Genetic Evaluations for
December 2017, which you can find by going to ADGA.org, clicking on performance programs, clicking
again on performance programs and scrolling down to the word ELITE. Now the discerning buyer will
note that her name starts with an “H.” That means she’s only 2-years-old. That means she’s only had 1
lactation. That means the reliability of that monster PTAM is low. She could go a long way up. Or she
could come a long way down. But at the moment she’s done all she can possibly do.

WINNER OF THE LIFETIME MILK AWARD AT 2014 NATIONALS

DD: CAPRIKORN SNOW’S VANILLA 1*M

It’s not as good as it sounds. Her full sister DOUGHNUT was uneven. Her other full sister DILL was slightly uneven - but could make EX as 2 y.o. if evens out.

DILL steep rump, awesome arc, teats pointing out a little, roly poly shoulders, fore has extension, but is chopped. Donut HAS A VERY strong and loud heat making her a great A/I candidate.

We bred DONUT A/I to TZAR on May 6, 2015. It didn’t work, of course.

As a yearling DONUT got first in both rings at Leetown on Memorial Day weekend. Then Sam, a high school kid milker with a very poor work ethic, gave her mastitis and she lost one half. TIP TO DAIRY FARMERS: goat people are cheap. Sometimes penny wise and pound foolish. Better to pay a little more for a much better milker. Also, you cannot train them and forget about it. YOU HAVE TO RECHECK after a few months.

Milk - yes yes yes

Fat - yes yes yes

Looks - yes yes yes

Is there anything else she could do?

Yes! 3.2 protein instead of 3.0. And not have an ugly full sister. -

DONUT WAS VERY EXPENSIVE. NOW NOT FOR SALE DUE TO LOSING ONE HALF.

Her kids are Scott’s pick for the frugal dairy farmer. Her kids will always be a bargain because she can never make 4,000 with only one udder half. On the other hand, because we know how good she is and how good her dau’s are, maybe the prices will be too high for dairy farmers, who mostly only look at 305's.

S: CAPRIKORN CZARGATE HOT ROCKS

Not a good choice for a Farmer that never shows Unless you need **UDDERS**

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd
at Nationals. **8th.**

SUM 777 Overpriced because we have an investment. Daughters that will cost us DHI and LA fees. And
he needs quite a few tested daughters before he will be proven one way or the other.

**Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM
CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE
BIGGEST POSSIBLE improvement in the way his udders are built."**

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings

In Scott's opinion. #3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was
having a very good baby lactation.

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull
this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we
knew that could happen with linebreeding, and we believed her out cross offspring
would be super. Mainly expecting the flat rump angle. ROCKET'S FINAL

STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott. Only “Good Plus” per Eric. As of March 2016 we had seen two dau’s and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

DD: SGCH CAPRIKORN WEALTH **XTORT** 2*M - page 16 30,000 lifetime!

Style, but loose shoulders, friendly. In April, we said “Very nice looking mammary maybe EX” And in fact the Appraiser did go with “E” in September. Only 6 pounds on her first test as a yearling though. Need more tests. WE WILL TAKE ALL THE DONUT DAUGHTERS WE CAN GET. In September 2016 the beautiful mammary was a perfect size - for a mature doe. We said “What that means is this awesome doe’s kids will be a good deal for dairymen. Because the mammary will grow too big for the American Show Goat Assn scorecard by the time she is two.” So she will never have the really high placing that drives the prices up. She has had a case of mastitis her entire yearling lactation that we tried to treat simply by remilking her. But that didn’t work. HER NUMBERS WOULD BE **EVEN BIGGER WITHOUT THE MASTITIS**. The first three tests of her two year old lactation have beautiful SCC counts. So, the dry treatment worked! RESERVE BEST UDDER Aug. 4, 2017 as a 2 y o. versus 14. code smh 85 ks 90BB

In August of 2017, the judge at the Howard County Fair made FUSILLI Best Udder versus around 15 does. On August 3, 2018 a different judge exactly the same thing. That should give you a profile of what FUSILLI looks like.

DDD: PEPPER - Unregistered - PEPPER was in a herd that did not register. But they
tested! She did 5000 in 305.

This is the heaviest milking herd in the country and CUMIN beat the whole herd
three years in a row and that's all there is to say. One year she was basically tied with
CASSIOPEIA and CASSIE had better components. CUMIN's dam did it two years in a row in her day.
She is way bigger than her dam.

We want you to know her full sister CLOVE had a little extra teat. (SALE BARN)
At 10 days fresh, her rear udder was popping out like crazy. But it is set too far down from the vulva for
the show folks. Back pasterns too straight up - knuckling over a little. Bulging rear. Perfect for dairymen.
It's a strong mammary. Just positioned too far back for the judges, in Scott's opinion. Of course the 2013
National Champion had a BULGING REAR to Scott's eyes. Judge Wolf placed CUMIN 2nd out of 15
yearling milkers. As a 2 y.o. Scott thought the mammary is too big for ADGA.
Not enough fore, a Dairy Farmer's mammary.

DS: SGCH CAPRIKORN ZURICH COBALT+*B LA-91 He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to have a ROCKET son for a change. All the others were bought. This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. Cobalt is plus for type.

His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN.

So he does not print on the Top Buck (cdcd.us) or Elite Buck lists. IT IS RARE FOR A 95th %ILE BUCK TO ALSO BE POSITIVE FOR TYPE.

D: CAPRIKORN COBALT EZTAR 4*M #479 Both she and her sister EZTAR #479 an amazing 99%ile. But all the computer has to work with is every record of every ancestor that was on test, every record of every tested descendant of every ancestor, whether or not THOSE ancestors themselves were on test, and just one yearling lactation from each of these girls. So, the REL is not huge. Still, 99 is the best they could possibly do and that IS their rating as of the December 2015 computer run.

01-08 305 3220 87 2.7
Best Udder in Show versus 24 Milkers!!

S: CAPRIKORN CZARGATE HOT ROCKS #669
HOT ROCKS himself is overpriced for a dairy farmer that never shows. Unless you need
UDDERS. Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish
1st or 2nd at Nationals. **8th.**

SUM 777 Overpriced because we have an investment. Daughters that will cost us DHI and LA fees.
And he needs quite a few tested daughters before he will be proven one way or the other.
**Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM
CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE
BIGGEST POSSIBLE improvement in the way his udders are built."**

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B
SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings
In Scott's opinion. #3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was
having a very good baby lactation.
11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis
projected at 3354 102 84 before mastitis

SDD: CAPRIKORN DIAMONDS R4EVER
American Saanen 2 y o LA +VVV 86 too low, but then she is linebred
01-00 305 1945 69 3.5% 58 3.0% very good baby lactation
02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components
03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better
Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull
this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we
knew that could happen with linebreeding, and we believed her out cross offspring
would be super. Mainly expecting the flat rump angle. ROCKET'S FINAL
STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott.
Only "Good Plus" per Eric. As of March 2016 we had seen two dau's and they were both
really well built. So sad that she was bought and lives in Trinidad-Tobago now.

He was number one on the Elite Buck list when we bought him

Died February 20, 2016

We knew that some of our bucks would eventually prove higher. But we were desperate for an outcross. We were too inbred. Scott always wanted an ELF descendant, but they kept ending up with only one udder half.

He looks better than an 89 to Scott.

DD: CAPRIKORN ECLIPSE HONEY BUN

75%Saanen, 25% Alpine

02-00 305 4158 136 3.3% 128 3.1%

DDD: CAPRIKORN SNAP ECLAIR

99th percentile

November 2014, ECLAIR and ECLARE are both big for their age.

March 2015 one of them has teats so small the inflations fall off #4114?

CUMIN made the most milk of anyone in our herd in 2014. And she was only two.

ECLAIR, weird udder. Jeremiah says "teats are fat, angled out and down." Scott likes the udder a lot.

Width and fat teats. ECLAIR is a keeper, thanks to her dam and her own milk records.

Previously NFS due to grading up process. Ok to sell now that we have 87.5% Saanen babies. ECLAIR second of 14 at Frederick September 2016. But a lot of the competition was 4 H'ers.

S: SG ZEPPO +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90 Whiteside

ZEPPO has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's

DD: VANUSKA 10*M

DNA VGL ID ADG 20084082

WANUSKA was precocious

Scott lets Alice have her way with ridiculous names like this because he can't afford alimony.

MOOSE as a yearling was bigger than all the mature bucks.

YGERNE's first claim to fame happened on the Jan 10, 2010 official test, when as a yearling she outmilked EVERY doe in the herd, including the older does, placing Number One! WE LIKE BIG WINTER MILK!

YGERNE was bigger as a yearling than most of the mature does. And she grew at the same time she was making lots of milk.

As a kid, YGERNE was very open and rangy and strong and active. Her ears were too long for traditional Saanen type. Tall, long legs, talks too much. YGERNE milked strong in winter, tops of 15 yearlings on December test.

This doe was markedly longer than the rest of the early kid crop #801-#818. Hurray for MOOSE who keeps us from having to carry the spring kids over the next winter dry! Previous Doe kid reserved by Francisco Orellana of Guatemala.

YGERNE' first buck is the herdsire in Southern Wyoming.

YGERNE's second buck was reserved by Ben Rupchis, whose Alpine sold for \$5,000.

YGERNE's specifications LOOK like an NSBA doe - a 92 with big milk. But she is not. The 92 is for big dairyman's does - tremendous BC and DC and MA but NOT CUTE at all. LA equals structure. Show equals beauty.

Here is what the buyer said about his YGERNE buck kid.

"He has a lovely temperament, great set to his hind legs, mucho width between the hocks, and nice feet. All things we were hoping for!"

Video on YouTube: "CAPRIKORN FARMS APPRAISAL 2011 #812"

HER SON **DEBLIN** is **number 4 ON THE AUGUST 2017 Elite Buck List.**

And all his records were made in herds other than CAPRIKORN

DOBRE is probably our best all around doe, from the point of view of people who care about both milk and show. But she cannot claim that title until we see another lactation. Her litter brother DEBLIN was bought for \$ 2,500 by a Very knowledge herd manager in California.

In September 2014, at Frederick, the judge shocked everyone by placing DOBRE over every single Caprikorn Show Doe. EVEN THOUGH SHE WAS JUST A YEARLING.

DOBRE is friendly. . DOBRA lives in Texas now, where she is on test and doing great.

DOBRE EX Rear., cannot see fore?? Extension is between moderate and VG, but there is a pocket.

DOBRE was 13th of 19 at 2014 National Show. Cuts are no brisket, rump angle, shoulders not tight

enough to withers. Rump Angle will be fine as she ages. Her dam YGERNE also placed well at Nationals.

DOBRE failed to get pregnant in Fall of 2014. Finally kidded in 2016. Started with a devastatingly disappointing first test of only 12.5.

Whereas her sister DOBRA in another herd (Texas) started 17.1, 16.1, 14.3!!

Another reason DOBRE and her babies are a deal- She has not topped 4,000 in 305, which is the standard that most ignorant buyers use. The don't grasp the 95th percentile, which is a much better measurement.

When you reserve a doe kid in advance, and two of them are born, we try to send YOU the best one.

CAPRIKORN BOSS KORIANDER
American Saanen

#8142

AS1920125

Born February 24, 2018
Never Appraised

SS:SG YELSON ++*B computes to around 90th percentile

YELSON has two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. YELSON has 36 registered dau's as of October 2013. The Appraisers waved YELSON off. They have to do ALL the does but they try to save us the embarrassment of a low score on bucks. So they say "You don't want to do him" when he starts coming out of the pen. But we love his Rear End Assembly. The Big Arc

S: SG CAPRIKORN YELSON MEADOW BOSS *B – very beautiful except narrow rear

He is longer and taller than other Saanen bucks with very sharp withers. He looks awesome from the side and he is too narrow viewed from the rear. In 2012 Ben Rupchis placed him first over the other "B" bucks (BULGING EYE, STARBY, BIZNES) in spite of the narrow rear end.

BULGING EYE and BIZNES went on to get 90's. But Scott doesn't think BOSS will get one. His full sister also has a 92 just like his dam. She is also a SGCH, just like his dam. She also has 22,000 pounds lifetime and climbing.

SD:SGCH CAPRIKORN RENOV MEADOW VIOLET 10*M 95th Percentile **LA-92** RUA +1.3

Ended with Lifetime 1,396 days 15,575 pounds 2.8 b.f. 2.8 pro

Finished in only 4 shows, a total of 6 rings.

An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had "INVERSION" - more protein than fat. We chose VIOLET's twin VERN to breed the awesome does STARGATE and VENICE. Nine pounds at birth. We named the dam MEADOW SPRING below to honor Tina Gilchrist's immortal GCH FOOTHILL FARM MEADOW SPRING TOP TEN LA 90. Dam had the big arc 35. And Rear Udder height: 38. Dam had extra teat. VIOLET started life with the RENOV steep rump. That changed. We don't want to waste time on conformation but one item we do want is "The Big Arc"! We used to have big wide escutcheons. When CRUZERIO did 5100, totally smashing our previous record, everything became lined on her. Then we lost the Big Arc. SPRING's descendants will bring it back. She had cream, not white hair and an undesirable Saanen nose. It's so easy to be the top Saanen **milk** herd. The other breeders select for color and noses. We just keep selecting for milk/fat/protein, She "HAD IT ALL." Her son MEADOW BOSS is on the Aug. 2017 Elite Buck List

In 2015 we said "As a milker not doing well. Are you a gambler?"
No one took her when she was cheap and now she is very expensive.

BUYER'S TIP; don't pay too much attention to baby lactations. Look more a the dam and sire.
SDD:SGCH CAPRIKORN ZEPPA CASSIOPEIA showiest milker right now and she is 99%ile! Too expensive for the normal dairy farmer

00-10 305 2166 awesome baby lactation
01-08 320 3515 115 3.3% 103 2.9%
02-09 306 4713 161 3.4% 131 2.8% in progress - A sure bet for Top Ten
LA-91 as a 3 y.o. LA -88 As a yearling La - 92 as a 5yo
BIG MILK AND BIG SHOW and big fat
The Total Preformer Award at 2017 Nationals

DSS: SG ECLIPSE *B
LA-89

As of Dec 2015 plus 257 PTAM -0.10 b.f -0.04 protein
He was number one on the Elite Buck list when we bought him
Died February 20, 2016

We knew that some of our bucks would eventually prove higher. But we were desperate for an outcross. We were too inbred. Scott always wanted an ELF descendant, but they kept ending up with only one udder half.

He looks better than an 89 to Scott.

DS: SG ECLIPSE TIBERIUS *B

D: CAPRIKORN TIBERIUS JA HALO

DDS: CAPRIKORN DAVIDITE

DAVIDITE and DANCER'S IMAGE were in quarantine forever while the health tests went back and forth. That is when EXTRA ALOHA was conceived - an unplanned pregnancy in the Fall of 2014. (We always go with a Milk buck for a show doe's first breeding.)

DD: SGCH CAPRIKORN DAVID EXTRA ALOHA 6*M highest PTAFS in the herd as of Feb.

2018. This is a show doe - DAIRY FARMERS BEWARE.

DDD: SG CAPRIKORN M DANCER'S IMAGE 5*M #3137 AS16449647

PTAFS +0.8 IMAGE actually has a percentile of 67.

02-09 305 2721 106 3.9% 85 3.1%
