button called “2017 Doe Kids for Sale.”

You can buy as many as you want,  
if you leave us with 18 for herd replacements.

How about 2017 doe Kids?

They are listed behind a different button -

**TRY “2017 does for Sale”**

Scott says: “That is the best place to shop.”

NOTICE: Between July 15<sup>th</sup> and February, due to the breeding season,  
prices change every day in accordance to pregnancy. But once you send

Scott's pick for a Dairy Farmer is #618.

Jan 4 2017

Scotts pick for a dairy farmer that does not show is EROICA #421 (pronounced Err ROW ih ca)

Another great value will be #5188, FORT BENNING.

First, she cannot show buyers a great yearling lactation because she was a May kid., and the buyers don't not understand genetics and just look at the lactations.

Second, she is 75%. We needed a lot of 75%'ers for our grading up program but now we are one generation further - American Saanen does. We don't want 75%'ers anymore.

.

Good prices, solid milker as of April 2017.

FIREBEE #579

FARSTAR#5117 - Because she is a 3/4 Grade and because she is 98<sup>th</sup> percentile and because she is not beautiful

Scott says, August 30 2017 -

'FLYER #5127 is a wonderful value pick for a dairy farmer. Right before the new ratings came out she freshened with mastitis.

Only that one bad test went into her rating. Now she is mastitis free and going up.

She was 99 before that test and now she is only 97.

But the main thing is that she is a 75% grade. Alice and I are Saanen Breeders. Our grading up program has moved on one generation. We got 6 87.5% grades, which are called Americans. When we determine who the best of the 6 is we will get a buck kid from her.
