

Beginning of the XTORT FAMILY

CRUZEIRO was our big breakthrough after 20 years in the business. But that was 1994 and since then XTORT sold more milk & cheese for us than any other doe ever.

Revised 8/5/2020 - Still needs more updating and editing

CRUZIERO was a race horse. Long and lean. And she would come galloping around the side of the barn when someone fed grain. Her metabolism was so high that she would lie down on her side in a puddle to cool off in the summer. We measure a lot of things at shows. Three things we don't measure are heart rate, respiration, and timpany. Possibly THEY are BETTER indications of greater milk than the things that the judges do measure.

XTORT was a plodder. Small and compact. In her last lactation at an advanced age, she would **still** take the first spot on the ramp at the entrance to the parlor.

XTORT never talked. She just kept going.

When it became obvious that she was dying, Scott walked her out of the milking herd, back towards a dry doe pen. She plodded along and half way there she gave up and flopped down, sitting up.

Scott figured that was the end.

A minute later she got up and completed the journey.

Three days later she died at the age of eleven.

ADGA used to publish something called the AR. Around 44 pages of fine print showing every single Saanen DHI record for that year. One year the AR only contained one Saanen in the U. S. with an eleven year old lactation.

CUMIN is the second base doe people want descendents from and she is located halfway back in this list.

D: GCH YEN (please see p.21 of "Recent Bucks") 305 4050

DD: ROCKY RUN NICKLE #11 in U.S.

Almost all CAPRIKORN Saanens descend from her son GCH++*B CAPRIKORN JUDGE'S KRUGERRAND LA-91 formerly a Sire Summary buck.

CRUZEIRO WAS OUR BIG BREAKTHROUGH!

For our first eighteen years no one ever went over 4100 in 305 here and then CRUZER did 5110!!! She had a burp-tear in the stomach wall. Also, for two years, she walked on three legs. We thought she would die giving birth. Her December '92 baby went to the TRAILS' END herd. She radically broke all our records. But the udder by four years old was not showy enough for a show herd. That **IS** a "V" from the ADGA Appraiser and her dam **is** a GCH. She blew away the herd mainly because she was strong in the last four months. CAE positive and skinny for her last two years.

'95 1st BUCK \$525 by CHAINS p.22

PURCHASED by ANDREAS GARZA

'97 2ND BUCK \$1395

PURCHASED by CHERYL BEICHYL/PHIL KNIPPLE

They were happy with their KRONOR babies.

'97 1st BUCK GCH++*B CAPRIKORN JUDGE'S KRUGERRAND LA-91 is 2005 SAANEN TOTAL BUCK, and All-Time SAANEN TOTAL BUCK.

ATLAS was a giant who could be ridden into the ring. Frances Szasz, a brave little Quaker lady, rented a van and drove from New York to Missouri by herself to get DRAMBUIE.

BREEDERS TIP: If you have a doe born with a hernia you could believe you should cull her so she doesn't pass it on. DON'T! Cruzler has over 1,000 descendants and none of them inherited it.

07-10 313 3176 115 3.6% 86 2.7%

Lifetime 2,828 days 32,444 lb milk, 1069 lb fat, 873 lb protein.

Probably the highest of any living Saanen at the time of her death.

XTORT was the NATIONAL SAANEN BREEDERS ASSN GRADE TOTAL DOE

XTORT made TOP FIVE over and over. She beat our whole herd in 305 at least twice.

Lined on CRUZEIRO, but only 3/16ths.

We had a disastrous test on Oct. 20, 2009, but XTORT held her milk. Maybe she likes to eat soggy round bales out in the rain. Her sister lives in Canada now.

Sold all her buck kids to dairies that do not register. A long history behind this doe. We got an employment application from a person working in the Likuni Boys School in Africa. He became our herd manager and later started his own unregistered herd with our stock. When one of his does, PEPPER, went 5,000 on DHI, we got her dau. That was VANILLA, who completely lost one rear foot but kept on trucking with a **wide** mammary..

XTORT was for people who love goats who love people. She was the only kid to break out of the kid prison to follow you around while you do chores.

As of her death she was first in in our herd in lifetime milk, fat and protein. And we have been on DHI for forty years. Butterfat of 1069. Second place doe only 697!!

XTORT's mammary milked way down. This means she should get an "e" for udder texture.

XTORT was not a big doe, making her milk records even more remarkable.

XTORT'S DAU CUMIN IS OUR BEST MILKER..

Xtort has 7 related dau's. Their ratings, which were right there on adgagenetics as of DEC 2017 are:

89, 99, 84, 92, 94, 98, 97

All of them would be higher except that the computer does not know that DONUT only has one half left.

Smh code 91 H

SG CAPRIKORN CZARGATE FROMAGE 3*M #537 AS1714218 Born January 26, 2015
American Saanen 97%ile as of June 2017, going down due to mastitis Yearling LA +VVV 85
01-00 305 2476 83 3.4% 77 3.1%
02-00 286 2314 89 3.8% 76 3.3%
03-00 305 3227 117 3.6% 102 3.2%

No use looking at her lactations, one side of mammary ruined. Computer knows her relatives. So computer knows her percentile is 98!! Better genes than 49 of 50 Saanens. Most dairy farmers don't understand "GENES." So they don't buy her kids. So we have a lot and they are great for us. You may ask "how does the computer give this doe a 98% based on those lactations?" the answer is that the computer knows all of her RELATIVES' lactations. It is measuring her GENES. So her OWN lactations hold her score down, but the relatives are so good the computer knows she could do better if she had both halves working right.

*this doe is not in milk in August 2019. Apparently she got bad mastitis, dried off, rebreeding her.
Scott would caution a buyer to BEWARE. She is a gamble.*

S: SG ZEPP0 +*B
Young Stock Final Score “V”(Just missed Ec)
#3 All-time on the USDA Top Buck List DEC 2016 LA-90 Whiteside
ZEPP0 has 46 registered dau’s as of January 2016. His dau’s are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.
ZEPP0 is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.
The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPP0 dau’s.

One of only two Saanens in the history of the U.S. that had two lactations over 5,000
pounds in 305 days or less. Every 10 or 15 years nature sends us a genetic freak.

D: CAPRIKORN CZARGATE FROMAGE #537 98th percentile above

DD: SGCH CAPRIKORN WEALTH **XTORT** 2*M #756 ABOVE

As of November 2014 she was first in lifetime milk, fat and protein. In July 2015 her lifetime fat
was 900. The closest doe to her had only 700! Milk 29,208 lb. As of Dec 2015. Some cows don't
get that far.

HALLOUMI is the showiest of the yearlings as of June 2017.

Therefore her kids are overpriced from the perspective of a commercial dairy farmer.

On August 4, 2018, even though she was only a 2-year-old, the judge made HALLOUMI Grand over an
AOP class of around 17 does.

September 15th, 2018 - HALLOUMI goes Grand vs. 14 for her second Leg

HALLOUMI got dragged out to five shows a year by Alice. One per month in the Summer. Each time her
DHI projection dropped because she was bagged up. Surely she would have a 4,000lb lactation to her
name if we had a different show doe in her age class.

Since she finished her shows as a 3 y o, maybe that will happen in 2020!!

UPDATE: *DOING BETTER SO FAR. Looks like 4,000+!!*

WINNER OF THE LIFETIME MILK AWARD AT 2014 NATIONALS

DD: CAPRIKORN SNOW'S VANILLA 1*M

It's not as good as it sounds. Her full sister DOUGHNUT was uneven. Her other full sister DILL was slightly uneven - but could make EX as 2 y.o. if evens out.

DILL steep rump, awesome arc, teats pointing out a little, roly poly shoulders, fore has extension, but is chopped. Donut HAS A VERY strong and loud heat making her a great A/I candidate.

We bred DONUT A/I to TZAR on May 6, 2015. It didn't work, of course.

As a yearling DONUT got first in both rings at Leetown on Memorial Day weekend. Then Sam, a high school kid milker with a very poor work ethic, gave her mastitis and she lost one half. TIP TO DAIRY FARMERS: goat people are cheap. Sometimes penny wise and pound foolish. Better to pay a little more for a much better milker. Also, you cannot train them and forget about it. YOU HAVE TO RECHECK after a few months.

Milk - yes yes yes

Fat - yes yes yes

Looks - yes yes yes

Is there anything else she could do?

Yes! 3.2 protein instead of 3.0. And not have an ugly full sister. -

DONUT WAS VERY EXPENSIVE. NOW NOT FOR SALE DUE TO LOSING ONE HALF.

Her kids are Scott's pick for the frugal dairy farmer. Her kids will always be a bargain because she can never make 4,000 with only one udder half. On the other hand, because we know how good she is and how good her dau's are, maybe the prices will be too high for dairy farmers, who mostly only look at 305's.

DDD: PEPPER - Unregistered - PEPPER was in a herd that did not register. But they

tested! She did 5000 in 305.

This is the heaviest milking herd in the country and CUMIN beat the whole herd

three years in a row and that's all there is to say. One year she was basically tied with

CASSIOPEIA and CASSIE had better components. CUMIN's dam did it two years in a row in her day.

CUMIN is way bigger than her dam, XTORT.

We want you to know her full sister CLOVE had a little extra teat. (SALE BARN)

At 10 days fresh, her rear udder was popping out like crazy. But it is set too far down from the vulva for

the show folks. Back pasterns too straight up - knuckling over a little. Bulging rear. Perfect for dairymen.

It's a strong mammary. Just positioned too far back for the judges, in Scott's opinion. Of course the 2013

National Champion had a BULGING REAR to Scott's eyes. Judge Jackson placed CUMIN 2nd out of 15

yearling milkers. As a 2 y.o. Scott thought the mammary is too big for ADGA.

Not enough fore, a Dairy Farmer's mammary.

WINNER - LIFETIME MILK AWARD - 2013 & 2014 NATIONALS

HABANERO: Not a Saanen nose. Roman nose.

HARISSA: VG escutcheon rump angle average. Slight roman nose.

Ben Rupchis, a terrific breeder, reserved HARISSA's buck kid.

HABANERO's buck kid #8206 was by far the best looking baby buck. Scott mourned when he let him go for only 1,995. But the buyer bought a lot so he deserved a reward.

BOTH 99%ile as of June 2020.

When you do the math as explained in Elite on the ADGA website, HABANERO has the highest total score. That means she brings in more of a milk check than any doe in the US.

SG CAPRIKORN ZEPP0 JABUTICABA #7243 AS1876758 Born JUNE 30, 2017
American Saanen Last kid of the year
01-9 305 2080 77 3.7% 63 3.0%

S: SG ZEPP0 +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90

ZEPP0 has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPP0 is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx.

BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPP0 dau's

90 smh code ws

DS: ECLIPSE - #2 on Elite Buck List as of June 2020

S: CAPRIKORN CZARGATE HOT ROCKS #669

HOT ROCKS himself is overpriced for a dairy farmer that never shows. Unless you need

UDDERS. Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. **8th.**

SUM 777 Overpriced because we have an investment. Daughters that will cost us DHI and LA fees.

And he needs quite a few tested daughters before he will be proven one way or the other.

Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built."

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings

In Scott's opinion. #3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having a very good baby lactation.

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that could happen with linebreeding, and we believed her out cross offspring would be super. Mainly expecting the flat rump angle. ROCKET'S FINAL

STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott.

Only "Good Plus" per Eric. As of March 2016 we had seen two dau's and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

D: SG CAPRIKORN STARBY DOBRE 13*M #348

going for 4,000 in 2017. Lifetime fat 3.2% ok Protein 2.8% Too low

DOBRE was probably our best all around doe, from the point of view of people who care about both milk and show. But she cannot claim that title until we see another lactation. Her litter brother DEBLIN was bought for \$ 2,500 by a VERY knowledge herd manager in California. And as of February 2019 he is now in the Top five on the Elite Buck List

DD: SG CAPRIKORN RV YGERNE 12*M **TOP TEN** LA-92 9th place at Nationals

YGERNE'S son DEBLIN left when he was a baby and now sits on the Elite Doe List thanks to the records he made in some West Coast herds.

JOY LUCK is actually an A/I baby thanks to Mark. Something went wrong in registration so her name does not say A/I.

Scott saw that this doe was turning roan, so he put her on the Package Deal list. But after she was shaved, she could pass as white. So he took her off. We hope the judges don't get cheap white paint on their fingers when they check her Dairy Strength.

A throw back to our Good Old Stuff. What buyers wanted 20 years ago was NYMPHIE, KRUG and ROCKET. (What buyers wanted 40 years ago was nothing)

CAPRIKORN HERC LEGNICA #9155 AS2003825 Born March 10, 2019
American Saanen Never Appraised

SS: SG ECLIPSE ++*B

AS1501878 LA-89; Died Feb. 2016

He was number one on the Elite Buck list when we bought him for \$3,500. He was old. As of October 2017 he is in the #3 spot.

S: CAPRIKORN ECLIPSE HERCULES *B

Good rump angle, Powerful. VG all around. Very friendly. This is a very well built buck. Scott guesses that he will appraise 92 when he grows up.

SD: SG CAPRIKORN BOSS ERIDANA 4*M LA VEVV 89 2 yo

02-01 305 4170 146 3.5% 116 2.8% LA + EVV 88 3 yo

03-01 305 4779 159 3.3% 130 2.7%

03-01 361 5189 177 3.4% 140 2.8%

In 2015 we said "As a milker not doing well. Are you a gambler?"

No one took her when she was cheap and now she is very expensive.

BUYER'S TIP; don't pay too much attention to baby lactations. Look more at the dam and sire.

SDD: CAPRIKORN ZEPPA CASSIOPEA

02-09 325 4903 167 3.6% 138 2.8%

BIG MILK AND BIG SHOW and big fat

Top 3 y o score EEEE from the appraiser that gives the lowest scores.

12th of 25 2y.o.'s 2014 Nationals Top Yearling LA score in the herd

#4 all-time Elite Buck List December 2018

D: CAPRIKORN BE HOT PEPPER 4*M #620 A 99th %ILE DOE 25% Alpine

We don't really want to keep 3/4 Grades. But HOT PEPPER had looks on top of the milk.

MILK; It is possible that this was our only doeling where both the dam and sire are 99%ile animals.

HOT PEPPER had an excellent build. The Appraiser only gave her a "V". But she was our choice of all the kids to take to Nationals. She was one-third of our "Best 3" at 2016 Nationals. But she was NOT a drop dead killer show goat.

DDS: COACH FARMS WILLEM'S SNAP 99thPercentile

DD: CAPRIKORN SNAP ECLARE 3*M 99th percentile Big for her age.

Her full sister ECLAIR had width and fat teats.

ECLAIR second of 14 at Frederick September 2016. But a lot of the competition was 4 H'ers.

DDD: CUMIN - Possibly our best milker. Time will tell.

Top Ten THREE TIMES - #1 on Elite Doe List as of Mar 2020

305 5142 lb! LA-89. Scott said: "LA -89 a little high. Not enough attachment."

Next Appraiser said: "LA-90."

JILL's brother JACK PEPPER had weird front legs and we refunded the \$1795 that the Helmuths had paid for him and sent him to the sale barn.

JILL's complete show record:

2019 First show 1st of three, lost grand & Reserve to Araby Farms 3 y o in first ring

Second Ring, same

Second Show 1st & Grand. Leg #1. defeated 1 ARABY, one Diana Patton, Two C Creeks

Third Show 1st & Grand - Leg 2. Fewer entries

Fourth Show - Defeated by CAPRIKORN JWALA! No 3rd leg in 2019.

Scott failed to bag JILL enough. Late lactation.

Fifth Show - June 13, 2020 GRAND, 3rd leg, PERM!

The brotherhood of Saanen Breeders runs through XTORT's bloodlines.

Frances Szasz, a brave little Quaker lady, bred SHARMIN, who led the Saanen breed for three consecutive years in milk. All by herself Frances rented a van and drove to Missouri where DRAMBUIE of the famous Yarrow Hill herd was located and brought him back to the Hudson River Valley upstate New York City.

And the son of DRAMBUIE and SHARMIN was LEGEND WEST ATLAS.

Naturally, Scott went after the son of the 3-times #1 doe. In the first year he trucked two of his heaviest milkers up there to be bred. That didn't work.

In the second year, he leased ATLAS.

The third year, Frances allowed Caprikorn to buy ATLAS.

ATLAS begat CRUZEIRO who, in her turn, was #1 in the Saanen heard with 5,110 pounds. At that time there had only been one or two other 5,000 lb lactations in 305 days in the Saanen breed.

Cruzeiro begat GCH++★B CAPRIKORN JUDGE'S KRUGERRAND, who begat 92 registered Saanens, plus lots of unregistered, notably in the BETHEL herd.
