

Update – November 2016

# **The Few Remaining Bucks that are available have been transferred to “Bucks For Sale”.**

Older Bucks for Sale

August 30, 2016

This doc is now in WORD, not WP  
2016 Bucks for sale is in WordPerfect

**THESE PRICES ARE ALWAYS UP TO DATE**

The short version is:

No one is left under \$2,395.

If you would prefer to order a buck kid BEFORE it is born.

**PLEASE LOOK BEHIND THE BUTTON “Advanced Baby Sales”.**

You can reserve a buck kid in advance. When he is born, he’s yours if you want him, no matter how well built he is, no matter how well his dam is doing.

If you change your mind we refund your deposit right away.

## What is a buck worth? IT DEPENDS!

For an average dairy milking 100 pretty good does,  
our guys will raise their milk check by  
700 lbs. per doe x 100 does x \$39 cwt = \$27,500  
each and every year.

(2.2 lb. per day times 300 days = 700 lb. per year)

(“Pretty good does” meaning that herd peaks at 9.5  
lb. per doe per day)

(But if you peak at 7.5 lb./day and you are milking  
200 he brings in \$98,800)

But for a homestead with awesome DHI records and  
15 milkers, it’s more like  
250 pounds x 15 milkers x \$31 = \$1,072.

## **WHAT ABOUT TWO YEAR OLDS?**

Going to be 2 y o's in Breeding Season Fall 2015  
(BORN IN 2013)

The Short Version  
(they are in the back)

The last one left, DEEP SPACE (pg. 33) \$1,995 – dam was probably our best doe\*, but he has a permanently dislocated shoulder. He walks with stiff front left leg. Maybe he should stay here and breed so people won't complain that he is defective.

*Was bought by Noah Yoder Aug 6, 2015*

## **WHAT ABOUT YEARLING BUCKS?**

Going to be yearlings

There are about 3 left starting back around page 27. Expensive!

That's why they are still here.

Going to make huge milk/fat/protein.

That's why we're Number One.

## **WHAT ABOUT 3 YEAR OLDS?**

CZARBUCK on page 51 is expensive.

His sire is Number 2 All Time on the latest Sire Summary.

And his dam is our best doe ever.

So we are back to:

The way to get a mature CAPRIKORN buck is to buy a kid and let him grow up.

# BEGIN 2015 BUCKS

\*\*\*\*\*

**CAPRIKORN RUMI STAR FELLA \*B** #515 AS1739851 Born January 21, 2015  
American Saanen Never Appraised

Long teats for hand milkers

**Reserved by Lanoue - \$795**

SS: WILLOW-LANE ONYX

S: RANEA RUMI

SD: SGCH RANEA ESENCIO RAIN 9\*M **LA-92**

The highest LA in a herd milking 150 head AND SHE HAS MILK

DS: SG YELSON ++ \*B P.15 Recent Bucks probably our milkiest buck

D: SG CAPRIKORN YELSON BARBARELLA 3\*M #150

DD: SG CAPRIKORN VERN YILDA 2\*M

YILDA has sent \$900 buck kids to Utah, Ohio, and Wisconsin.

Lifetime 1847 days 19,567 lb milk

BARBARELLA's first test IN 2015 WAS 17.0 lb, 2<sup>ND</sup>, 15.5. 3rd 16.0. We thought she would beat them all last year but she greatly disappointed. The strangest lactation ever here. She had blood in her milk on 2/24/15. Maybe STAR FELLA could be in a hand milking herd.

\*\*\*\*\*

**CAPRIKORN BLUE GM FLASH \*B** #545 AS1714238 Born January 28, 2015  
American Saanen Never Appraised

**Reserved by Elmer Yoder, MN \$1,395**

American Saanen

SS: SG CAPRIKORN ZECRET KEEPER +\*B – #3 All Time on the Elite Buck List

DD: CAPRIKORN ZEPP0 LT AYALA 99<sup>th</sup> %ile **Top Ten**

02-07 305 4485 120 2.7% 125 2.8%

AYALA's PTAM was PLUS 500. The top buck in the breed is only plus 300

We felt AYALA was our best doe and she suddenly died.

DDD: ZTARTREK – She has the second highest PTAM in the U.S. and her son was bought for \$6,995

BONES is sick. She is not going to have a 4,000 pound lactation this year.

**SHE IS A 97%ile DOE!**

DeForest Kelley is the actor who played BONES in the original Star Trek. Good looking.

DeForest shown 4 times. First of 3 all 4.

One weakness is that DE FOREST's dam's lifetime butterfat is only 3.0%. A positive is that E mammarys don't grow on trees. Also he has loose shoulders. His ribbing and escutcheon are better than excellent.

\*\*\*\*\*

6-01 294 3277 90 2.7% 82 2.5%

7-03 216 1832 44 2.4% 48 2.6%

XING was SAANEN TOTAL PERFORMER at Nationals in 2011!

“Total Performer” is a combination of milk fat protein Linear and show.

**XING was TOTAL PERFORMER AGAIN IN 2014!**

But her dam beat her for the lifetime milk award!

DD: SGCH CAPRIKORN RAMESES VVS 1 “ROCKET” 5\*M LA-91 TWICE

Ending her life with 2072 days **22,861** pounds milk, 792 fat, 650 protein

Highest LIFETIME fat and protein in the herd at the time of her death

Highest Lifetime Milk Award at 2014 National Show

Scott said FLINT has an edge over FIRE. Judge Wolf says FIRE has the edge.

Alice says they are even, FIRE advantage in length, FLINT advantage in BC.

#575 looks great! XING has everything but a rear udder and YELSON brings it.

# 575 Friendly, well built, rambunctious

XING sold two different bucks in two different years each for \$2,395 – Philippines and Russia

In addition to big milk, these could be our showiest bucks because XING’s ptafs is +1.0 and

YELSON’s is +.20

\*\*\*\*\*

\*\*\*\*\*

**CAPRIKORN RUMI FALCON** (pending) #582 Born February 2, 2015  
American Saanen

An NSBA kind of buck – show and milk.

**\$645**

**Not** an Amish Dairyman kind of buck.

RESERVED BY ELIZ WILSON

Because DESNA is around 80<sup>th</sup> %ile and RUMI is around 80<sup>th</sup> %ile and the means FALCON Is milkier than 4 out of 5 bucks FROM TESTED HERDS. And we can always get you something better than that.

SS: WILLOW-LANE ONYX

S: RANEA RUMI

SD: SGCH RANEA ESENCIO RAIN - **LA-92**

The highest LA in a herd milking 150 head AND SHE HAS MILK

DS: \*B CAPRIKORN YELSON MEADOW BOSS

He is our largest buck and his dam and his twin sister both have 92's.

D: CAPRIKORN BOSS DESNA #320 – good milk and killer show genes

1-00 349 2468 84 3.4% 79 3.2%

9<sup>th</sup> place at Nationals

DD: AIRACOBRA – Show List LA-92 – 9<sup>th</sup> 3 y.o. at Nationals

This is Scott's pick for best looking buck.

October 4,2015,Ben placed him second of 9.

But keep in mind that ADGA judges get "best looking" by starting at the nose end and going back. Whereas Scott starts by looking at the buck kid from behind.

This is the highest protein percent a Saanen can have, but the people who buy show bucks never think about protein.

\*\*\*\*\*

\*\*\*\*\*  
CAPRIKORN RUMI FORNAX #589 AS1714803 Born February 3, 2015

## Reserved by Hol, Maaika – \$1,995

DDD: SG CAPRIKORN KRUG’S STARGATE 1\*M LA-90 & LA-89

1<sup>ST</sup> PL 3 y.o. & BU vs 24 Milkers June 24, 2006

305 days 5,140 pounds #1 in USA NSBA GOLD SEAL

305 days 5,367 pounds #1 in USA 2x NSBA GOLD SEAL

One of only two Saanens in the history of the U.S. that had two lactations of over 5,000 pounds in 305 days

05-10 305 3653 109 2.9 04-08 377 6105 176 2.9

04-08 305 5367 150 2.8 #1 in the USA (over all breeds)

02-08 305 5140 160 3.1 #1 in the USA (over all breeds)

01-08 305 3220 87 2.7

Best Udder in Show vs 24 milkers!

Price will go up if her 2 y.o. tests boom. 1<sup>st</sup> one was 13.5, tied for 10<sup>th</sup> out of 65 milkers. Looked like price will stay down. Second one 18.5 lb. Looks like price is right. Third test 19.5. We plan to use FORNAX here on the early breedings if no one buys him. Her milk genes are better than her raw score. So her buck kid is a bargain. CASSIE’s weakness is “posty” and RUMI brings the angulation.

CASSIE had the highest test in the herd March 29, 2015. He has the big arc, and an excellent rear end assembly. He has the excellent rump angle, which is what you expect from RUMI and CASSIE. Both of them have it. He is awesome all around except his front feet.

\*\*\*\*\*

\*\*\*\*\*

**CAPRIKORN COBALT FIRST STAR \*B** #591 AS1714212 Born February 5, 2015

DD: SGCH CAPRIKORN WEALTH **XTORT** 2\*M LA-91 26,000 lb. 2,000 days

WINNER - LIFETIME MILK AWARD - **2014 NATIONALS grades**

XTORT’S LIFETIME FAT IS AMAZING, SHE HAS AROUND 900 LB

The second highest lifetime fat in the herd is only around 600 something.

5144 has a large straight single horn. URRRGH. We are using them here. In her 2 y.o. lactation, CUMIN beat the entire herd, young and old. So far in 2015, as of May 1<sup>st</sup>, she is headed towards beating them all again. On her April 30<sup>th</sup> test, she beat the whole herd.

When you see her huge mammary it is obvious what is happening without studying the DHI printouts. The mammary is shaped o.k. It is just set too low for the judges.

\*\*\*\*\*

DS: SG ZEPPPO +\*B LA-90 - his dam 99<sup>th</sup> Rank PLUS LA-91 Elite Buck List #7 on the  
 latest USDA Top Buck List

D: SG CAPRIKORN ZEPPPO CITATION 87<sup>th</sup> %ile 4\*M

1-11 159 1886 60 3.2% 53 2.8%

She is headed for 3300 in her lactation starting at 1 year 11 months of age. Lifetime fat 3.0%

DD: VERONICA 3\*M – LA-91 305 1-10 305 4010 3.1% - tall, upstanding doe

Her mammary could hold 17.0 at a time – (not per day!)

(PER MILKING-BAGGED)

Race horse name from the Old Red Line.

CITATION better than 6 out of 7 Saanens on test per her USDA Rank.

And going up, until we got a batch of stinky feed.

Her first two y. o. tests are 12.5, 14.0, and 14.5 lb.  
ECLIPSE and EASY GOER were by far the two best looking buck kids of 2014, as of Feb. 17, 2014.  
By May ECLIPSE was only just above average and EASY GOER was actually ugly. ECLIPSE posty, steep rump.

CITATION probably has the best body in the herd. And she passes it on. She has a chopped fore, otherwise she would be a \$5,000 doe. She beat CASSIOPEIA, #292, our top 2 y.o. show doe, on June 15 2014, Judge Kempe.

87%ile means she has more milk than 7 out of 8.

On July 11, 2014 the ADGA Linear Appraiser did 32 buck kids and these two got the highest scores.

ECLIPSE has awesome rear leg angulation, friendly.

01-08 305 3220 87 2.7

Best Udder in Show versus 24 milkers!

Now here is a doe that did 15.0 on February 28, 2015 when she was born in 2006.  
 WIARA's last buck went to Canada for \$1,995.  
 She now has 23,302 lb. lifetime.  
 BING's dam freshened at 8 or 9 months. So did WIARA. That's why we bred them!  
 Every doe that is not milking is costing you money. Get ERA or NEW ERA so that your herd will stop standing around dry and start getting the milk check-up.  
 WIARA is the oldest doe in the herd and still bringing home the bacon as of May 2014. 14.5 lb/day!!  
 WIARA gave us the beautiful, big producing ANDROMEDA who sold for \$2,895.  
 BING is the friendliest, smartest buck but he is a little small for his age so far.  
 Judge Katie Wolf rated these two #4 and #5 in looks out of 37 buck kids in May 2014.

They competed versus 4 other buck kids on June 8 and the consensus of 3 judges is that NEW ERA is the best looking of this year's CAPRIKORN buck kids, and ERA is second.

After ERA was reserved, the Appraiser came on July 11 and made ERA VVEcV and NEW ERA only +V++! So kids change fast.

Starting at 2 yrs and 7 months BAR is headed for 3308 with 139 days 1817 pounds as of July 4, 2014. One of our top milkers, in this lactation.

3<sup>rd</sup> at Nationals Fabulous mammary

We are thrilled with the BAR EXAM mammary. .

DD: CAPRIKORN SNOW ADJUDICATE

At 2 weeks of age Scott said he looked good. At five weeks of age Scott says he looks spectacular. Mainly the escutcheon is off the hook, and he is more powerful than the other buck kids his age. The length and rear leg angulation are fab. If you have to find some weaknesses – First and foremost there is a little dip in the topline, which happens in some really long bucks. It is so minor that normally you would not care much. But we want you to know that happens to be the major fault of his dam, in Scott’s opinion. So it’s likely to show up in some of his kids. Secondly you could point to little bumps on the knees. Thirdly the shoulder tightness looks only average, but you never know when they are covered with hair. Fourth, the ears are still folded at 5 weeks.

ADGA judges are trained to start at the nose and work backwards. That’s wrong. We don’t care about the noses or the ears. They have nothing to do with the size of the milk check. We look at the Saanen from the back first, because the main thing is a big roomy escutcheon. EXAM is a knockout from the back. BAR has the widest udder in the herd.

We have two different videos of BAR so you can see her for yourself. The first one at appraisal – she is two. The second one in a show ring – she is 3.

He is not smart and so he is not friendly. But neither is he wild.  
BAR’s 97%ile means that she has more milk/fat/protein than 32 out of 33 tested Saanens.  
Powerful, and lately he is friendly. Probably the best escutcheon overall size and length.

DDS: SG SHERRY'S TSM HELSA'S YELSON +\*B – probably our  
milkiest buck

DS: CAPRIKORN YELSON STARBY \*B – son of **STARGATE**, our best doe  
ever – The new USDA ratings came out August 2014 and STARBY is #5 All  
Time Saanen Buck!

D: CAPRIKORN STARBY DOBRE – top milking yearling – also looks great 98%ile

DD: SG CAPRIKORN RV YGERNE 12\*M TOP TEN LA-92 9<sup>th</sup> place at Nationals  
 YEARLING LA-86 +EEV Jermain  
 LA-91! 3yo Jermain  
 LA-92! EEEE 4yo White  
 03-11 269 4427 129 2.9% 120 2.7% should be Top Ten  
 She was on pace for 5,000 in 305 June 2012.  
 YGERNE was cruising at 19lb per day in May 2011 and going up.  
 Had (more protein than fat) but it changed.  
 HAD A SHOT AT 5,000 THIS LACTATION!! The trip to Colorado and back slowed her  
 down. 10<sup>th</sup> Place 4 y.o. at 2012 Nationals!! (Out of 19)  
 Ben Rupchis, an extremely picky breeder, is starting a new super herd. He chose  
 YGERNE's son as his herd sire.

DOBRE pronounced DOUGH-bray is clearly the milkiest yearling out of about 30. AND originally we  
 rated her about the 3<sup>rd</sup> to 5<sup>th</sup> showiest, miracle of miracles! Then Judge Wolf picked her out over all our  
 yearlings to make the trip to Nationals. THEN she defeated ZTARTREK, AIRACOBRA, and  
**CASSIOPIEA** on Sept. 13, 2014!! (Normally YEARLINGS DO NOT DEFEAT OLDER MILKERS!)  
 So after we prove out BLUE and BULGING EYE and BOSS and ELEX #471, ELYAN will be our next  
 herd sire. Unless someone buys him. ELYAN's first couple kids look great, but it's too soon to tell. A lot  
 will depend on how CZARBUCK proves out.

UPDATE- AS OF JUNE 2016, DOBRE is flunking in her second lactation and we lowered his price from  
 6495 to 2495 for starters.

01-08 305 3220 87 2.7

Best Udder in Show versus 24 milkers!!

Was reserved by Bradley of Wisconsin for \$3,400. Changed their mind when Alice: 1. Said she bred ZTARTREK to an Alpine. 2. Later said she bred ZTARTREK to a Saanen. 3. When E.T. was born, said that was from SNAP breeding. Way too confusing. We will DNA. The Extra Terrestrial.

E.T.'s brother, ETERNAL FLAME on page 7 was bought for \$6,995. However FLAME was an "American Saanen" and E.T. is a "Registered Experimental"

Scott say E.T. has the worst combination of short steep rump he has ever seen. However he has about 6-8 dau's here and none of them have it.

But that is why we knocked his price down from 5,995 to 2,995.

Also he was part of our grading up process. And now that we have American Saanen does "in the oven" descending from SNAP, we don't need him for anything.

Three of his dau's are on top of the Elite Doe list for Experimentals. You can find this list by going to cdc.us, clicking on "Genetic Evaluations" and scrolling all the way down to "Top Doe"

\*\*\*\*\*

\*\*\*\*\*

DD: SG CAPRIKORN SHARK'S VERONICA 3\*M LA-91 305 4010 – tall, upstanding

\*\*\*\*\*

We believe in Escutcheons – Height and Arch.

The Appraiser's scores for buck kids ranged from 35 to 38.

The top heights from the Appraiser on July 11, 2014 were:

4118

4105

4100

470

464

463

459

429

423

411

They all received the identical score of 38.

\*\*\*\*\*

Even more we believe in Arch.

The top six scores were:

4118  
469  
461  
441  
415  
406

They all received the same score: 28.

His range was 18 through 28.

Putting those two lists together, E.T. RULES! (#4118)

But we don't need him because he was part of the 50% "Grading Up" process and we are working with 75% level people now.

## *WHAT ABOUT OLDER BUCKS?*

### The Short Version

Most everyone gets sold by July

This page is bucks we have been using here. They are **OVERPRICED** because we have invested testing fees and Appraisal fees into **partially** proving them. It takes a lot of DHI tested dau's to prove a buck's PTAM. We don't want to start

over with new buck with zero tested and appraised dau's.

#2130	CZARBUCK (twin to CZARGATE)	Pg. 29-30	\$6,995
#230	SGCH COBALT	See "Recent Bucks"	\$9,995
#110	BING – See "Recent Bucks"		Reserved by Hollomon
#114	BLUE STAR – See "Recent Bucks"		Injured - NFS
#133	BIZNES WAS 3,495		WE NEED HIM HERE
#154	BULGING EYE – See "Recent Bucks"		\$7,495
#158	MEADOW BOSS – See "Recent Bucks"	Reserved by First Time Diary	
#1149	STARBY – See "Recent Bucks" (too much)		\$1,695 (WAS \$9,995)

**"RECENT BUCKS"** is a section in the big paper catalogue.

**YOU NEED TO MAKE YOUR MOVE AS EARLY AS YOU CAN.**

Waiting until Breeding Season doesn't seem to work too well.

Every year lots of people call wanting an older buck.

That's why there aren't any.

The way to get an older Caprikorn buck is buy a kid and wait a year.

## BEGIN 2012 BUCKS (BASICALLY NONE ARE LEFT)

\*\*\*\*\*

DDD: CAPRIKORN CASH'S MY DIAMOND 3\*M

DDDD: CAPRIKORN ICE FORCE 2\*M LA-88 294 3680 117 3.2%

COBALT already has milking dau's at CAPRIKORN. He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for \$2,395. So Alice jacked up the price because she would like to have a Rocket son for a change. All the others were bought. This was an awesome looking Baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. Then he became a yearling. Our yearling bucks are ugly. One place Scott can fault him is the rump could be wider. Secondly, ZURICH has a slight minus for PTAFS.

COBALT is plus for type.

His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile.

But although he has 24 registered dau's, none have ever been on test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck(adga.org) lists. IT IS RARE FOR A 95<sup>th</sup> %ILE BUCK TO ALSO BE PSTIVEFOR TYPE.

You get the best one! Which right now is CZARBUCK. Because CZARGATE has a broken back leg. We sell semen from him. TWO OF CZARBUCK’S KIDS WERE NARROW AND WEAK WHEN VIEWED FROM THE FRONT. We haven’t seen enough of them to know if this is a trend or just a fluke. Same dam. CZARGATE is making what we call “folded ears”. Where this comes from we have no idea. His babies have it but almost all of them straighten out as they get older. Of course, dairy farmers don’t care because CZARGATE GETS THE MILK CHECK UP! But if you are a devotee of “true Saanen breed type,” you would avoid CZARGATE.
