Scott's pick for a Dairy Farmer is #618.

Jan 4 2017

Scotts pick for a dairy farmer that does not show is EROICA #421 (pronounced Err Row ih ca)

Another great value will be #5188, FORT BENNING.

First, she cannot show buyers a great yearling lactation because she was a May kid., and the buyers don't not understand genetics and just look at the lactations.

Second, she is 75%. We needed a lot of 75%'ers for our grading up program but now we are one generation further - American Saanen does. We don't want 75%'ers anymore.

Third, her dam is rated at 98 %. - better than 49 out of 50 Saanens. From a VALUE point of view, ELYAN FIRST DOE - here is a 97%ile doe cheap because she is a 75% Saanen. We have now moved our grading up process on to dealing with American Saanens, one step further.

Good prices, solid milkers as of April 2017.
