D: CAPRIKORN CHAIN’S HOLSTEIN “BABY HOLSTEIN”
BABY HOLSTEIN was a Nubian/Saanen first cross. She had the usual hybrid vigor. She was too small at one point. Looks like her name. Was STILL CRANKING AS AN AGED DOE!
1-10 124 1360 44 3.2% incomplete - bought
7-08 230 1940 78 4.0% incomplete
DD: ZLINKY, p.G of “Foundation Does”, the last and best of our once big herd of Nubians. Isn’t it strange how many herds that once had Nubies no longer do?
WINDERLY’S INKY, an Alpine with 20,000 lb. Lifetime was bred to a son of COLD COMFORT CABBAGE, all time Nubian recordholder at 5300 lb., to produce YANKEE. YANKEE and a FROSTY MARVIN son produced ZLINKY.

An amazing +0.9 PTA Protein %. After all these years when the breed has been moving up, KATMANDU is still 95th ile as of January 2017. Formerly 99!
At 8 years old on March 12, 2005, KATMANDU dropped an amazing 14.5 lbs. on official test!!

We didn’t think she would kid at 10! We went all the way through the 2003 Performance Volume and not one Saanen in America freshened at an older age than KATMANDU did in February of ‘08.

SAY-IF YOU FIND ANOTHER GCH LA-90 THAT IS IN THE 99TH PERCENTILE, CALL US!
We’ll be right out with a big ol’ stack of \$100 bills.

D: SG CAPRIKORN SHARK'S VENICE 3*M # 506 LA-90 AS 1326995 Born January 20,2005

#1 in U.S. Saanens for Protein in 305 days TOP TEN.
10th Place Milking Yearling National Show
All 4 of VENIC's adult daughters appraised 90!!
02-01 305 4880 150 3.1% **TOP TEN**

DD: GCH SINGAPORE LA-90 177 lbs of fat in 305 days.

After all these years a doe with freaky butterfat! But - Can she pass it on?? YESSS!! Her son is the highest living USDA rated Saanen, mainly because of his dau's b.f. & pro.

Awesome mammary. Has one RGCH in 4 shows.

Tiny at birth. Nice rear leg angulation and VERY NICE escutcheon. The back feet are mediocre. If you care about the size of your milk check, or if you care about how much cheese you make from each gallon of milk, you may want to look at the end of the list where we discuss this subject of components.

A disappointing second lactation, which didn't cause her to get kicked out of the 99th percentile. EXCEPT THE B.F.! 143 will easily make TOP TEN! Freaky.

Her 2011 buck kid works in Quebec. Her 2009 buck ZURICH is the highest rated living Saanen on the USDA Elite Buck List as of January 2017. (Go to adga.org. Click on Performance Programs. Click on Elite Bucks.)

GOAT BUYING TIP:

See how WINNEMUCCA's b.f. % jerks around. That happens all over the country. Labs get different b.f.'s each month and each year. So, if you have a choice between two Saanens, rely on the one with the milk numbers more than the b.f. one with the butterfat numbers.

SGCH CAPRIKORN YELSON CHEYENNE 5*M #2143 AS1614179 Born July 9, 2012
American Saanen For Hand Milkers 96%ile as of June 2017 LA VVVE 90

01-06 305 2716 81 3.0% 77 2.8%
02-06 306 3617 122 3.4% 103 2.9%
03-06 305 3533 133 3.8% 102 2.9%
03-06 364 3894 151 3.8% 115 2.9%
04-08 357 2975 107 3.6% 86 2.9%

HER KIDS WILL ALWAYS BE A GOOD DEAL FOR DAIRY FARMERS BECAUSE SHE NEVER QUITE MADE 4,000. But think about it - you get a bigger milk check with 3894 and 3.8% b.f. than you do with 4000 and 3.0 b.f.

We said “Will probably be 1st place Jr. Yearling at 2013 Nationals.” four years ago in this catalogue. WAS ACTUALLY **2ND PLACE ON JULY 9, 2013!**

#1 in U.S. Saanens for Protein in 305 days 10th Place Milking Yearling @ Nationals

If you saw CHEYENNE you would know right away you want her kids.

We said: “Her dam was ranked 99th percentile and her sire is our best milk buck out of those with a positive PTAFS. It is scary how good CHEYENNE could be. As a kid she has been shown only once and was Grand Champion in milk. Before she turned two she was first in both rings as a milking yearling. Then we stopped showing her. We knew the body is there and we knew the milk is there and we knew the components were there. We thought “If she gets the awesome mammary she becomes a \$5,000 doe and her babies sell for 1,500. If not, she is a 1,500 doe and babies sell for 600.” It’s too bad that U.S. Breeders put way too much weight on mammaries and way too little weight on milk/fat/protein. But that IS the way it IS”

2/19/14 Scott said “an E mammary – maybe not enough fore. Fabulous rear and teats.”

Shown only once in 2015 and of course she could not beat CASSIOPEIA. CHEYENNE got coded “A” for acceptable for feet. Rear feet weakness is the very reason the Ryals turned down WINNEMUCCA as a kid. Since we breed for strong rear pasterns, we knocked CHEYENNE’S price down and also her kid’s.

Second place at Nationals July 4, 2016 with her dau FLORENCE 3 PAGES FORWARD.

August 8, 2016 - BEST IN SHOW versus 54 milkers. (2nd leg) Price went up.

July 12, 2017 8th place in the 5 & 6 Year Old class at the National Show

May 26 2018 1st of 2 at Leetown

August 3, 2018, beaten by an Ober who went Reserve to HALLOUMI of the XTORT family.

August 6, 2018 beat HALLOUMI and 10 others to get her **THIRD LEG.**

CZARGATE makes big milk/fat/protein. But he also makes folded ears. Folded ears make Saanen breeders crazy.

SG CAPRIKORN BE FIRENZA #5137 S001754689 Born February 24, 2015
American Saanen Young Stock VV+V
Fore is well extended but not smoothly blended Yearling + VV + 84
01-00 305 2509 104 4.1% 75 3.0%
02-01 331 2211 81 3.7% 66 3.0%

SGCH CAPRIKORN YELSON BULGING EYE #154 1556751 Born February 26,2011
American Saanen PTAM **PLUS** 302 JULY 2016 LA-90

BULGING EYE has a PLUS PTAM of 306 as of Nov 2017. What does this mean? It is higher than ANY of the bucks on the Elite Buck List by USDA, CDCB, and ADGA as of Nov. 2017. So he increases the milk in his dau's more than any other buck so far as we know. BULGING EYE is a very heavily proven buck. CAPRIKORN YELSON BULGING EYE has 37 Dau's 7 of them have been on test. This means his PTAM will change over the years, but not by much.

DS: ZURICH - p.18 as of June 2016 highest rated Living Buck on the Elite Buck List
DSD: WINNEMUCCA above LA-90 TOP TEN

D: SG CAPRIKORN ZURICH'S ANNENUSKA #109A
1-00 176 1437 47 3.3% 41 2.8%
1-07 336 3460 113 3.2% 97 2.7%
2-08 312 2767 88 3.2% 79 2.9% disappointing
3-07 260 2784 84 3.0% 84 2.9% in progress
Has 2 LA-90's

DD: ZENUSKA - died young

It is easy to recommend this doe! ANNENUSKA is 94th percentile, AND SHE IS PLUS 0.6 PTAFS, probably the highest combo of RANK to LOOKS in the herd, depending on how you weigh each of those factors. ANNENUSKA'S records are not impressive. But the USDA - DHIA rating of 94 knows what her GENES were, and it is her GENES that are being passed to FIRENZA.

As a yearling FIRENZA looks good but not great. Makes sons that are herdsires.

FIRENZA is another name for Florence, Italy. First 2 y.o. test 13.2 LB 5/13/17

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this
doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that
could happen with linebreeding, and we believed her out cross offspring would be super.
Mainly expecting the flat rump angle. ROCKET'S FINAL STATEMENT. Not enough fore.
Walks uphill. Sharp withers. Tight shoulders per Scott. Only "Good Plus" per Eric. As of
March 2016 we had seen two dau's and they were both really well built. So sad that she was
bought and lives in Trinidad-Tobago now.

DS: CAPRIKORN YELSON FLINT *B

D:SG CAPRIKORN FLINT HAITI #610 6*M HAITI's ears are still folded January 2017. Overpriced due to Scott's grief at the young death of her dam - our best doe at ONLY ONE YEAR OLD.

DD: SG CAPRIKORN CZARGATE FLORENCE #577 **99th percentile 4th Place milking yearling AT THE NATIONAL SHOW.**

DIED SUDDENLY SEPT 5, 2016.

a very good looking first freshener even better looking than STAR FLEET. FLORENCE was ALSO leading all the yearlings in milk!! The double whammy - FLORENCE was ALSO our yearling milker entry at the Nationals July 4th, 2016. And she had tight shoulders.

V per the appraiser. Viewing the herd as whole on the average our number one conformational weakness is shoulders.

DAIRY FARMERS SKIP THIS DOE SHE HAS HE MILK BUT SHE IS ALSO TOP SHOW DOE

DD: SG CAPRIKORN WIND IXTAPA 4*M LA-92 one time Best In Show VS. 147. Milk? Weak!

In 2014, we said: "ELBA is big for her age." In 2014 was the highest rated kid out of 150 2014 kids for conformation by the Linear Appraiser on July 11, 2014.

2015: We said: "NOW SHE IS A WONDERFUL VALUE FOR DAIRY FARMERS."
What changed? Simple. The mammary popped out and the Appraiser gave it a "+". E mammarys make a doe's price too high because that is what the show breeders want. But show breeders are not remotely interested in a doe with an "Good Plus" mammary. .

2016 : Then we said: "NOT A GOOD DEAL FOR OUR DAIRY FARMERS" Why? Because this year's appraiser dropped a 90 on her at only two year old.

As a 3 y o, ELBA has been in 7 rings.
Leetown May 27 Ring One -defeated the top CHERRY GLEN doe. **Grand 1st Leg.**
Ring Two -lost to that doe.

DS: SG ZEPPPO +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90 Whiteside

ZEPPPO has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS
IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer
health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's

D: SG CAPRIKORN WIND **IXTAPA** 4*M p.S-10 LA-91, LA-92 once BIS vs. 147 milkers. Low milk.

DD: SG VENICE 3*M 10th Milking Yearling at Nationals; top protein in U.S.

B.F.% is too low, but protein % is excellent.

Her full sister was the very showy BELIZE. She has GREAT SHOW GENES, but she did not happen to catch an ultra pretty udder.

GENETIC FULL SISTER OF BOLIVIA. Once our top Show Doe. And with a higher PTAFS - **PLUS 1.1 !!**

With an RFL of 53 as of June 2017. That means the computer has some confidence in the PTAFs.

As of September 2010 she was the biggest of her class, and size DOES matter. She is too laid back to be a great milker. Not hot as a yearling. Hotter as a giant 2 y.o. milking like crazy.

She has the show genes big time. Three crosses to ALOHA - the top show doe in the last 30 years.

We planned to keep her son by RUMI for our show buck. But he developed salt and pepper hair. Mainly salt.

One 90, 2 91's 10th pl milker at Nat'ls

JIRGA is very impressive viewed from the side. She moves with grace and a nice rump angle that will only improve with age. She is huge for her age. Everything about her is built right, EXCEPT scott hasn't seen the udder bagged up yet. And that makes all the difference in the world. BOLIVIA HAS STAYED IN THE HERD STRICTLY ON LOOKS. Her dau, JIRGA's dam moved up the food chain milk wise. Hopefully JIRGA's sire has taken her to another level and she can stay regardless of whether she has a high rear..

End of the KATMANDU FAMILY
