------	-----	------	----	------	---------------------

7-08	230	1940	78	4.0%	incomplete
------	-----	------	----	------	------------

DD: ZLINKY, p.G of "Foundation Does", the last and best of our once big herd of Nubians.

Isn't it strange how many herds that once had Nubies no longer do?

WINDERLY'S INKY, an Alpine with 20,000 lb. Lifetime was bred to a son of COLD COMFORT CABBAGE, all time Nubian recordholder at 5300 lb., to produce YANKEE.

YANKEE and a FROSTY MARVIN son produced ZLINKY.

An amazing +0.9 PTA Protein %. After all these years when the breed has been moving up,

KATMANDU is still 95th ile as of January 2017. Formerly 99!

At 8 years old on March 12, 2005, KATMANDU dropped an amazing 14.5 lbs. on official test!!

We didn't think she would kid at 10! We went all the way through the 2003 Performance Volume and not one Saanen in America freshened at an older age than KATMANDU did in February of '08.

SAY-IF YOU FIND ANOTHER GCH LA-90 THAT IS IN THE 99TH PERCENTILE, CALL US!

We'll be right out with a big ol' stack of \$100 bills.

10th Place Milking Yearling National Show
All 4 of VENICs's adult daughters appraised 90!!
02-01 305 **4880** 150 3.1% **TOP TEN**

DD: GCH SINGAPORE LA-90 177 lbs of fat in 305 days.

After all these years a doe with freaky butterfat! But - Can she pass it on?? YESSS!! Her son is the highest living USDA rated Saanen, mainly because of his dau's b.f. & pro.

Awesome mammary. Has one RGCH in 4 shows.

Tiny at birth. Nice rear leg angulation and VERY NICE escutcheon. The back feet are mediocre. If you care about the size of your milk check, or if you care about how much cheese you make from each gallon of milk, you may want to look at the end of the list where we discuss this subject of components.

A disappointing second lactation, which didn't cause her to get kicked out of the 99th percentile. EXCEPT THE B.F.! 143 will easily make TOP TEN! Freaky.

Her 2011 buck kid works in Quebec. Her 2009 buck ZURICH is the highest rated living Saanen on the USDA Elite Buck List as of January 2017. (Go to adga.org. Click on Performance Programs. Click on Elite Bucks.)

GOAT BUYING TIP:

See how WINNEMUCCA's b.f. % jerks around. That happens all over the country. Labs get different b.f.'s each month and each year. So, if you have a choice between two Saanens, rely on the one with the milk numbers more than the b.f. one with the butterfat numbers.

SGCH CAPRIKORN YELSON CHEYENNE 5*M #2143 AS1614179 Born July 9, 2012
American Saanen For Hand Milkers 96%ile as of June 2017 LA VVVE 90

01-06 305 2716 81 3.0% 77 2.8%
02-06 306 3617 122 3.4% 103 2.9%
03-06 305 3533 133 3.8% 102 2.9%
03-06 364 3894 151 3.8% 115 2.9%
04-08 357 2975 107 3.6% 86 2.9%
05-08 305 2814 89 3.2% 79 2.8%

HER KIDS WILL ALWAYS BE A GOOD DEAL FOR DAIRY FARMERS BECAUSE SHE NEVER QUITE MADE 4,000. But think about it - you get a bigger milk check with 3894 and 3.8% b.f. than you do with 4000 and 3.0 b.f.

We said “Will probably be 1st place Jr. Yearling at 2013 Nationals.” four years ago in this catalogue. WAS ACTUALLY 2ND PLACE ON JULY 9, 2013!

8th place 2017 Nationals 5 & 6 Year Old Milkers

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings in Scott's opinion.

But #3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having an AWESOME baby lactation.

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis KILLED HER.

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 3.8% 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 3.7% 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that could happen with linebreeding, and we believed her out cross offspring would be super. Mainly expecting the flat rump angle. ROCKET'S FINAL STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott. Only "Good Plus" per Eric. As of March 2016 we had seen two dau's and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

DS: CAPRIKORN YELSON FLINT *B

D:SG CAPRIKORN FLINT HAITI #610 6*M HAITI's ears were still folded January 2017. Overpriced due to Scott's grief at the young death of her dam - our best doe at ONLY ONE YEAR OLD.

DD: SG CAPRIKORN CZARGATE FLORENCE #577 **99th percentile 4th Place milking yearling AT THE NATIONAL SHOW.**

DIED SUDDENLY SEPT 5, 2016.

a very good looking first freshener even better looking than STAR FLEET. FLORENCE was ALSO leading all the yearlings in milk!! The double whammy - FLORENCE was ALSO our yearling milker entry at the Nationals July 4th, 2016. And she had tight shoulders. **V per the appraiser.** Viewing the herd as whole on the average our number one conformational weakness is shoulders.

This doe has lots of front end width. She has one and only chance to stay here – sprout a show winning mammary. HAITI was only 52%ile !!!

DAIRY FARMERS SKIP THIS DOE SHE HAS MILK BUT SHE IS ALSO TOP SHOW DOE

SGCH CAPRIKORN ZEPO ELBA 6*M #443 AS1683162 Born January 26, 2014

D: SG CAPRIKORN WIND **IXTAPA** 4*M p.S-10 LA-91, LA-92 once BIS vs. 147 milkers. Low milk.

DD: SG VENICE 3*M 10th Milking Yearling at Nationals; top protein in U.S.

B.F.% is too low, but protein % is excellent.

Her full sister was the very showy BELIZE. She has GREAT SHOW GENES, but she did not happen to catch an ultra pretty udder.

GENETIC FULL SISTER OF BOLIVIA. Once our top Show Doe. And with a higher PTAFS - **PLUS 1.1 !!**

With an RFL of 53 as of June 2017. That means the computer has some confidence in the PTAFs.

As of September 2010 she was the biggest of her class, and size DOES matter. She is too laid back to be a great milker. Not hot as a yearling. Hotter as a giant 2 y.o. milking like crazy.

She has the show genes big time. Three crosses to ALOHA - the top show doe in the last 30 years.

We planned to keep her son by RUMI for our show buck. But he developed salt and pepper hair. Mainly salt.

In fall of 2019 we used her son KENYA on our show does. Even though ARUBA not a GCH. Scott "trust the PTAFS."

S: CAPRIKORN JARLS DE LA RENTA *B

SDS: SGCH CAPRIKORN ZURICH COBALT+*B LA-91

COBALT is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to have a ROCKET son for a change. All the others were bought. This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. One place Scott can fault him is the rump could be wider. Secondly, ZURICH has a slight minus for PTAFS. Cobalt is plus for type. His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cbcd.us) or Elite Buck lists. IT IS RARE FOR A 95th %ILE BUCK TO ALSO BE POSITIVE FOR TYPE.

DD: GCH CAPRIKORN Y KIKI BOLIVIA 5*M #126
DDD: SG CAPRIKORN WIND XANADU 4*M LA-91 (has 2 E'S IN GA)
One 90, 2 91's 10th pl milker at Nat'ls

JURGA's sister JIRGA was very impressive viewed from the side. She moved with grace and a nice rump angle that will only improve with age. She was huge for her age. Everything about her was built right. BOLIVIA STAYED IN THE HERD STRICTLY ON LOOKS. Her dau, JURGA's dam FRANCE moved up the food chain milk wise. With only a 57%ile, she was the perfect family milker and went to Mr. & Mrs. Lapu.
